**Perfectly positioned
anywhere**

Controls ergonomically positioned at your fingertips for safe operation of the Vitara.

Control your environment, set the temperature to suit your mood.

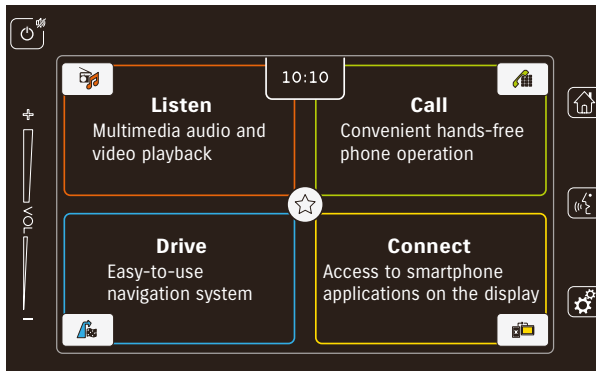

You will arrive relaxed thanks to Vitara's supportive and comfortable seats.

Freedom and Comfort, Anytime, Anywhere

What will you put in the spacious luggage space before setting off? When did you last enjoy the perfect comfortable drive? Pack your curiosity and set off to freedom with the Vitara.

1 Smartphone Linkage Display Audio

A 7-inch multi-touch display enables intuitive operation of audio and video playback, as well as hands-free phone and navigation system features. The driver can also connect a compatible smartphone to enable the use of its applications on the display. Features can be selected from the four main operating modes - Listen, Call, Drive and Connect.

The display can show the view captured by the rear-view camera, helping to enhance rear visibility when moving the vehicle in reverse. Rearview camera

An easy-to-follow 3D art map navigation can be added by installing an SD card with map information in the display audio.

By connecting a MirrorLink™ compatible smartphone with USB cable, the system's smartphone linkage feature enables the driver to use its applications on the display.

2 Panoramic sunroof

(Standard for GLX)

The panoramic sunroof consists of two tinted glass panels (one in front of the other), both of which can be opened. The two glass panels slide and overlap so as not to affect the cabin or carrier space.

3 Spacious luggage space

The Vitara's luggage space is a massive 375 litres*. Even when the rear seats are not folded, a golf bag can be stored. Furthermore, various items can be stored by arranging the luggage board and 60:40-split rear seats. The tailgate opening height from ground has also been lowered for easier loading and unloading.
