

SIMPLY CLEVER

ŠKODA

# ŠKODA Octavia & Octavia RS

## European Value without the European Price Tag

The **ŠKODA Octavia** is more spacious and luxurious than ever. Sharing the very latest in Volkswagen Group's technological advancements and ingenuity, the new Octavia assures quality, reliability and value.

The new design is both elegant and modern, showcasing ŠKODA's new innovative design language. And, from an environmental point of view, it has less impact than ever, being lighter than its predecessor.

With a whole new range of Driver Assist Technologies, the new Octavia makes driving more comfortable, enjoyable and, most importantly, safer.

This vehicle has been awarded a maximum 5 Star Rating by ANCAP.

# ŠKODA Octavia

## INTERIOR

- High Quality Premium Seats
- Innovative Storage
- Multifunctional Steering Wheel

Octavia's **high quality interior** and ergonomic design will let you focus on the drive and enjoy the journey.

Depending on trim, your Octavia will either be equipped with air-conditioning or **dual-zone air conditioning with humidity control**. Dual-zone allows the driver and front seat passenger to set different temperatures for optimal comfort while the humidity sensor directs air flow as required, to keep the windscreen fog free.

The car stereo, **Columbus Navigation System** and trip computer are housed in one system that gives the driver access to the vehicle setup, Driver Assist Systems and comfort functions through a single device. The proximity sensor recognises when a hand is moving towards the touchscreen and brings up the function buttons ready to be used, while intuitive swiping and pinching movements allow the user to scroll menus and zoom into maps easily.

Elegance Trim Shown

## SPACE

- More Leg Room
- Exceptional Luggage Space
- Clever Storage Solutions
- Longer Wheelbase

As ŠKODA drivers have come to expect, Octavia is full of "Simply Clever" storage areas and designs to offer solutions that fit your lifestyle.

With a longer wheelbase than the previous generation, rear passenger space has been further maximised, ensuring three adults can sit comfortably in the rear - a perfect environment for growing families. All rear passenger seats are fitted with ISOFIX fixtures as standard on all models.

A 1.5L bottle holder and a removable rubbish bin are "Simply Clever" features located on the door panel.

The tinted **Electric Sunroof\*** for the Sedan allows for greater freedom and space.

\*Optional on all models

The **two-part panoramic sunroof\*** for the Wagon also features an electrically-adjustable sun blind cover.

The **multimedia holder** located in the centre console is not only a practical accessory but also a safe place for storing your iPod and mobile phone.

International model shown; Elegance Wagon

Hidden within Octavia's sleek design is exceptional **luggage space**. The sedan boasts **568 litres** of space, all easily accessible through the large sedan boot opening. This phenomenal space becomes cavernous with the rear seats folded down, expanding to **1558 litres**. The wagon offers **588 litres** of space with seats up and **1718 litres** with seats down.

Further Simply Clever features on the wagon version include the automatic boot\*. For convenience, the boot can be controlled from four separate locations:

- via remote control
- from the centre console
- with an internal button on the boot
- and via an external soft-touch boot button.

\*Optional Extra on wagon

## EXTERIOR

- Bi-Xenon Headlights
- Adaptive Front Light System
- Cornering Fog Lights
- Precise And Elegant

Elegance model with optional Tech Pack shown

With strong lines and sharp angles, the Octavia's design promises to remain timeless and elegant in years to come. Whilst the broad fascia brings a strong road presence, the streamlined side profile hides the cavernous space within.

Proudly wearing ŠKODA's black and chrome logo, the interplay of light and darkness continues throughout the exterior of the car. The strong, dynamic shoulder line is complimented by the unique flourish at the base of the window line; creating the shape of an aeroplane tail fin on the sedan hinting towards the advanced technology found inside.

The Octavia utilises the very latest in Volkswagen Group shared technology - the Modular Transverse Matrix (MQB). This initiative allows cars to be designed with a high degree of freedom, by using various structural modules not limited by class or body type.

The **Integrated headlight washers\*** ensure headlights are clean so visibility is maximised.

