

CIVIC

5 YEAR UNLIMITED KM WARRANTY

THE HONDA CIVIC.
DARE TO DREAM AND BOLD THINGS CAN HAPPEN.
INTRODUCING THE CIVIC.

RS shown in White Orchid Pearlscint.

DRIVEN ON A DREAM.

They say real progress should make you nervous. It's why resting on your laurels is never a good idea. Even for an intergenerational icon with more than 40 years of history.

Instead, our engineers locked themselves away with a challenging brief – to reset the benchmark for the small car category.

So the Civic was born.

Now in its 10th generation, the internationally awarded Civic feels more athletic and more spacious. Groundbreaking yet simple. Smoother. Quieter. Safer. And infinitely more refined.

It's amazing what happens when you dare to dream.

RS shown in Brilliant Sporty Blue Metallic.

FORM FOLLOWS FUNCTION. BUT IT'S A CLOSE RACE.

You don't make a beautiful car from the outside-in. Perfect form emerges from the way the car drives. How it relates to the road.

The Civic looks athletic because it is. Its powerful profile stems from the chiseled front grille before arching back into a low, muscular body with a coupe-like roofline. 17-inch alloy wheels* gleam confidently from flexed wheel arches, while at the rear, LED light bar tail lights provide an unmistakable presence.

For those who really like to stand out, the RS model brings even sportier touches with unique 17-inch alloy sports wheels, low rise tailgate spoiler and piano black accents.

Whichever way you look at it, this is the sportiest Civic ever.

But it's also the most advanced. With the latest LED technology used in the headlights[#], tail lights, and even in the side mirror indicators[^], the Civic makes a strong first impression.

*VTi-L models and above. ^VTi-S models and above. #RS models and above. ~Alloy sports wheels shown on RS model. +RS models only. RS shown in Brilliant Sporty Blue Metallic.

LED
Tail Lights

It's somewhere between cocoon and cockpit. When you take your seat in the Civic, you'll feel instantly at home, and in complete control.

All the information for your journey is displayed right in front of you on the customisable LCD Driver Information Interface. You'll find that all the controls you need are within easy reach like the electric parking brake switch, CVT gear shift, and Traction Control.

We've also made technology work for you so you can get more enjoyment out of driving, like the touchscreen Display Audio unit and steering wheel mounted controls.

Everywhere you look, you'll be surrounded by impressive flourishes and high-quality finishes. And with more forward visibility, you and all your passengers will have a clearer view of the road ahead.

And, as you wind back the electric sunroof,* and find your perfect position in the power-adjustable driver's seat*, who knows where the road will lead you.

ALL IN.

Interior

STRETCH OUT IN STYLE.

It's only fair that your passengers get to share in the comfort. So the Civic comes with plenty of room.

With some clever rearranging of seats, more space has been engineered for the feet and knees both in the front and rear, as well as a sliding centre armrest, for the ultimate in comfort.

For your valuable possessions, a clever two-tiered storage area holds your smartphone and keeps their cables hidden. While a large drink bottle, or even an iPad, can be discreetly stored in the centre console.

And for much larger items, the Civic has more room than ever. Its 60/40 split folding seats can be cleverly configured around objects big, small or just plain awkward.

Touchscreen

INTUITIVELY CONNECT TO YOUR WORLD.

It wouldn't be a Honda without its cleverly designed central touch screen interface. Whether it's keeping you entertained, in-touch or out of harm's way, the Civic takes the things that make your environment more enjoyable and puts them right where you need it – in full colour, 7-inch glory. Simply tap, press or swipe your way through music, contacts, camera displays and more.

Apple CarPlay⁺ and Android Auto™[‡]: As an iPhone® or Android™ user, you can now seamlessly integrate your device to the touchscreen display. Get directions, make calls, send and receive messages, listen to music and even interact with some of your favourite apps. The best part?

You can do it all while staying focused on the road. Just plug in your phone and go.

Voice commands: With access to Siri®+ or Google™ Voice Search†, composing a text message, finding a location or checking the weather can all be done without ever having to take your hands off the steering wheel. All you have to do is ask.

Digital Radio (DAB+)[°]: Experience digital quality sound and a broader range of stations with improved track display info.

Satellite navigation: Built into the VTi-LX you'll find Garmin®± satellite navigation which displays turn by turn information on the Driver Information

Interface, and thanks to SUNA™ live traffic updates, you'll always know how the traffic situation is looking.

