

# VOLVO S90

# INNOVATION FOR PEOPLE

*Made by Sweden.*

**At Volvo Cars**, we continuously innovate in order to make your life better. Every car, every technology and every design is the result of a clear vision – to put people at the heart of everything we do. It's a vision that has driven us from the start – one informed by Sweden, a country that values people as individuals and where conventions are challenged. It's a culture with a rich design heritage and a unique way of looking at the world.

This vision has inspired us to create the likes of the three-point safety belt and side-impact airbags – inventions that have saved lives and changed automotive history. And with our new generation of cars we continue with this tradition. Scandinavian design combines with modern Swedish luxury to enrich your experience. Intuitive Sensus technology makes life less complicated and keeps you connected with the world, while the latest Drive-E powertrains balance responsive power with impressive efficiency. And supporting you while you are driving, our IntelliSafe innovations make your journey more comfortable and enjoyable while helping to prevent accidents.

We understand what's important to people. It forms the basis of all the innovations which we create – innovations that improve lives.

At Volvo Cars, we design our cars around you.

**When we designed** our new executive sedan, we had a single aim: to create a car that would redefine the idea of luxury. The result is the Volvo S90 – a car that blends the best of Scandinavian design with advanced technology to give you a new experience, beyond the commonplace and everyday. It's a new kind of luxury. Swedish luxury.

The powerful, low-slung body, with the classic Volvo hallmark of a wide and muscular shoulder line, expresses the car's intent. It's confident and assured – the embodiment of a design philosophy that extends inside the car, where you'll discover a cabin crafted from exceptional materials such as Swedish crystal and flame birch.

In the S90, technology supports you without overwhelming you. From safety technology that helps to avoid collisions, to the T8 Twin Engine powertrain, with its electric motor and powerful petrol engine, every advanced feature has been engineered to improve every journey.

This is how a modern luxury sedan should be. This is the Volvo S90.

## THE ART OF CREATION

*Where elegance complements technology.*

**From any angle** the S90 looks elegant and powerful. The short overhangs, long wheelbase and low roofline combine to create a solid, sculpted whole that is sophisticated and elegant. The muscular shoulder line is distinctly Volvo, anchoring the car to its heritage while connecting it to the future.

The S90 is packed with innovative technology that has one purpose – to make your life easier – and one principle – it must be easy to use. A big touchscreen means we could reduce the number of buttons to a minimum, and its portrait format makes reading and scrolling maps much easier. Run-off Road Mitigation is a world-first innovation that helps to steer you back on track if the car starts to veer off the road accidentally. This is our human-centric approach to technology – it works for you.

Underneath the crisply sculpted exterior lies a chassis that delivers the perfect combination of precise handling and welcome comfort. Double-wishbone front suspension and integral axle rear suspension give you control over the car's movement. The optional rear air suspension with Active chassis has different settings to suit your mood, or the road, and keeps the car at the optimum level, regardless of load.

Elegance, craftsmanship and technology. This is what the S90 is made of.

*"Underneath the crisply sculpted exterior lies a chassis that delivers the perfect combination of precise handling and welcome comfort."*

**Classically Volvo, distinctly modern.** Combining powerful proportions with Scandinavian subtlety elevates the S90 beyond the everyday. The long bonnet and low roofline suggest power and grace, while the sculpted shoulder line identifies the S90 as a Volvo.

Small details make a big impact. Fine detailing and bold shapes combine to create a strong impression. Integrated tailpipes add to the design's coherence, while the shape of the LED rear lights gives the S90 presence, whether moving or stationary.

**T6 AWD | Inscription**

721 Mussel Blue metallic | 20" 8-spoke  
Silver Diamond Cut alloy wheels, 214

## DESIGNED FOR CONTROL

*Precision and accuracy at every touch.*

**From the moment** you settle into the sculpted driver's seat you're in control. You sit low in the S90, with the 9-inch centre display with touchscreen angled towards you to create the feeling of a cockpit. You're surrounded by an environment where beautiful materials and advanced technology meet, creating a cabin that looks great and works perfectly.

The exceptional craftsmanship enhances the feeling of precision. Take the air vents, for example. With a metal-finish vertical strip and distinctive diamond-pattern surfaces for the control knobs, they are beautiful to look at and a pleasure to use. In the S90 every component moves with the accuracy afforded by fine engineering. It is a car that gives you control over every part of your journey.

## EXPERIENCE A NEW WAY TO TRAVEL.

**Travel first class** in every seat, every day. Because when you're in the S90, you're in your own private lounge – a place where comfort and luxury combine with technology and craftsmanship.

It starts with the front seats. Sculpted to complement the human form, they provide superb support and a huge range of adjustment, so everyone can find the ideal seating position. The shape of the backrests increases legroom for passengers in the rear, so everyone benefits from the same levels of comfort.

At night the cabin glows with the warmth of its interior lighting, welcoming you into the car. The high-level illumination package – standard on Inscription and R-Design variants, optional on Momentum – includes backlit door handles and illuminated tread plates, as well as additional interior lighting that enhances the exclusive ambience.

Our CleanZone technology helps ensure a healthy interior environment and clean cabin air. It filters dust, pollen, particulates and odours while monitoring the air quality, and closing the intakes if pollutant levels rise too high. It happens automatically – all you need to do is set the temperature you want and the S90 does the rest.

Four-zone climate control (excluding T8) allows rear seat passengers to choose their own settings using a dedicated touchscreen. It also includes an air-conditioned glove compartment that keeps its contents cool.

You'll appreciate the details that make your life easier and more pleasant. For the power-operated boot lid there's a hands-free function, so you don't have to put down what you're carrying to open it. In the S90, technology and convenience go hand in hand.

In the driver's seat you're in charge. Control functions such as navigation and entertainment from the steering wheel buttons, while the 12.3-inch driver display keeps you informed.

Every element of the cabin is crafted to make form and function one. The door handles can be backlit, making them easier to find in the dark.

Beautiful, natural materials such as Linear Walnut complement the car's advanced technology, creating a uniquely contemporary look.

# ***SENSUS***

*Informed, in control and  
always up to date.*

**Sensus has a** guiding principle – to make your life easier and more enjoyable, whether it's your convenience, entertainment or navigation requirements. Sensus connects you with your Volvo and the rest of the world. It keeps you informed, entertained, and in control of your journey.

Intuitive, easy-to-use controls are a prime feature of Sensus and you will find them on the large, 9-inch centre display with touchscreen. Replacing physical buttons with virtual equivalents on the screen allows them to be larger and easier to use. Bold, clear graphics make it easy to absorb information at a glance. Our philosophy has always been that you should be able to operate your Volvo and keep your eyes on the road. The head-up display means you can do just that while staying connected and informed.

And Sensus goes further, enabling your devices to connect to the internet, while our audio systems offer considerable flexibility when it comes to choosing your desired music source and tailoring its sound.

The Sensus experience enriches every moment that you spend in your Volvo.

*"Sensus connects you with your  
Volvo and the rest of the world."*

## CONNECTING YOU WITH A WORLD OF ENTERTAINMENT.

**Get closer to** the music you love, no matter which seat you're in. With Sensus Connect, all your music is available all the time, whether it's direct from your favoured media source or streaming from the internet.

It all begins with the 9-inch centre display, the control centre for Sensus. The surface responds to the lightest of touches – you only need to brush your fingers over the glass to operate the controls. It even works with gloved hands.