\*Available in the Tech Pack for Ambition Plus and Elegance

Activated upon unlocking and opening the door, the **Environment lights**† illuminate to help you see surroundings more clearly such as puddles.

Clear halogen headlights and broad fog lights can be upgraded to **Bi-Xenon Headlights with AFS\* (Adaptive Front Light System)** and **LED daytime running lights\***

\*Available in the Tech Pack for Ambition Plus and Elegance. †Standard for Elegance and Available in Comfort Pack for RS.

# ENGINES

- 103TSI Petrol Engine
- 110TDI Diesel Engine
- 132TSI Petrol Engine

The Octavia presents a variety of new engine platforms that are lighter, cleaner and more fuel-efficient than previous models. The Ambition, Ambition Plus and Elegance are all available with Volkswagen Group's new turbocharged **1.4 litre 103TSI engine**; delivering an impressive 250Nm of torque and a combined fuel economy of **5.2L/100km\***. (7Sp DSG Sedan)

Along with the 103TSI, an additional petrol option and a new diesel platform are on offer for the Elegance trim - the 132TSI and 110TDI. **The turbo-diesel 110TDI** offers a strong 320Nm from a 2.0 litre engine, while remaining fuel efficient at a combined **4.9L/100km\***. (6Sp DSG Sedan).

A standard feature under the diesel platform is **Green Tech** - an initiative allowing for further improvement in fuel economy and reduction of CO<sub>2</sub> emissions through the "Start Stop" and Brake Energy Recuperation features. "Start Stop" allows the engine to automatically switch off when idle and immediately switch back on as soon as the accelerator is pressed. "Stop Start" can be deactivated when required. In addition, Brake Energy Recuperation enables the use of kinetic energy to charge the car battery when the brakes are applied.

\*Figures according to ADR 81/02 (l/100km)

# INFOTAINMENT

- Bluetooth® With Voice Recognition
- Sound Systems
- Columbus Navigation System
- USB Connection
- Proximity Sensor
- Trip Computers

**The all-new infotainment systems** on the Octavia are a significant step forward in the field of multimedia systems. All Octavias come with a USB, SD card and aux-in socket as standard so you can play music from your mp3 player through the car's speakers. The USB will allow you to control the device through the car's touchscreen system, as well as, charge your device simultaneously.

Touch screen 5" Swing Radio

Touch screen 5.8" Bolero Radio

Touch screen 8" Columbus Satellite Navigation

For those who love their music, the 8-speaker sound system on the Ambition Plus and Elegance can be upgraded to a premium, German **10-speaker Canton Sound System\***. Canton also adds a digital equaliser; sound level controls allowing optimisation for all or individual occupants; vehicle noise cancellation and, when added in combination with a Columbus satellite navigation, the ability to play Dolby 5.1 surround sound.

\*Available in the Tech Pack for Ambition Plus, Elegance and RS

# DRIVER ASSIST SYSTEMS

- Driving Mode Selection
- Advanced Keyless Entry Including Smart Start (KESSY)
- Automatic Parking Assist
- Rear View Camera

**Driving Mode Selection**^ allows the driver to adapt the car's behaviour to their preference or needs. Four driving modes are available: Normal, Sport, Eco and Individual (Individual allowing the driver to configure their own settings). The car will then adapt the engine torque, accelerator sensitivity, power steering, headlight control (where AFS is fitted), DSG transmission, and air conditioning to suit the profile selected.

**Advanced Keyless Entry Including Smart Start**\* can be added to allow the driver to lock and unlock the car and start and stop the engine without having to insert or even handle the key. As long as the key is within 1.5m of the sensor, the system will work, and a number of simply clever features ensure you can check the lock, preventing you from locking the key inside and preventing unwanted access.

**The Rear View Camera**† gives a clear view of objects usually out of sight allowing the driver to manoeuvre with added confidence and safety. When in reverse the navigation display system reveals a real-time image display with superimposed graphic lines thanks to the camera built into the tailgate.