Bluetooth connectivity[°]: Pair your favourite compatible device at the touch of a button. Whether it's a smartphone or even a laptop, the Civic is perfectly in sync.

Wireless hotspot: You can turn your car into a travelling wifi signal. Simply tether any mobile phone with a data plan and anyone in the car can connect to the online world.

Reversing Camera

> Climate
Control

6

- 1. Multi-angle reversing camera:** Shift into reverse and the multi-angle rear-view camera automatically comes to life on the 7-inch display. With up to three views to choose from and guidance lines to plot your projected path, it's your new best friend when you're in a tight spot.
- 2. LaneWatch[#]:** Designed to minimise one of the most notorious blind spots, LaneWatch really has got your back. Mounted beneath your left-hand door mirror, the blind spot camera projects vision on the 7-inch display from the moment you signal left or push the LaneWatch button.
- 3. Electric parking brake:** Forget the handbrake. A simple switch now makes parking an effortless experience.
- 4. Brake Hold:** Never again will you have to keep your foot on the brake pedal while stopped at lights or in traffic. Just press the automatic Brake Hold button and your Civic will lock tight. As you accelerate, the brake releases. Genius.
- 5. Driver Information Interface:** The brightly lit LCD display features every nugget of essential information in one easy-to-read place. As well as displaying standard functions like speed and engine revs, the display shows what music is playing, who's calling, turn-by-turn navigation[~] and trip computer readout like distance to empty, fuel consumption and outside temperature.
- 6. Climate control:** Adjust the interior climate to your ideal temperature and the system will maintain it for you. Solve any front seat arguments with dual-zone climate control[^] so you and your front passenger can set a temperature to suit your individual needs.
- 7. Smart keyless entry and walk away locking[#]:** If the key fob is with you, the Civic can sense your approach and unlock the doors as you touch the front door handles or boot release. It'll even lock up again when it senses you leaving (at 2.5 metres).
- 8. Push button start[#]:** When you're ready to go, just press your foot on the brake pedal and hit the push button to start your engine.
- 9. Front LED fog lights^{*}:** When visibility is poor, these seamlessly integrated front fog lights help to brighten your way.
- 10. Heated front seats^{*}:** On cold mornings you'll wonder how you ever got by without this cosy little feature.

10

On the road, we wanted the Civic to feel urgent and in command. A thrilling drive like nothing before it. So we started by inventing a whole new engine.

Introducing Honda's first ever 1.5 litre DOHC VTEC turbocharged engine available in VTi-L models and above. Equipped with the latest in Honda's revolutionary Earth Dreams Technology, this direct-injected powerplant generates an impressive 127kW with the exceptional efficiency of just 6 litres of fuel per 100km*. Select the VTi or VTi-S and there's the refined 1.8 litre i-VTEC option generating a handsome 104kW.

Both come paired to Honda's Continuously Variable Transmission (CVT), intuitively discerning the optimum gear ratio for smoother, more rapid acceleration while maintaining fuel efficiency.

To push performance further we've crafted a lighter, more rigid chassis. Together with a revised independent suspension setup, the Civic leans into corners with sheer confidence. A lower centre of gravity and wider track boosts stability, gripping the road even at high speeds.

TAKE A POWER TRIP.

> Engine Variants

1.5L VTEC Turbo
or 1.8L i-VTEC

> Chassis

> CVT Continuously Variable Transmission

> Earth Dreams

More enjoyment.
Less environmental impact.

*Fuel consumption figure is based on ADR81/02 combined test results for VTi-L model and above. VTi-LX shown in Rally Red.

VTi-LX shown in Rally Red above.

WE'RE OBSESSED WITH SAFETY.

THE CIVIC IS BRIMMING WITH BRIGHT IDEAS ON HOW TO KEEP YOU AND YOUR FAMILY EVEN SAFER. WE'VE INCLUDED THE VERY LATEST HONDA TECHNOLOGY, AS TESTED AT OUR WORLD-CLASS FACILITY IN JAPAN.

PARKING SENSORS

Slip in or out of tight spots with ease thanks to the Civic's front and rear parking sensors. These sound a helpful alert to let you know how much space exists between you and the nearest object. Standard on VTi-S models and above.