Connecting your devices is quick and easy. With our Smartphone Integration you simply plug your smartphone into the car using the USB connection and you can turn the centre display into

an extension of your iPhone® (5 or later) or Android smartphone (5.0 Lollipop or later). You can connect via Apple CarPlay™ or Android Auto™ to access your device's music, make calls and send messages. And when connected, your phone will be charging, too.

Your choice of entertainment is not limited by what you have on your smartphone or portable audio player. The Spotify® in-car app makes finding new music quick and easy, and you have access to internet radio and on-demand services, as well.

Our standard High Performance audio system is tuned to make the most of your music, while the optional Bowers & Wilkins audio system takes the listening experience to another level.

**Our Bowers & Wilkins audio system** gives every occupant a superb audio experience, no matter which seat they are sitting in. Developed with Bowers & Wilkins, creators of high-end audio, this innovative technology brings exceptional clarity and realism to your favourite music. The unique air-ventilated subwoofer delivers richer, deeper bass by drawing air in from outside the car so it can pulse more air through the speaker. There are 19 speakers, allowing everyone

in the car to get the best possible sound, all the time. And you get closer to the performance by using one of the system's three room modes to bring the music to life. Concert mode recreates the unique acoustic experience of the Gothenburg Concert Hall, while Stage and Studio modes put you at the heart of the music, allowing you to hear it as the musicians intended.

*"Turn the centre display into an extension of your smartphone using our Smartphone Integration."*

**9-inch centre display.** The focal point of the elegant cabin is the 9-inch centre display with touchscreen, which uses a portrait format to give you a large viewable area that means less scrolling. This format is suited perfectly to displaying maps, and mirrors the look of modern

smartphones in its layout, so it feels instantly familiar and intuitive. It features a glossy black finish that, thanks to a special coating, minimises reflection – so it not only looks beautiful but works beautifully. This is how technology should be.

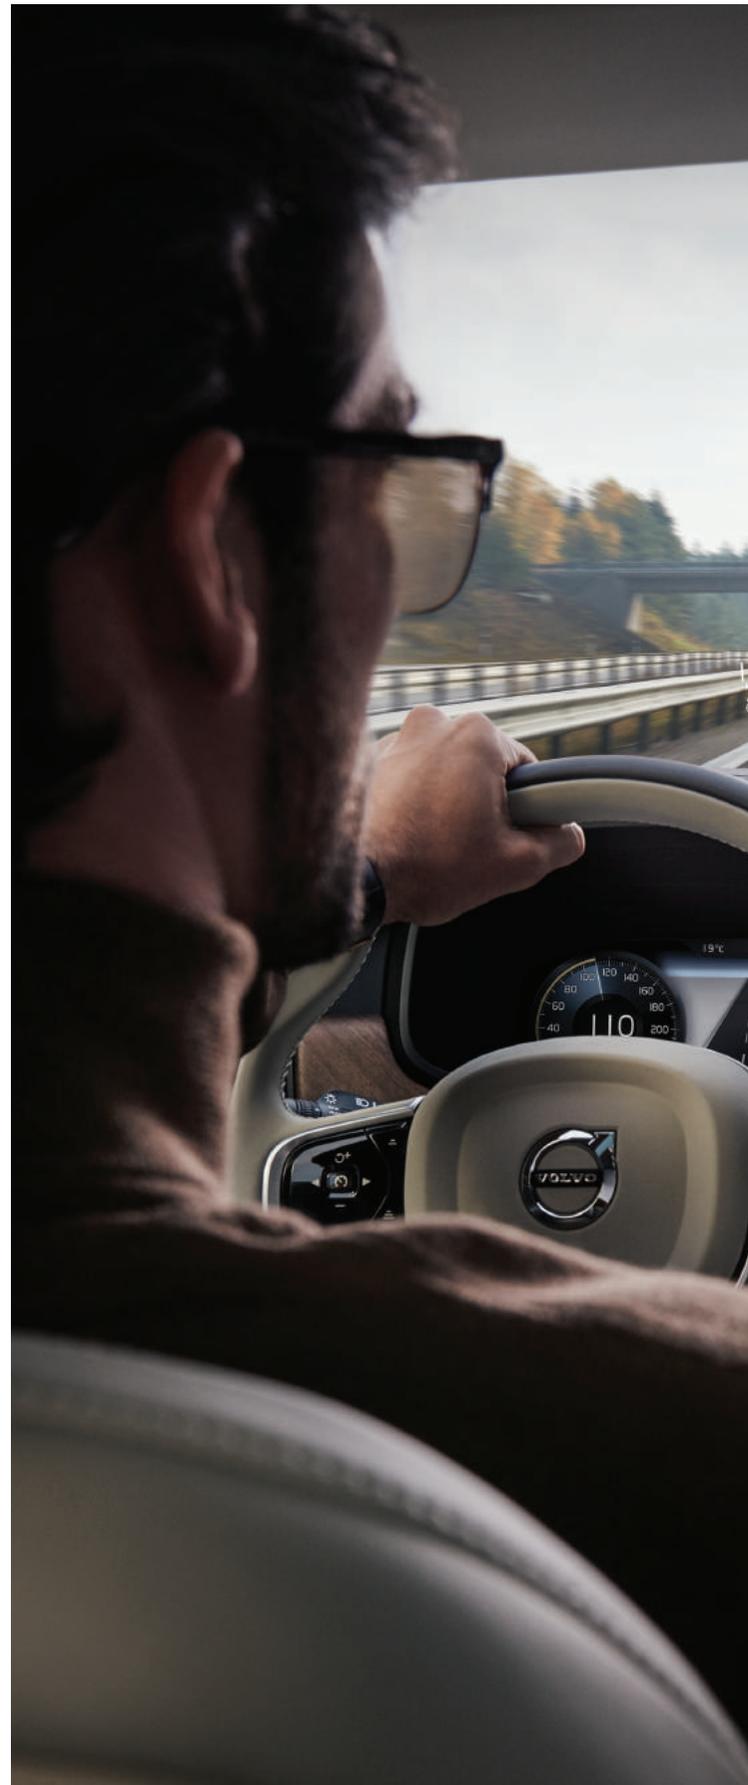

## GET TO YOUR DESTINATION EVERY TIME, WITH EASE.

**Let Sensus Navigation** be your guide, helping you find your destination and keeping you informed. Everything you need to know is shown on the 12.3-inch driver display right in front of you. The high-resolution image self-adjusts so it's never too bright, automatically resizing the instruments to accommodate navigation information. The head-up display projects all the vital information onto the lower part of the windscreen, like it is hovering in front of the car. It means you stay informed without ever having to take your eyes off the road.

Getting to your destination is made even easier with the clear graphics of our maps. And, because we give you free lifetime mapping upgrades, Sensus stays one step ahead, guiding you accurately.

Sensus also saves time by helping you find what you're looking for, with built-in navigation apps capable of locating parking and petrol stations.

With Sensus taking care of the way ahead, your journey will be even more enjoyable.

**Voice control.** Controlling Sensus is as easy as telling it what to do. Talk to your Volvo, using natural phrases such as “go to Bondi Beach” or “call Emily Johnston”, and voice control will carry out your instructions to operate climate control, navigation, infotainment and your smartphone.