For those wishing to make both parallel parking and bay parking easier than ever, an **Automatic Parking Assist**\* can be added. With a press of a button, the system will begin searching for a parking space in a line of cars or other obstacles. When a suitable space is found (the car's length + 60cm is all the space needed), the car will steer itself into the space whilst the driver controls the pedals. This system will now also steer the car out of a line of cars from its parking space and with two presses of the same button, the car will search for and manoeuvre into a bay parking space.

^ Available in Tech Pack for Ambition Plus and Elegance \* Available in the Tech Pack for Ambition Plus, Elegance and RS † Available in Travel Pack for Ambition. Standard in Ambition Plus, Elegance and RS

## SAFETY

- Passenger Protect Assist
- ESC

- Prefilled Braking System
- Rear View Camera

- Fatigue Detection
- Adaptive Cruise Control including Front Assist

The Ambition Octavia features **seven airbags** as standard, located at the front, front side, curtain and driver's knee area. With the inclusion of rear side airbags, the Ambition Plus, Elegance and RS models boast **nine airbags** as standard.

**ESC (Electronic Stability Control) with Multi-Collision Braking** is standard on all models and delivers a number of systems to help maintain the car's stability in braking and emergency situations.

Another simply clever element of the ESC system is **Prefill**. Your Octavia will recognise when your foot has been abruptly lifted off the accelerator and anticipates that this may be followed by a sharp depression of the brake pedal. To prepare for this braking, the car automatically increases pressure in the brake system by "prefilling" the brake hydraulics with fluid. It also brings the brake pads closer to the discs. This speeds up the braking effect for optimal stopping.

**Adaptive Cruise Control (ACC)\*** is an extension of the conventional cruise control system with advanced capabilities based on a radar sensor located on the front grille. When ACC is activated, the vehicle automatically brakes and accelerates to a speed and distance set by the driver. The dynamics of the ACC system can be individually varied by selecting one of the driving programs from the Driving Mode Selection.

Utilising the same radar sensor, the **Front Assist\*** safety system monitors the area in front of the car and evaluates the distance, direction and speed of all nearby objects. Using predefined algorithms, it decides whether these objects pose a potential risk of collision and alerts the driver if the distance to object is insufficient - initially with a tone and an alert on the Maxi DOT display; followed by a warning jolt of the brakes. If the driver doesn't respond, the car will brake itself - all the way to a standstill if needed, helping to avoid a collision or reduce the severity of the accident. It can be turned off by the driver via the touchscreen.

**Fatigue Detection ^** monitors the movement of the driver through the steering wheel and if the driver begins to display signs of fatigue, the car will audibly alert the driver with a tone and show a break recommendation alert on the Maxi DOT.

**Passenger Protect Assist ^** uses information from the car's braking and electronic systems to recognise when there is a high chance of collision. If this is detected, the front seat belts will tighten and the sunroof (if equipped) and windows will close to help keep the car's occupants in the optimum position for airbag deployment and reduce items flying into the car. Drivers who prefer to desensitise the Passenger Protect Assist can change these settings on their touchscreen display.

## ŠKODA Octavia Ambition

The **Ambition** version is offered with black fabric seat upholstery with matching coloured door panelling and dashboard. The interior is fitted with streamline grey finishes. The Swing infotainment system is a standard feature on the Ambition.

## ŠKODA Octavia Ambition Plus

The **Ambition Plus** version is offered with black fabric seat upholstery with matching coloured door panelling and dashboard. The interior is fitted with streamline grey finishes. The Bolero infotainment system is a standard feature on the Ambition Plus.

## ŠKODA Octavia Elegance

The **Elegance** version is offered with black leather appointed seat upholstery. Columbus Satellite Navigation and Dual-zone Climatronic Air-conditioning are standard features on the Elegance.

# ŠKODA Octavia RS

Vehicles shown with optional Tech Pack. RS Wagon shown with optional Black Pack

The **New ŠKODA Octavia RS** uniquely combines a dynamic driving experience with all the characteristics of a practical family vehicle.