MULTI-ANGLE REVERSING CAMERA

Be on the look out for objects behind you with the multi-angle reversing camera. With normal view, top-down view and a special wide view, you'll always be covered.

EMERGENCY STOP SIGNAL (ESS)

Occasionally the situation requires sudden, heavy braking. For the driver behind you, this creates an emergency situation all of its own. So the Civic automatically flashes its hazard lights to alert those to your rear.

TYRE DEFLATION WARNING SYSTEM (DWS)

Be alerted long before it becomes an issue. The Deflation Warning System (DWS) keeps track of the pressure in all four tyres and reports to you if one is getting low.

VEHICLE STABILITY ASSIST (VSA) WITH TRACTION CONTROL

In adverse driving conditions, the Civic is able to detect oversteer or understeer, and automatically adjust its path for stability and safety. It can also manage brake pressure and engine power to help you regain control.

MOTION ADAPTIVE ELECTRIC POWER STEERING (MAEPS)

When VSA is activated, Motion Adaptive Electric Power Steering automatically adjusts steering pressure, making it easier to steer in the stabilising direction.

WHIPLASH MITIGATING FRONT HEAD RESTRAINTS

In the event of a collision, the front head restraints are optimised so that the seat will more equally absorb the occupant's impact. This has the potential to cleverly minimise the risk of a whiplash injury.

CUSTOMISABLE SPEED ALARM

It's easy to get swept up in the adventure. So set the speed alarm at whichever top speed you choose and the Civic will provide a visual and audible alert if that limit is ever exceeded.

AIRBAGS

The clever Honda i-SRS driver airbag system inflates at different rates depending on crash severity, seat belt usage and a host of other factors to keep you safe behind the wheel. Dual front, side and full-length curtain airbags are standard.

ADVANCED COMPATIBILITY ENGINEERING (ACE)

A brilliantly innovative body structure means that the impact from any possible frontal collision is directed away from the passenger compartment. So wherever you're seated, you'll feel that much safer in the Civic.

HILL START ASSIST (HSA)

HSA prevents 'rolling back' when starting on an incline. The system controls brake pressure, keeping the car stationary as you release the brake pedal and prepare to accelerate.

DAYTIME RUNNING LIGHTS (DRL)

LED Daytime Running Lights don't just look great, they provide increased car visibility too.

ANTI-LOCK BRAKING SYSTEM (ABS) AND ELECTRONIC BRAKE FORCE DISTRIBUTION (EBD)

The Civic comes armed with ABS for superior stopping power. When emergency braking is detected, Brake Assist applies maximum braking pressure, whilst EBD monitors and adjusts the brake force on each wheel.

AGILE HANDLING ASSIST SYSTEM (AHAS)

You'll never head into curves with more confidence. AHAS makes subtle and selective use of the brakes to ensure responsive turning and assertive handling through the corner.

VTi-LX shown in Brilliant Sporty Blue.

HONDA SENSING.

The Civic VTI-LX employs some of the most advanced safety technologies available today. Introducing Honda Sensing. This intelligent suite of driver-assist technologies is designed to help improve your situational awareness, and, in some cases, intervene to help avoid a collision or lessen its severity.

Images are for illustrative purposes only. Honda Sensing technologies are driver-assist technologies and should not be used in place of safe driving practices. Drivers should continue to monitor the road at all times. The accuracy and operation of Honda Sensing technologies may vary based on weather, speed, traffic, road conditions, markings and other factors.

SENSE THE SAFETY

REACTS TO A HAZARD BEFORE YOU MIGHT

FORWARD COLLISION WARNING

By constantly keeping an eye out for vehicles ahead, Forward Collision Warning (FCW) reduces the stress of driving in heavy traffic. If the system determines that a collision may occur, you'll be given an instant visual and audible alert to help you avoid whatever is in your path.

COLLISION MITIGATION BRAKING SYSTEM

If you happen to miss the FCW and a collision is likely, the Collision Mitigation Braking System (CMBS) will go one step further by applying the brakes. This helps to mitigate the severity of an accident that's unavoidable.

PAYS ATTENTION, EVEN IF YOU DON'T

LANE DEPARTURE WARNING

By reading the markings on the road beneath you, this technology triggers an on-screen message and sounds an audible alert if you accidentally cross into another lane without indicating.

ROAD DEPARTURE MITIGATION SYSTEM

If the Road Departure Mitigation System detects that you are drifting out of a lane with solid lines without signaling, you'll be steered gently back into the lane. In rare cases, gentle braking will be applied to keep you safe.