**Centre display.** The portrait-format centre display with touchscreen makes reading maps and following navigation prompts beautifully straightforward. Maps appear as they would in an atlas and they scroll less, so you can see where you're going and what's coming next. Its clarity, size and orientation make it the ideal companion for every journey.

# *INTELLISAFE*

*Always looking out for you.*

**IntelliSafe** is our name for the intuitive, intelligent Volvo Cars technologies that support your driving, help to prevent accidents and protect you in a collision. These innovations play a key role in helping us to realise our bold vision that, by 2020, no-one will be killed or seriously injured in a new Volvo car.

City Safety is at the heart of IntelliSafe. Fitted as standard, it's like a co-pilot looking out for you, detecting danger ahead then warning you and intervening if necessary. City Safety identifies other vehicles, pedestrians, cyclists and large animals ahead of you, even at night. It warns you of any hazards and, if you don't react, it will brake automatically to help avoid or mitigate a collision.

Journeys are more relaxed with IntelliSafe to support you. Pilot Assist adjusts the steering to help you keep the car centred in its lane and at a set speed and distance from the car in front. Oncoming Lane Mitigation can help avoid collisions with oncoming vehicles.

If you drift across the lane markings in the way of an oncoming vehicle, your car steers back. Run-off Road Mitigation steers and, if necessary, brakes to help prevent you leaving the road accidentally. Driver Alert Control recognises if you're tired or distracted and suggests that it's time to take a break, while Road Sign Information reminds you of the speed limit.

With standard IntelliSafe Surround you also get BLIS™ (blind spot information) with Steer Assist for increased awareness and confidence on the highway, alerting you to vehicles alongside you. If you don't react to the warning and start to drift into the path of another vehicle, the Steer Assist function will guide you gently back into your lane.

With safety technology that's as advanced as this, your Volvo can help make every day safer – for you, your passengers and everybody.

**The power to protect.** Hidden behind the striking front end lies an array of safety technology that helps to make driving safer and easier.

**With Oncoming Lane Mitigation** your Volvo helps reduce the risk of colliding with an oncoming vehicle. Working at speeds between 60km/h and 140km/h, it automatically helps you steer back into your lane if it detects that you have crossed the lane markings and into the path of an oncoming vehicle.

**With Pilot Assist**, your Volvo makes your journey easier and more relaxing. Pilot Assist helps keep your Volvo at a set speed or a set distance from other vehicles and, at speeds of up to 130km/h, it helps keep the car in the centre of the lane by making small adjustments to the steering.

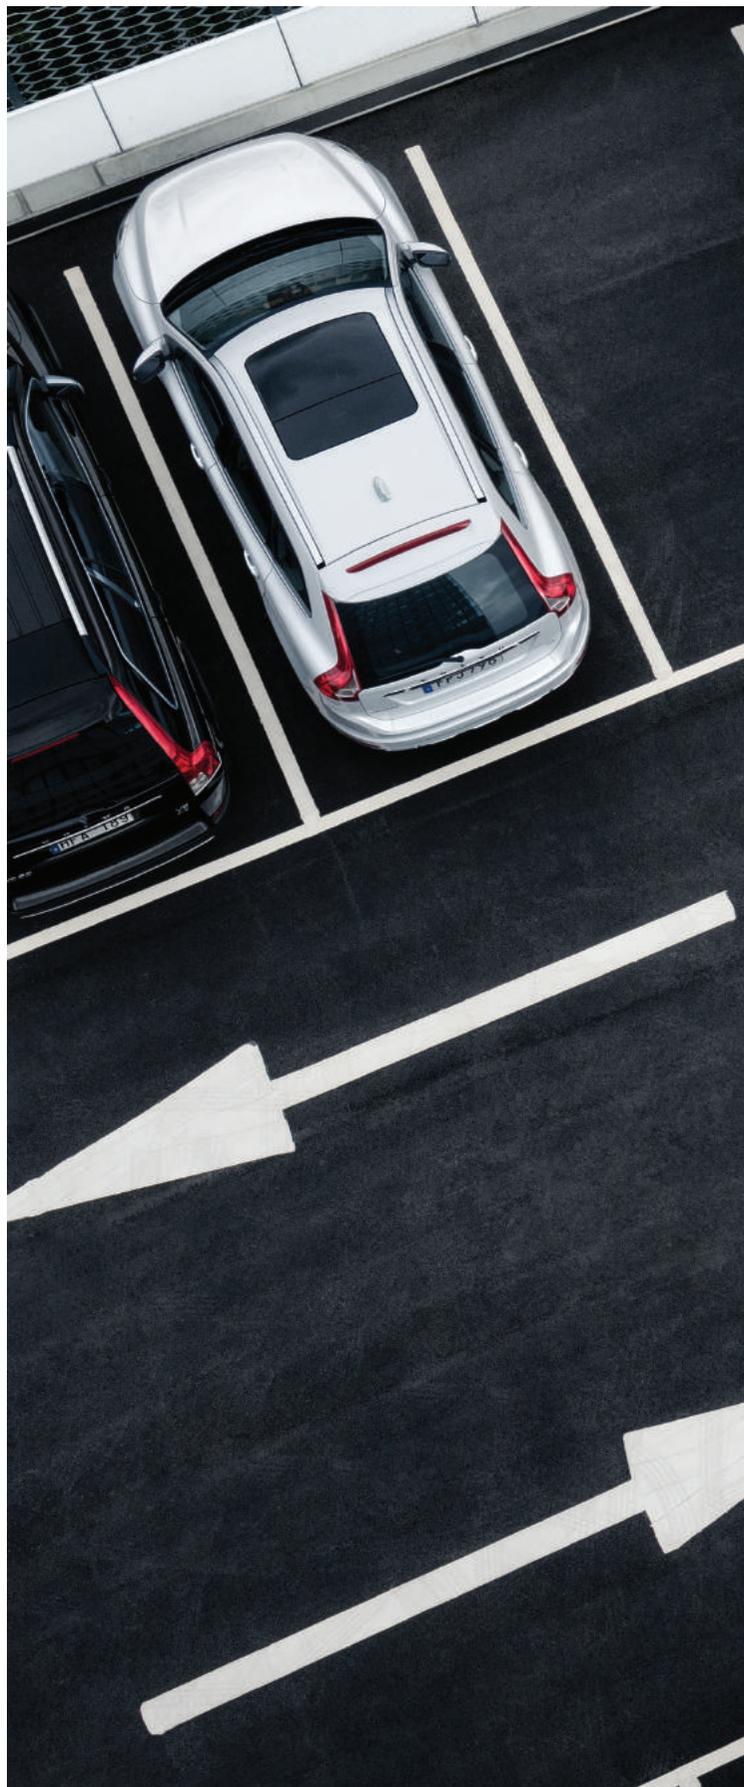

**Cross Traffic Alert** helps you to reverse out of a space knowing that there are no vehicles about to collide with you. This technology can spot vehicles approaching from either side of your Volvo up to 30 metres. In some circumstances, it can also detect approaching cyclists and pedestrians.