As with every Octavia, the RS will captivate you with its modern design. But its sleek looks are backed up with a sporty chassis and engine options to match. The 2.0 TSI/162kW petrol engine and 2.0 TDI CR DPF/135kW diesel engine give the RS highly agile characteristics, yet result in lower fuel consumption and CO2 emissions without compromising overall performance. Both engines are available with Green Tech (Start-stop and Brake Energy Recuperation). As a result, a combined consumption of 6.4L/100km\* for the 162TSI 6-speed Manual and 5.2L/100km\* for the 135TDI 6-speed DSG are achieved.

Like the Octavia Elegance, safety is paramount for the RS with nine airbags, fatigue detection, rear view camera and passenger protect assist as standard.

The Octavia RS will fit your active lifestyle perfectly, and you won't need to forgo the everyday practicalities of life. Why park your dream of a sports car and settle for a family vehicle instead? The New ŠKODA Octavia RS fits both roles perfectly.

\*Figures according to ADR 81/02 (l/100km).

This vehicle has been awarded a maximum 5 Star Rating by ANCAP.

The Octavia RS can be easily identified by the **RS Badge** on the front grille as well as the sports expression enhanced by the **Bi-Xenon headlights with LED daytime running lights and black backfill**.

The **RS logo** on the rear forms another distinctive detail of this sports model. Both the Sedan and Wagon feature a rear sports **Spoiler**, which increases the stability of the vehicle at faster speeds. Further enhancing the sporting pedigree of the RS are the **Dual integrated chrome exhaust tailpipes** and **Black rear Diffuser**.

Vehicles shown with optional Teck Pack and 18" Black Pack

Vehicle shown with optional Tech Pack and 19" Black Pack

The **The 3-spoke multifunctional sports steering wheel** wrapped in perforated leather is adorned with an original **RS plaque**. The exceptional design goes hand in hand with advanced technology, represented by the **electromechanical, progressive power steering**. Based on the steering wheel position, the progressive steering reduces the need to move your hands around the wheel when cornering and increases comfort when parking. Furthermore, the **Extended Electronic Differential Lock system (XDL)** improves traction and reduces the tendency to understeer. Both these features are exclusive to the RS model.

Unique to the RS, the **Door Sill Strips** accentuate the sporty character of the model, whilst adding to practicality.

The **Aluminium finish pedals** are yet another stylish addition of the RS design.

The instrument panel in **RS design** has a clear white interface, equipped with the **high-resolution display**.

Along with the steering wheel, the **Sports leather package** is evident on the handbrake and gear lever, complimented with red stitching.

**VRS**  
MODE

Standard on all RS models, the **Driving Mode Selection** adds a sporty note to proceedings. It is modifiable in accordance with the selected engine mode (normal/sport/eco/individual), enhancing the driving soundtrack, providing a full-throated response to every rev, gear and throttle blip.

# ŠKODA Octavia RS

The **RS** version is offered with a combination of black leather appointed and fabric seat upholstery. The RS is also available with optional black leather appointed upholstery. Columbus Satellite Navigation and Dual-zone Climatronic Air-conditioning are standard features on the RS.

## ACCESSORIES

**ŠKODA Genuine Accessories** add style to your car while enhancing its utility. To get a full overview of our range of products, ask any authorised ŠKODA dealer for an accessories catalogue.

**Plastic boot dish** for Sedan and Wagon.

**3-part Netting System** for Sedan and Wagon.

**Transverse roof racks** for Wagon.

**Rubber foot mats** will protect the car floor from dampness and dirt.

Alloy wheel 7.5J x 18" **Turini** for tyre 225/40 R18 in matt black design.

# General information

## OWNING A ŠKODA

### ŠKODA New Vehicle Warranty

Every new ŠKODA passenger vehicle is covered by a three-year unlimited kilometre manufacturer's warranty, which includes ŠKODA Assist (24-hour roadside assistance). Every new ŠKODA vehicle is also covered by a three-year paintwork and 12-year anti-corrosion perforation warranty.