KEEPS YOU IN A SAFE POSITION

LANE KEEPING ASSIST SYSTEM

On a long drive, you'll truly come to appreciate the magic of Lane Keeping Assist System (LKAS). When you switch the system on, LKAS will read the lane and sense as you drift from its centre, this technology applies corrective steering torque to maintain perfect lane position.

ADAPTIVE CRUISE CONTROL WITH LOW-SPEED FOLLOW

By detecting the vehicle in front of you, this lets you maintain a set speed and following distance. Even in start and stop traffic conditions, Adaptive Cruise Control knows to keep your distance.

SELECT YOUR MODEL

VTi

The VTi comes standard with:

- 1.8 litre SOHC i-VTEC 4-cylinder engine
- 104kW @ 6500rpm and 174Nm @ 4300rpm
- Fuel consumption 6.4L/100km*
- Continuously Variable Transmission (CVT)
- Electric parking brake with automatic brake hold
- 16-inch steel wheels
- Electrically adjustable door mirrors
- Halogen projector beam headlights with auto-off timer
- LED Daytime Running Lights (DRL)
- Tail lights with integrated LED light bars
- Intermittent front windscreen wipers
- Black fabric seat trim
- Cruise control with speed limiter
- Single-zone climate control
- 60/40 split fold rear seats
- 8-speaker audio
- LCD Driver Information Interface with colour display
- Advanced Display Audio (7-inch colour touchscreen) including:
 - AM/FM radio
 - Bluetooth® phone and audio connectivity^o
 - USB connectivity
 - Apple CarPlay⁺
 - Android Auto™[‡]
- Multi-angle reversing camera with dynamic guidelines
- Anti-lock Braking System (ABS)
- Electronic Brake-force Distribution (EBD)
- Emergency Stop Signal (ESS)
- Hill Start Assist (HSA)
- SRS airbags: dual front, side and full-length curtain
- Tyre Deflation Warning System (DWS)
- Agile Handling Assist System (AHAS)
- Vehicle Stability Assist (VSA)
- Security alarm

VTi-S

Additional features over the VTi:

- 16-inch alloy wheels
- Door mirrors with LED integrated indicators
- Variable intermittent front windscreen wipers
- Smart keyless entry with walk away locking
- Push button start
- Front halogen fog lights
- Black premium fabric seat trim
- Leather-wrapped steering wheel
- LaneWatch
- Front parking sensors
- Rear parking sensors

VTi-L

Additional features over the VTi-S:

- 1.5 litre DOHC VTEC turbo engine
- 127kW @ 5500rpm and 220Nm @ 1700-5500rpm
- Fuel consumption 6.0L/100km*
- Paddle shift gear control
- 17-inch alloy wheels
- Auto headlights (dusk sensing)
- Auto front windscreen wipers (rain sensing)
- Privacy glass (rear)
- Shark fin antenna
- Digital radio (DAB+)^o
- Dual-zone climate control

RS

Additional features over the VTi-L:

- 17-inch alloy sports wheels
- Piano black upper and lower grille
- Piano black B and C pillars
- Chrome door handles
- Front LED fog lights
- LED headlights with auto-levelling
- Tailgate spoiler
- Electric sunroof
- Leather-wrapped gear shift knob
- Black leather-appointed seat trim[†]
- Heated front seats
- Drilled alloy sports pedals
- 452-watt premium audio system with 10 speakers, including subwoofer
- 8-way adjustable electric driver seat

VTi-LX

Additional features over the VTi-L:

- Front LED fog lights
- LED headlights with auto-levelling
- Electric sunroof
- Auto-dimming rear view mirror
- Leather-wrapped gear shift knob
- Black leather-appointed seat trim[†]
- Heated front seats
- 452-watt premium audio system with 10 speakers, including subwoofer
- Satellite navigation with SUNA™ live traffic updates
- 8-way adjustable electric driver seat
- Honda Sensing suite of driver-assist technologies including:
 - Forward Collision Warning (FCW)
 - Collision Mitigation Braking System (CMBS)
 - Lane Departure Warning (LDW)
 - Road Departure Mitigation System (RDM)
 - Lane Keeping Assist System (LKAS)
 - Adaptive Cruise Control (ACC) with Low-Speed Follow (LSF)