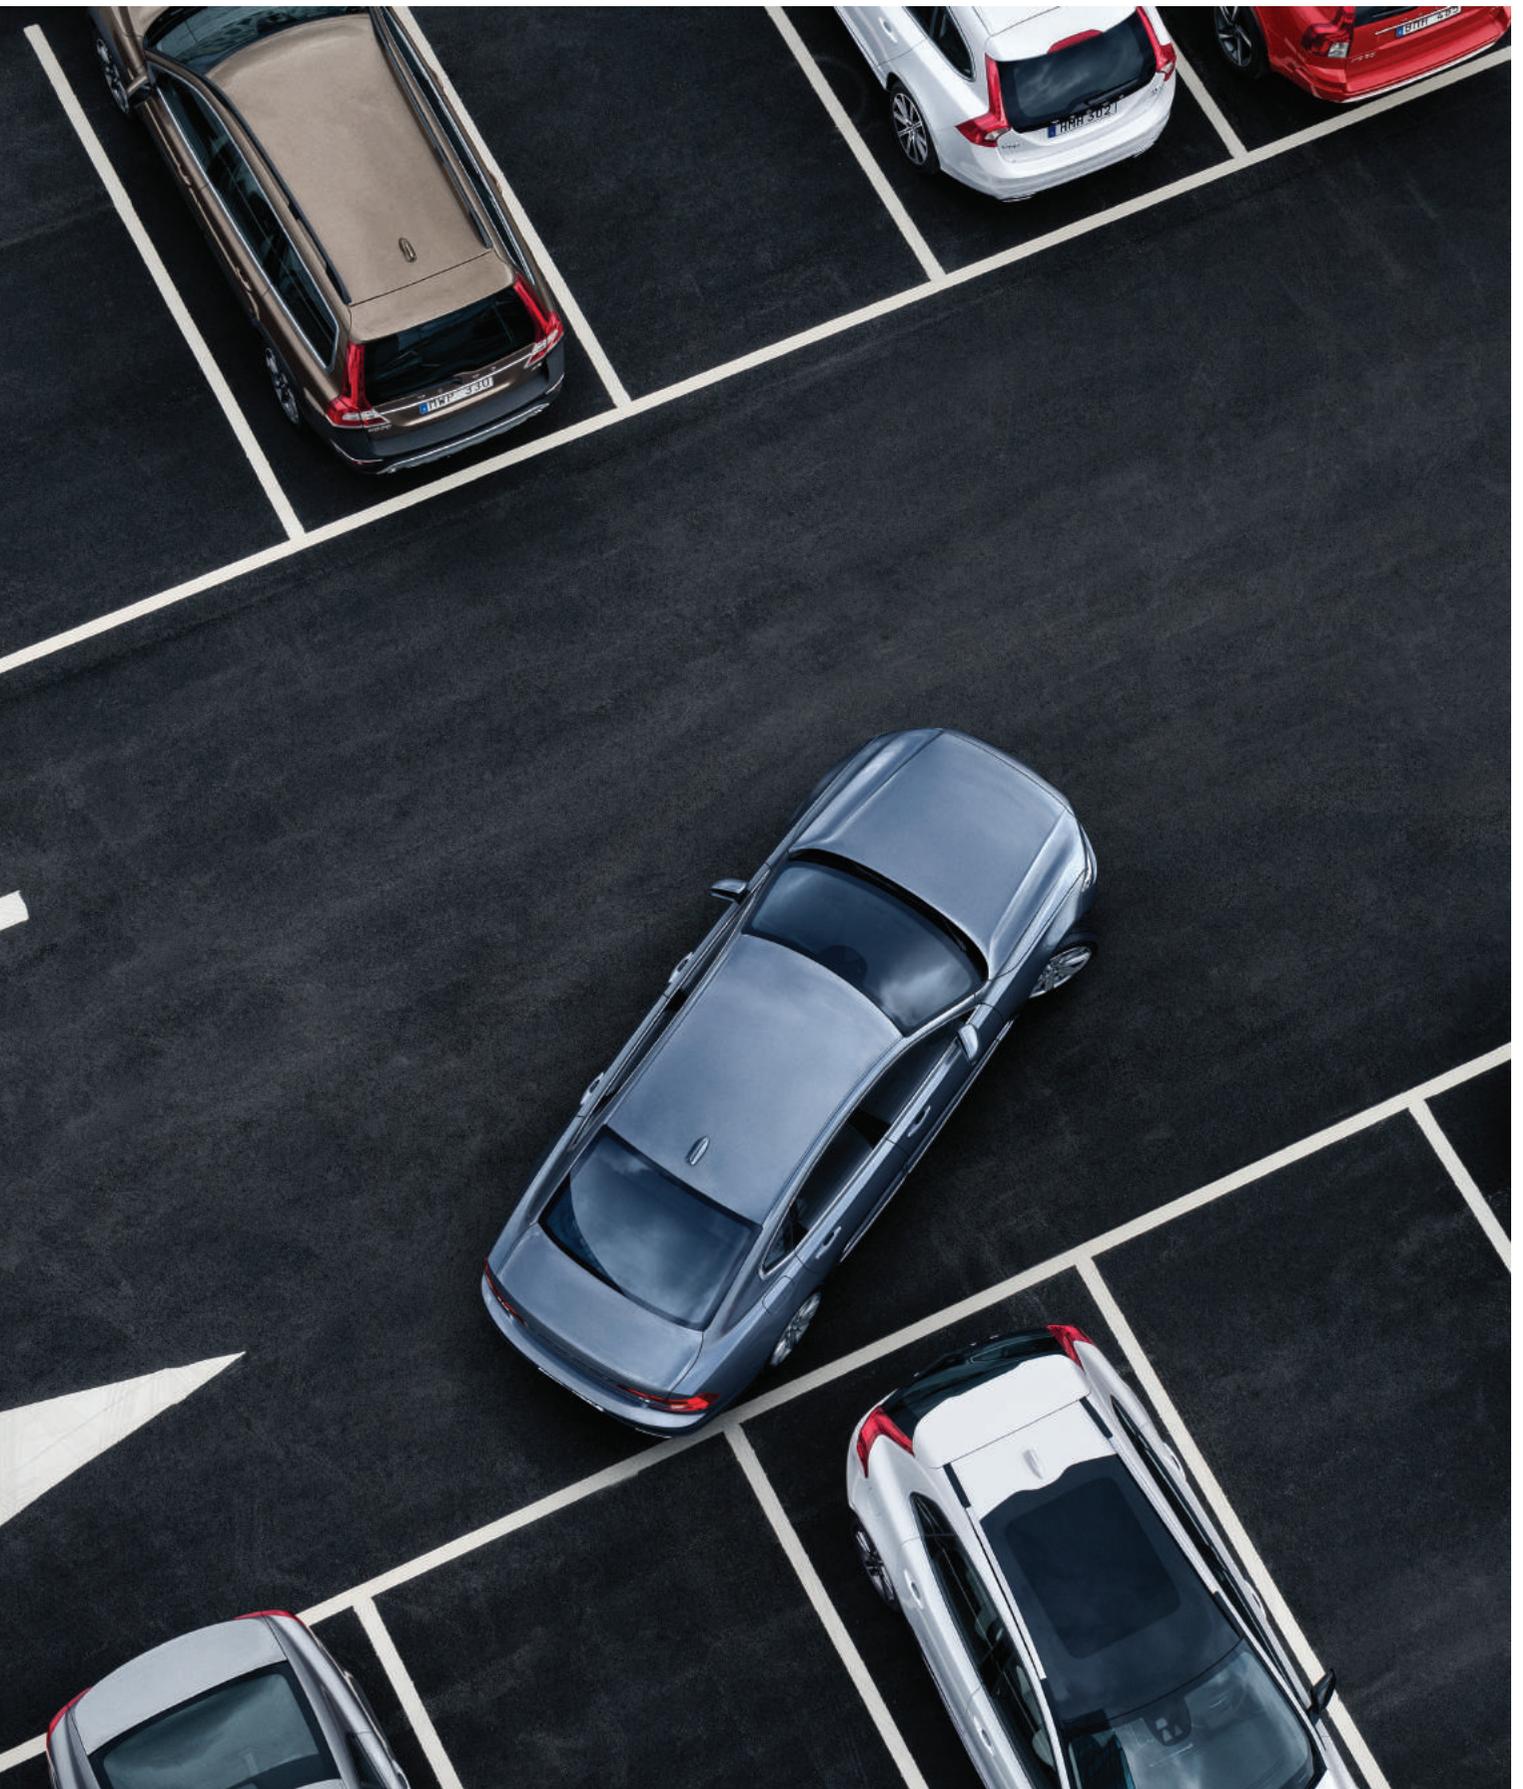

**T5 | Momentum**

714 Osmium Grey metallic | 19" 5-triple-spoke  
Matt Tech Black Diamond Cut alloy wheels, 498

**Perfect parking, every time.** Park Assist Pilot is like having someone park your car for you. It tells you if a parking spot is the right size for your Volvo and then takes over the steering to slot it in. It requires a space just 1.2 times the length of your Volvo, so it can tackle even the tightest of spaces. Engage a gear, accelerate and brake according to the screen prompts and your Volvo will take over the steering completely to manoeuvre your car into the space. If you want to park the car yourself, the S90's 360° camera will help you fit into the space with confidence.

## PROTECTING WHAT'S MOST IMPORTANT.

**Protecting you and** your passengers has always been our priority at Volvo Cars, and our latest generation of cars does more than ever to keep you safe. From preventive technology that helps you avoid collisions to protective features that cushion the impact of any collision, we will never stop innovating in order to improve your safety.

Your Volvo surrounds you with protective safety. The foundation for our new generation of cars is a very strong passenger compartment that uses a high percentage of ultra-high-strength (boron) steel to create a protective cage around you and your passengers.

Volvo Cars gave the world the three-point safety belt in 1959 and our latest developments continue this commitment to life-saving inventions.

Should your car leave the road, Run-off Road Protection technology reduces your chances of suffering serious injury. Prepared front safety belts tighten automatically when the car senses that an impact is imminent, ensuring you and your passenger are in the safest position if a collision occurs. If the car leaves the ground as a result of running off the road, our unique energy-absorbing seats help to protect your spine in the event of a hard landing.

It's this range of safety technologies and attention to detail that makes your Volvo a safe place to be.

The sculpted front seats in the S90 are more than just beautiful to look at. Their unique structure helps to absorb vertical impacts, helping to protect your spine if the car lands heavily after leaving the road. It's another example of how we make every part of a Volvo work harder for your safety.

Volvo is synonymous with road safety. We put our first safety cage into production in 1944, and created the three-point safety belt back in 1959. And we're still innovating today. Prepared front safety belts tighten automatically if the car detects that a collision is likely, to ensure you're in the safest position should one occur.

## DRIVE-E

*Enjoying more, using less.*

**With the perfect** balance between performance and efficiency, every Volvo engine gives you on-demand power with low fuel consumption. We achieve this with Drive-E, the cutting-edge technology behind every one of our advanced petrol and diesel engines, where performance and efficiency are inherent qualities.

It's our innovative culture that enables us to create such engines. The D5 powertrain in the S90, for example, features PowerPulse, a Volvo Cars world-first. It activates the turbocharger as soon as you press the throttle pedal to give an instant boost of acceleration from standstill and at lower speeds. Technology such as this enables us to offer the power of a much larger engine from a compact four-cylinder, so you get the perfect mix of power and efficiency.

Smaller engines lose less energy through friction so they can make every drop of fuel work harder to minimise emissions. We've used low-friction components to make them run smoother and more efficiently. Reducing size and weight has freed up interior space and improved the car's handling.