### ŠKODA Extended Warranty

To give you added peace of mind, you can now purchase an Extended Factory Warranty with your new Octavia. This warranty gives you an additional two years/unlimited kilometres of coverage, including roadside assistance. For further information regarding this Extended Warranty, including pricing and terms and conditions, please consult your local ŠKODA dealer or visit [www.skoda.com.au](http://www.skoda.com.au)

### ŠKODA Extended Factory Warranty

### ŠKODA Assist - 24-Hour Roadside Assistance

As a valued customer, you can be assured that wherever you travel within Australia, you will have access to roadside assistance, 24 hours a day, 365 days a year. This is complimentary for the duration of the vehicle's original ŠKODA warranty period. You will receive help in the event of a breakdown or accident and, if required, your vehicle will be mobilised or transported to an Authorised ŠKODA Workshop. As a ŠKODA owner you will also have access to the additional benefits of accommodation and car rental if your vehicle cannot be mobilised within 24 hours, when you are over 100km away from home.

### ŠKODA Genuine Parts®

ŠKODA Genuine Parts® are designed for your vehicle and approved by ŠKODA, with particular regard to safety. The workmanship, dimensional accuracy and materials used in these parts comply with factory specifications. To ensure safety and reliability, ŠKODA recommends the use of ŠKODA Genuine Parts®. ŠKODA Authorised Dealers offer a two-year unlimited kilometre warranty on Genuine Parts from the date of purchase.

### ŠKODA Finance\*

Buying, borrowing or leasing, ŠKODA Finance will certainly make you think differently about financing and insuring your new ŠKODA. Committed to meeting the needs of ŠKODA drivers across Australia, we offer a range of leasing, financing and insurance products, each with distinct advantages depending on your specific circumstances. Our packages are personalised to suit your individual requirements. You design your plan so that it meets your budgeting needs and rest assured that there will be no surprises along the way. Speak to your local participating Authorised ŠKODA Dealer today to put together a financial solution that best suits your lifestyle.

# Glossary

## **Anti-lock Braking System (ABS)**

When braking, sensors in each wheel measure the road speed. If one or more wheels start to lock, the ABS reduces brake pressure to those wheels. This prevents the wheels from locking during heavy or emergency braking and allows you to continue to steer the vehicle.

## **Anti-Slip Regulation (ASR)**

ASR is a switchable traction control system that prevents the front wheels from spinning under acceleration. When a difference in driving wheel speed is detected (e.g. due to differences in road surfaces), the system automatically reduces engine torque accordingly.

## **Electronic Brake-pressure Distribution (EBD)**

This sophisticated system provides an electronic means of regulating the ratio of front to rear brake pressure. The system automatically varies the settings according to driving and load conditions to ensure each wheel is braked to the optimum extent.

## **Electronic Stability Control (ESC)**

The ESC is made up of the ABS and ASR traction control systems. Simply put, it helps ensure that the vehicle goes where you steer it – even in extreme driving conditions. By constantly comparing the actual movement of the vehicle with pre-determined values, ESC will apply the brakes to individual wheels and automatically adjust the engine's power output to correct a problem the very moment it arises.

## **Adaptive Cruise Control (ACC)**

Adaptive Cruise Control (ACC) is an extension of the conventional cruise control system with advanced capabilities based on a radar sensor. When ACC is activated, the vehicle automatically brakes and accelerates to a speed and distance set by the driver.

If the Octavia approaches a slower vehicle, the ACC brakes the car to the same speed and maintains the pre-selected distance. Even when a vehicle pulls into the same lane in front of you or slows, your vehicle is automatically decelerated to the pre-selected distance. If the vehicle ahead moves out of your lane, the Octavia then accelerates up to the preset desired speed.

Deceleration of the vehicle may take place via intervention in the engine management system. If deceleration via engine torque is not sufficient, brake intervention takes place, braking the vehicle to a standstill if the traffic situation necessitates in vehicles equipped with a DSG transmission. ACC can be reactivated automatically by depressing the accelerator pedal. In vehicles fitted with a manual transmission, the system is automatically deactivated at speeds below 30km/h and the driver is prompted to take charge by visual and acoustic signals.