Our eight-speed Geartronic™ automatic gearbox make the most of each engine's potential. Designed to minimise power loss and maximise performance, Geartronic™ will always select the right gear for whatever is coming next, or you can choose to change gear yourself in manual mode.

To help you drive more efficiently, select Eco mode and the S90 recalibrates the drivetrain for the lowest possible fuel consumption and emissions. The coast function disconnects the engine from the automatic transmission when you release the accelerator at speeds above 65km/h so it isn't being used to slow the car.

Our diesels are quiet and smooth for a relaxing journey, thanks to ground-breaking i-ART injection technology. By precisely metering the right amount of fuel for each cylinder, i-ART helps the engine run more smoothly while using less fuel. And the technology ensures it stays that way for the car's lifetime. You will always benefit from low fuel consumption.

At Volvo Cars, by looking to the future we enhance your life today. Drive-E brings together advanced technologies to give you efficiency, performance and range – and a better drive for you.

*"Balancing performance and efficiency, every Volvo powertrain gives you on-demand power with low fuel consumption and emissions."*

## TWO HEARTS, ONE CAR.

With advanced powertrain technologies, such as electrification, we aim to provide you with an unrivalled driving experience. In fact, we've focused on electrification and plug-in hybrid technology for more than 40 years. This experience together with advanced research put Volvo Cars in the forefront of technology, and our latest powertrain advancement – the high-performance T8 Twin Engine AWD with plug-in hybrid technology – allows you to enjoy an involving drive as well as cutting CO<sub>2</sub> emissions.

With 300kW, the combination of a four-cylinder supercharged/turbocharged petrol engine and powerful electric motor offer the power and performance of a much larger engine, but use much less fuel. The 235kW petrol engine drives the front wheels and the electric motor powers the rear, giving instantaneous acceleration and on-demand all-wheel drive.

With just the electric motor powering the car, you benefit from silent, emissions-free driving and an electric-only range up to 50km, which is ideally suited to daily commuting.

Four different drive modes offer precise control over the car's powertrain. Hybrid mode uses petrol and electric power for the best

balance of power and efficiency, while Pure uses the electric motor only for zero-emission driving. Power combines the full output of the petrol engine and the electric motor for the best performance, while AWD switches to full-time all-wheel drive. Blend your favourite elements of each mode and create a mode that's tailored to your needs by selecting Individual.

Controlling this technology is intuitive and straightforward. A beautiful, machined-alloy roller switch allows you to flick easily between modes. And if you've chosen our Active chassis with rear air suspension, your car automatically selects the best chassis settings to complement the drive mode, allowing you to enjoy the drive while your Volvo does the work.

Charging the battery is quick and easy. Drive the car and the battery charges itself, thanks to regenerative braking. If you need to top it up, plug it into the mains supply and the battery can be fully charged in up to four hours using a typical 10-amp household socket.

The T8 Twin Engine AWD gives you the best of both worlds. Power without compromise.

Made from Orrefors® crystal glass, the T8's gear selector blends traditional Swedish materials with advanced design and technology.

The combined power of a turbocharged/supercharged petrol engine and a responsive electric motor makes the S90 T8 a true performance sedan.

Plug in, turn on, charge up. Use the charging port to connect the S90 to the mains and enjoy the refinement of the electric motor wherever you go.

*"The T8 Twin Engine gives you the best of both worlds: Power without compromise."*

**The way we've** designed the T8 Twin Engine gives you more than just efficiency – you will notice how well balanced and responsive the S90 feels on the road, and how quickly it reacts to changes of direction. By mounting the electric motor over the rear axle and fitting the battery along the car's centreline, we've given the S90 near-perfect weight distribution – a key element in creating agile handling. The battery's location helps give the S90 a low centre of gravity, so it is stable, sure-footed and comfortable. And because the battery is not in the boot, you get the same luggage capacity in the T8 Twin Engine as you do in all other S90 models. Our cars are designed from the outset to use plug-in hybrid technology, so your experience with them is never compromised.

**T6 AWD | Inscription**  
 721 Mussel Blue metallic | 20" 8-spoke  
 Silver Diamond Cut alloy wheels, 214

## DRIVEN TO PERFECTION.

**We designed the S90** from the ground up for precision and comfort. That's why the sophisticated suspension gives you the best of both worlds: Accuracy and precision when you want it, backed up by comfort and technology to make every drive enjoyable.

Double-wishbone front suspension works in harmony with Integral link rear suspension to give you precise control over the car. With our Active chassis with rear air suspension (standard on T8), your S90 will compensate for loads while adapting the chassis to the road and driving conditions for an even better ride. Advanced driver aids such as stability control and understeer control logic keep the S90 stable, improving the way it handles corners. All-wheel-drive models provide even greater reassurance on demanding roads.

You can also choose between four drive modes that allow you to tailor the car's behaviour to your mood, and find the perfect setting for the road you're on. Altering the engine, gearbox, accelerator and steering response changes the way the car behaves and, with the optional Active chassis with rear air suspension, how it rides and handles. Gearshift paddles – standard on R-Design and optional on other variants – increase your control further.

And when you come to a stop, the S90 helps you to get going again. Hill Start Assist makes pulling away on an incline effortless by holding the car on the brake until you press the accelerator. Auto Hold keeps the brakes on after you've released the pedal, so you can let the car do all the work in stationary traffic.

Discover superior comfort and handling with our optional Active chassis with rear air suspension. It absorbs poor road surfaces, and keeps the ride height constant so the car responds as desired. Active chassis technology allows you to change the way the S90 rides and handles.

VOLVO S90

**T6 AWD | Inscription**  
721 Mussel Blue metallic | 20" 8-spoke  
Silver Diamond Cut alloy wheels, 214

## YOUR JOURNEY BEGINS HERE.

We created the S90 with one single purpose: to provide you with a car that perfectly fits you and your lifestyle. It's a car that meets your expectations of a dynamic drive with refined comfort and sophisticated design – built with care for people and the world we share. It's a car that's intuitive to use, makes life less complicated, and is a pleasure to live with every day.

At the heart of your S90 is a dynamic, efficient powertrain. Whichever you choose, you will enjoy our latest Drive-E technology that gives you instant response, great driveability, and low fuel

consumption and CO<sub>2</sub> emissions. Our powertrains already comply with future exhaust emission legislation.

Our Drive-E powertrain range includes advanced diesel and petrol engines mated to our smooth eight-speed Geartronic™ automatic gearbox, available with responsive all-wheel-drive technology or front-wheel drive. And for the ultimate combination of performance and efficiency in your S90, there's the option of our T8 Twin Engine AWD powertrain with plug-in hybrid technology.

Make your choice, and enjoy the journey wherever it takes you.

### T8 Twin Engine AWD

Our T8 Twin Engine AWD plug-in hybrid powertrain delivers an exhilarating drive with uncompromised efficiency. Combining a high-performance petrol engine and an electric motor, this 300kW/640Nm powertrain allows outstanding highway performance and zero-emissions commuting – with all-wheel-drive capability when needed.

### T6 AWD

This high-performance 235kW/400Nm petrol powertrain provides excellent driving dynamics without compromising efficiency. Combined supercharger/turbocharger technology, responsive all-wheel drive, and our smooth eight-speed Geartronic™ put you in control of your drive.

### T5

The 187kW/350Nm T5 petrol powertrain is as responsive on the highway as in the city. This superb all-rounder delivers generous power just where you need it, ensuring excellent driveability in combination with our smooth eight-speed Geartronic™ automatic gearbox.

### D5 AWD

Our most powerful diesel powertrain – the 173kW/480Nm D5 AWD – allows you to experience performance and refinement without compromises. Twin-turbo engine technology, our eight-speed Geartronic™ automatic and all-wheel drive add to instant control.

### D4

Our sophisticated 140kW/400Nm D4 diesel powertrain allows you to enjoy more while using less. Featuring our eight-speed Geartronic™ automatic, the D4 is designed to deliver an efficient and confident driving experience.

**Volvo S90 Momentum**

The high level of standard equipment meets your demands on style, comfort and safety.  
(Model shown with optional wheels)

**Volvo S90 Inscription**

The highly sophisticated expression of Swedish luxury.  
(Model shown with optional wheels)

**Volvo S90 R-Design**

The thrill of a spirited drive, characterised by style, responsiveness and control.

## CREATE THE VOLVO S90 OF YOUR CHOICE.

Our approach to everything we do is to always put people first. This also includes allowing you the freedom to create a Volvo that perfectly matches your style and personality.

To ensure you get your S90 exactly as you want it, we have created a wide range of options, trim levels and personal expressions. The standard Momentum trim level provides you with the poise and

technology you need as a discerning driver. Maybe you want to indulge your senses in the finest Swedish luxury? Then you'll feel at home with Inscription. Or, if you appreciate a sportier style inside and out, take a look at R-Design. Whatever you prefer, you can be rest assured there's a Volvo S90 for you. Read on, and see what your S90 will look like.

## THE RIGHT EQUIPMENT FOR YOUR DRIVE.

Choosing a Volvo S90 is easy. And now all you need to do is select the trim level that's right for you. Already our standard trim level, Momentum, will provide you with a high level of technology that will meet high demands on style, comfort and safety.

For example, you can enjoy the control provided by our 12.3-inch driver display and Sensus Connect with enhanced connectivity – such as the intuitive operation of our 9-inch centre display with touchscreen and voice control – and the clear sound reproduction of our High Performance audio system. Our electronically-controlled four-zone climate system ensures you and your passengers can enjoy a comfortable cabin climate in all temperatures – the driver, front seat passenger and rear-seat occupants can all adjust the temperature to suit individual preferences.

And, of course, you get our world-leading IntelliSafe technologies – including the award-winning City Safety collision avoidance technology, Lane Keeping Aid, Road Sign Information,

Run-off Road Mitigation, Oncoming Lane Mitigation, and IntelliSafe Assist with semi-autonomous driving technologies such as Adaptive Cruise Control and Pilot Assist as standard.

Our signature headlights with LED illumination, bright deco exterior design elements and stylish 19-inch alloy wheels add to the exclusiveness of your S90. (There's an option to choose stylish 18-inch alloy wheels in 5-double-spoke design.)

On the inside, aluminium tread plates welcome you every time you enter the cabin of your Volvo. The stylish Leather upholstery and Iron Ore aluminium decor inlays further complement the interior ambience – an experience that can be further enhanced with our optional Dark Flame Birch decor inlays. A power-adjustable four-way lumbar support for the front seats including vertical adjustment makes it easy to optimise the support to your needs. And when it's dark, the interior illumination enhances the luxurious feeling inside your S90.