Note: Adaptive Cruise Control (ACC) cannot replace the driver's assertiveness. The driver is still legally responsible for the vehicle and must monitor the speed and distance in relation to other vehicles. The ACC system should not be used on winding roads or in adverse weather conditions such as heavy rain.

## **Brake Assist**

Brake Assist aids the driver during emergency braking by automatically increasing the brake pressure to a level exceeding the locking limit. Then, the ABS is quickly brought into the operating range, thereby enabling maximum vehicle deceleration.

## **Multi-collision Brake**

The multi-collision brake has been designed to provide effective assistance for the driver in the moments after an accident. Multi-collision brake triggers automatic controlled braking once an initial collision has been detected so as to reduce the intensity of further accidents after a collision and can help prevent follow-on collisions with oncoming traffic.

The triggering of the multi-collision brake is based on a collision being detected by the airbag sensors. The ESP control unit limits the deceleration of the vehicle by the multi-collision brake to a defined value and vehicle speed. The vehicle can still be controlled by the driver, even when automatic braking is taking place. The driver can interrupt the multi-collision braking at any time by accelerating or braking even more strongly.

## **Electronic Differential Lock (EDL)**

EDL improves driving and steering characteristics when accelerating on road surfaces where each wheel has a different degree of traction. The system operates automatically and is combined with the ABS system. Using the ABS wheel sensors, EDL monitors the speed of the individual driving wheels. When a difference in driving wheel speed is detected (i.e. when one wheel starts to spin due to differences in road surfaces, e.g. due to water or dirt) the system brakes the spinning wheel, transferring engine power to the wheel with the best traction.

## **Extended Electronic Differential Lock (XDL)**

XDL is an extension of the Electronic Differential Lock (EDL) function. When cornering, XDL responds to the load relief at the front wheel on the inside of a corner. The ESP hydraulics are used for the XDL to apply pressure to the wheel on the inside of the corner in order to prevent wheel spin. This improves traction and reduces the tendency to understeer. As a direct result of the one-sided and precise braking pressure, cornering is sportier and more accurate.

One of the most important goals of ŠKODA AUTO is the development and manufacture of products that are as environmentally friendly as possible throughout their life cycle phases, placing principal emphasis on the selection of recyclable materials. Our ŠKODA cars are produced using progressive types of technology in modern production facilities that meet the strictest criteria. Anticorrosive protection of the cars' painted parts is based exclusively on lead-free cathaphoresis (KTL) and water-soluble paints.

Our company strategy includes limiting fuel consumption and emissions. As a result, the engines we offer meet the current emission regulations. All ŠKODA products are made using manufacturing processes that adhere to the laws and regulations concerning the protection of soil and water. As a result of these activities, ŠKODA cars meet technical, safety, quality and environmental requirements. ŠKODA AUTO contributes to the preservation of a clean environment and provides mobility and comfort to its customers.

The environmental logo expresses ŠKODA AUTO's awareness of, responsibility for and attempts at the sustainable development of the company and a friendly approach to life and nature. 

ŠKODA is distributed by Volkswagen Group Australia Pty Limited trading as ŠKODA Australia, 24 Muir Road, Chullora NSW 2190. ABN 14 093 117 876. Specifications are as planned at September, 2014 for Model Year 2015 and are subject to change without notice or obligation. Cars and accessories shown may not depict Australian specifications. Fuel consumption figures according to Australian Design Rules (ADR) 81/02. All ŠKODA approved parts and accessories are warranted for 2 years or unlimited kilometres. All information in this brochure is correct at the time of publication, however variations may occur from time to time and ŠKODA, in so far as it is permitted by law to do so, shall not be liable in any way as a result of any reliance by any person on anything contained in this brochure. The colours shown in this brochure are indicative only and may vary from actual items owing to the printing process. Authorised ŠKODA Dealers will provide up-to-date information on model application, design feature, prices and availability on request.