## Inscription

### A HIGHER GRADE OF LUXURY.

We created the exclusive S90 Inscription to meet your highest expectations on Swedish luxury. It's a highly personal expression that evokes a strong sense of elegant refinement. Each detail is carefully selected to give you and your passengers a sophisticated and invigorating experience. Distinguished exterior design cues enhance the luxurious look and feel of the S90, while the

meticulously crafted interior gives you ample room for a relaxed driving experience. The S90 Inscription epitomises our proud heritage of human-centric design. And when it comes to intelligent luxury imbued with distinctive style and fresh thinking, the S90 Inscription is in a class of its own – just like you.

**T6 AWD | Inscription**  
721 Mussel Blue metallic | 20" 8-spoke  
Silver Diamond Cut alloy wheels, 214

The highly sophisticated S90 Inscription expresses the essence of contemporary luxury. Instantly recognisable thanks to its distinctive chrome-finish grille and lower-door bright deco moulding, this expression sets the S90 apart thanks to a number of well-judged exterior design cues that correspond with the car's timeless Scandinavian design.

Just like beautifully crafted pieces of jewellery design, the 8-spoke Silver Diamond Cut wheels (10-spoke T8 Twin Engine variant) harmonise perfectly with the metal finish of the bright deco body inlays. Together with the elegant dual integrated tailpipes, the wheels also contribute to the car's confident stance. Our signature Thor LED illumination contributes to both a strong visual identity and excellent vision in the dark. And for an even better and uninterrupted light pattern, there's our advanced Full-LED Active High Beam illumination technology.

Every time you open the door, the Inscription tread plates provide an illuminated welcome. The luxurious theme continues with authentic, finely crafted materials that create a lounge-like atmosphere of sumptuous well-being. You and your passengers

can lean back in sculpted power-operated Comfort seats with Fine Nappa Leather upholstery. Decor inlays in exclusive Linear Walnut, Inscription textile mats and our most advanced ambience interior illumination add to the rewarding Inscription experience.

And for you as driver, the large 12.3-inch driver display and convenient drive mode settings in the console between the front seats add to your feeling of being in command. And to enhance your driving experience, our Active chassis with rear air suspension (standard T8; optional D5 and T6) optimises comfort and handling – select between three different chassis settings with the drive mode control.

Four-zone climate control (two-zone in T8 Twin Engine) allows both the driver and the front seat passenger as well as the outer rear passengers to set their individual cabin temperature. And for an even higher level of comfort you can complement the front seats with ventilation and massage functions. And turning your S90 into a concert hall, our optional high-end Bowers & Wilkins audio system brings exceptional clarity and realism to your music, wherever you're seated.

1. Small details make Inscription, such as the high-gloss chrome frames around the door handles. 2. Inscription front grille in elegant chrome finish and the signature headlights with LED illumination. 3. The power-operated Comfort seats with Fine Nappa Leather upholstery and the exclusive Linear Walnut genuine wood decor inlays add to the sensory experience of contemporary luxury. 4. The lower-door bright deco moulding with Inscription logotype. 5. The intuitive 12.3-inch driver display with four graphic modes and the 9-inch centre display with touchscreen puts you in the centre of action. 6. Dual integrated tailpipes and bright deco trim add to an elegant and powerful impression. 7. Drive mode scroll wheel in diamond-patterned metal finish and the Linear Walnut decor inlay. 8. The exclusive Inscription leather-clad remote control shell is in the same colour as the Fine Nappa Leather upholstery in your S90 Inscription – an excellent example of thoughtful Scandinavian craftsmanship and clean design.

The S90 Inscription exterior with its subtle jewellery touches is a timeless expression of classical Scandinavian design. The exterior colour palette allows you to create the S90 Inscription that best reflects your style and preferences. Available in distinctive diamond-

cut design, the standard 20-inch wheels – or optional 19-inch wheels – connect visually with the exterior design cues to create a harmonic impression of contemporary elegance.

## RDESIGN

### INSPIRED BY THE ART OF DRIVING.

If you love to drive, the S90 R-Design is for you. With a unique personality, R-Design captures the thrill of a spirited driving experience characterised by style, responsiveness and control. A wealth of distinguished design details raises the dynamic soul of your Volvo and gives it a sportier, more distinct road presence. It's an expression that catches the eye from every angle and hints at the promise of an amazing drive, every time. And you can rest assured that the S90 R-Design will deliver. Surrounded by meticulously

crafted and expressive interior design details, you can feel it right from the moment you take your position in the sculpted R-Design driver seat. Everything – from the R-Design steering wheel with gearshift paddles to the Charcoal headliner – is there to inspire and support your driving. And for an even more energetic, road-hugging drive, the S90 R-Design benefits from either a dynamic Sport chassis (T6) or our advanced Active chassis (T8).

**T6 AWD | R-Design**

720 Bursting Blue metallic | 21" 5-double-spoke  
Matt Black Diamond Cut alloy wheels

1

2

R-Design is Volvo in smart designer sports gear – it's all about a performance-inspired look and feel, both inside and out. It's a truly eye-catching expression with sporty exterior design cues, such as its own distinctive grille in high-gloss black with Silk Metal frame, front spoiler, stylish Silk Metal window trim, Bright Silver matt finish door mirror caps, prominent dual tailpipes and striking R-Design aluminium wheels. Our signature headlights with LED illumination provide excellent vision and a distinctive attitude on the road. And for an even better uninterrupted vision in the dark, there's Full-LED Active High Beam illumination.

On the inside, the illuminated R-Design tread plates in Silk Metal finish greet you onboard. The refined sporty theme continues with Carbon Fibre decor inlays, Charcoal headlining and semi-powered R-Design Contour seats with a unique Nubuck Textile/Fine Nappa Leather or Fine Nappa Leather upholstery. Together, these features give the cabin a technical, cockpit-like feel. R-Design logotypes and distinctive stitching in the seats, the gear shifter and the steering wheel in perforated leather all reinforce the sporty yet elegant ambience.

The adjustable front seat cushion extensions further enhance your thigh support for improved comfort during long drives. And when it's dark, our most advanced interior illumination enhances the exclusive ambience inside your S90 R-Design. Further adding to your sense of being in control, the R-Design also provides you with our largest 12.3-inch driver display and standard gearshift paddles.

Conveniently positioned in the tunnel console between the front seats, there's also a drive mode control that allows you to shift between four driving modes with different characteristics: Comfort, Dynamic, Eco, and Individual.

Behind the R-Design sport steering wheel in Perforated Fine Nappa Leather, you can enjoy the dynamic response and feedback from quicker steering and a finely tuned Sport chassis (or our advanced Active chassis on the T8 Twin Engine variant). Lower and firmer, the Sport chassis features adjusted anti-roll bars and stiffer springs for more responsive handling and less roll when cornering. The monotube-design rear dampers respond more quickly for improved body control in all conditions, resulting in a sporty road-hugging drive without you having to compromise ride comfort.

1. The R-Design sport steering wheel in perforated leather with gearshift paddles and the 12.3-inch driver display with four graphic modes. 2. The 21-inch Matt Black Diamond Cut aluminium wheels for the ultimate R-Design experience (standard T6 powertrain). 3. The Carbon Fibre decor inlays add to the dynamic, hi-tech ambience inside your S90 R-Design. 4. R-Design door mirror caps in contrasting silver look. 5. The R-Design interior featuring the R-Design sport steering wheel, R-Design gear shifter and gaiter in Perforated Fine Nappa Leather with contrasting stitching, Contour seats with exclusive Fine Nappa Leather upholstery, Carbon Fibre decor inlays, Tailored dashboard and upper door panels with light Amber stitching (optional), and optional Bowers & Wilkins speakers. 6. Dual integrated tailpipes for a distinctive road presence. 7. The glossy black R-Design grill with frame in Silk Metal finish and unique glossy black lower outer grilles add to the dynamic character of your S90 R-Design.

(Standard T8 Twin Engine)

The exterior leaves no doubt about the intention of your S90 R-Design. The exterior colours are carefully selected to match the car's dynamic character, each with its unique expression – especially Bursting Blue metallic. Exclusively created for R-Design, this colour adds a techy, sporty look that perfectly highlights the

body inserts in high-gloss black and silk metal finish. The five-double-spoke R-Design wheels in Matt Black Diamond Cut give your S90 R-Design a superior road presence that put your Volvo in a class of its own.

Inside your S90 R-Design, you can enjoy a dynamic and driver-focused interior made of high-class materials. The sculpted R-Design Contour seats with adjustable seat cushion extensions will provide relaxed support through any twists that the road has in store, while the exclusive Nubuck Textile/Fine Nappa leather or Fine Nappa

Leather upholstery with contrast stitching provides a sporty yet sophisticated feel. It's a sensation further enhanced by the decor inlays in Carbon Fibre that perfectly complement the Charcoal interior.

## YOUR S90, YOUR WAY.

Make the S90 your own with Volvo styling accessories – the perfect addition to your new car. Choose the Exterior Styling Package with chrome inserts for an even more elegant look. Or enhance the dynamic character of your S90 with our Exterior Styling Package

with body-coloured inserts. And especially for your S90 R-Design, we've created an Exterior Styling Kit with glossy black inserts that adds to the car's exclusive appearance. You can also select individual components as separate accessories.

**T6 AWD | R-Design**

720 Bursting Blue metallic | Exterior Styling Package with glossy black inserts | 21" 5-double-0spoke Matt Black Diamond Cut alloy wheels

**R-Design Exterior Styling Package with glossy black inserts.** Designed to perfectly complement your S90 R-Design, this Exterior Styling Package with high-gloss black inserts allows you to create an exclusive, individual look. The front spoiler combines with the sill mouldings to emphasise the car's low-slung profile, while the split tailpipes create an even more powerful appearance. A boot lid spoiler maximises high-speed stability and makes your S90 R-Design look even more dynamic. This exterior styling kit is also available with body-coloured inserts. The optional 21-inch 5-double-spoke alloy wheels in Matt Black Diamond Cut add to a superior road presence.

**T6 AWD | Inscription**

721 Mussel Blue metallic | Exterior Styling Kit with body-coloured inserts |  
21" 5-spoke Fan Silver Bright alloy wheels

**T5 | Momentum**

714 Osmium Grey metallic | Exterior Styling Package with chrome inserts |  
21" 10-open-spoke Turbine Tinted Silver Diamond Cut alloy wheels

**Exterior Styling Package with body-coloured inserts.** A front spoiler and sculpted side sill mouldings with body-coloured inserts accentuate the car's low stance, while a boot lid spoiler hints at the potential performance. Integrated dual split tailpipes and a body-coloured rear diffuser create an even more purposeful appearance. The optional 21-inch 5-spoke Fan wheels give the S90 even more presence, whether it's moving or standing still.

**Exterior Styling Package with chrome inserts.** The front spoiler lip adds definition to the front end, while the chrome insert highlights the car's width. A boot lid spoiler makes the S90 look even more dynamic, and the sill mouldings emphasise the car's sporty, low-slung profile. At the rear, a body-coloured rear diffuser and integrated dual split tailpipes give the car a powerful presence. The optional 21-inch 10-open-spoke Turbine wheels add to the car's elegance and a more powerful visual statement.

## DESIGNED FOR YOUR LIFE.

Create an S90 that's perfect for your life, with Volvo accessories that are designed around you and your car. Our Media Server allows passengers to enjoy large amounts of stored entertainment content via their mobile devices, especially comfortable combined with our sleek iPad® holder. Discreet, slim sunshades provide

protection from heat and glare and are integrated into the elegant cabin, retracting neatly when not needed. The remote control can be personalised to match, or contrast, your car's interior trim, with different exterior casings in genuine wood or leather.

1

2

3

4

## BUILT TO WORK.

Make the S90 work for you with Volvo Cars' range of exterior accessories, designed to look good and work flawlessly. Made from tough, high-quality materials, they're built to withstand the kind of punishment meted out by a Swedish winter.

Take advantage of our range of roof-mounted accessories by adding our low-profile load carriers. Easy to fit onto the car's prepared mounts, they instantly allow you to fit our load carrier accessories, from the ski rack to the canoe holder. Our lightweight roof box fits straight onto the load carriers, adding 350 litres to the car's carrying capacity. It's Quick-grip mountings allow you to fit the roof box

easily and conveniently. Neat touches such as LED lighting in the lid help you load in the dark.

A set of Volvo-designed mud flaps deflects road grime and dirt from the car's bodywork and reduces the effects of spray on following traffic. Made from soft plastic, they are tough enough to withstand everyday use and flexible enough to bend, not break.

The specially designed tow bar is easy to mount and remove. Besides towing, you can fit additional accessories for your lifestyle, such as the tow bar-mounted bicycle holder that can hold up to two bikes.

## **SERVICE BY VOLVO. A SIMPLER WAY.**

When you buy a Volvo, you buy the simplest way to own a car. No matter what your car may need, your authorised Volvo workshop will take care of it for you and make sure your Volvo stays in tip-top shape.

We have our own approach to service that's personal and efficient – and which takes care of you as well as it takes care of your car. We call it Service by Volvo, and it will provide everything you need in the simplest way possible.

Your Volvo Cars dealer offers a whole range of simplifying services all designed around you, ensuring you a carefree ownership experience. Still, this is just the beginning. Soon, you will also get a Personal Service Technician, and your car will be ready within the hour so you can relax in our lounge instead of driving back and forth. It's because everything we do is about finding new ways to make life simpler for people, with our cars as well as our service.

### MAINTENANCE SERVICE

When you bring your Volvo in for maintenance service at the authorised Volvo Car workshop, a lot of extras are included to make your visit more convenient and rewarding. We update your car's software to the latest version, which means your Volvo can become a little bit better at every service. We extend your Volvo Assistance for another 12 months so that you'll be assured to get quick help around the clock should anything happen. We perform a complimentary health check on your car, offer alternative transportation if you need it while your car is being serviced, and we will also wash your Volvo for you.

### SMARTCARE

You can choose from one of our comprehensive service plans and drive easy knowing that your Volvo will receive the best care and attention under our SmartCare programme. Simply purchase a service plan prior to your first scheduled service and enjoy the peace of mind of knowing you are covered for up to five years or 75,000km (whichever occurs first) of scheduled services on your new Volvo.

**Welcome to Volvo Car Lifestyle Collection.** Our Lifestyle Collection includes a wide range of lifestyle accessories – from Swedish crystal and crafted leather bags, to clothing, watches and more selected items. To view the complete collection, please visit [collection.volvocars.com](http://collection.volvocars.com)
