

Out of the ordinary, All-new Koleos

Bigger. Bolder. Better.

All-new Renault Koleos is an evolution in automotive design and technology. With space that defies expectations and levels of comfort and finish that have to be experienced to be believed, Koleos sets the new standard in SUVs.

Out of the ordinary design

All-new Koleos is the latest evolution of Renault's design philosophy 'Emotion in Motion'. Laurens van den Acker, Renault Head of Design:

"Our challenge was to imagine an SUV that was elegant, but also modern and dynamic. We accentuated taut, powerful, horizontal lines, muscular haunches and a high ground clearance."

His passion and dedication has been rewarded by being named '2016 Designer of the Year'.*

You can see why.

*Autocar Magazine 2016

Take a seat

Renault's meticulous design philosophy and attention to detail applies to every aspect of all-new Koleos...
Including the cabin.

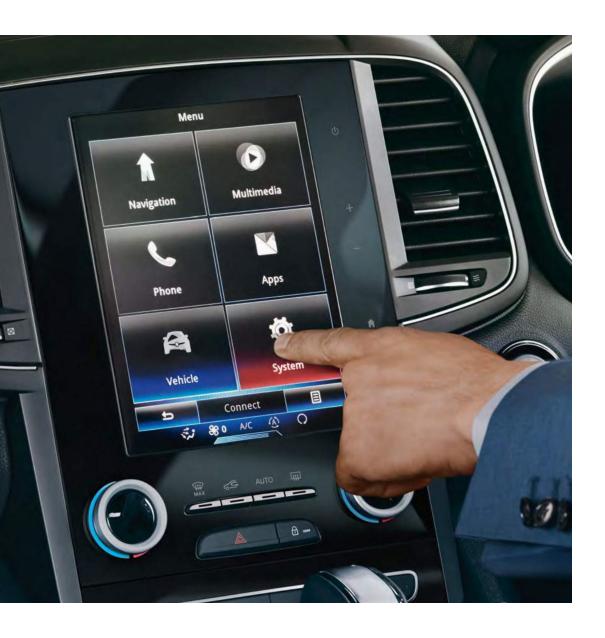

The interior design and standard of finishes are exceptional - even for a European brand. For the driver, the 7" instrument display is the largest in its category.

The screen itself is a dynamic TFT (Thin-Film Transistor). With more depth and colour than a regular screen, driver information is delivered with brilliant clarity - even for moving imagery.

Satin chrome finishes across the dash and throughout the cabin look, and feel, fantastic. The electric panoramic sunroof $^{\sim}$, with a motorized sun blind, extends over the rear seats. To reduce wind noise it opens underneath the cabin roof.

Choose between 5 different colour display options for both the multimedia, instrument display, and the cabin ambient lighting. With leather upholstered, heated or cooled^ front ergonomic seats, (available in three different styles of leather*) total cabin climate control, and a state of the art Bose® sound system*, you could be sitting in your lounge room.

- * Standard on Intens
- ^ Heated seats available on Zen, Heated and cooled on Intens
- ~ Standard on the Intens, Optional on the Zen

Out of the ordinary technology

Central to all Koleos technology is an 8.7" portrait touchscreen* - one of the largest in its category. It's a 'capacitive' touchscreen, which means it's easy to use. Simply drag, pinch, or swipe to navigate the same way you would a tablet or smart phone. After all, good technology makes life simpler, not more complicated.

Design your personal home screen by choosing the size and position of the maps, radio, favourite contacts, navigation and more. Voice commands means ease of use and safety while driving. And when you have created the interior ambience to match your mood with all the different lightening options, engage the rich, acoustic experience delivered via the Bose® premium sound audio system*.

12 high-performance speakers* deliver an experience similar to being in the middle of a concert hall performance. High notes are crystal clear and the deep bass delivered without distortion. It's a complete, immersive experience controlled via the touchscreen tablet.

Out of the ordinary space

If there is one feature that sums up Koleos' 'total comfort' it's the room for occupants sitting in the back.

The all-new Koleos has more rear passenger leg room than any SUV in its class[^]. Yet there's still a cavernous 458 litres of luggage space.

Rear passengers in the all-new Koleos enjoy dual air vents, dual USB charging ports* and rear seat nets to keep things neat and tidy. Pull down the overstitched, leather trim* center arm rest if you need somewhere to put your drinks. Enjoy the ambience of LED interior cabin lighting.... this could be the first SUV where you'd prefer to sit in the back seat.

^ Market segment: Medium SUV < \$60k

* Standard on Intens

Out of the ordinary versatility

The leather wrapped grab handles for both driver and front passenger aren't there for show. With its high clearance and off road ability, Koleos is a genuine 4WD.

All-new Koleos offers a range of driving options so you can confidently traverse a variety of surfaces and driving conditions. Introducing Renault ALL MODE 4x4-i Technology*.

With the push of a button, you can switch between three different driving modes to suit the conditions you're driving in.

2WD mode

In this mode, only the front wheels will power the vehicle. It's designed for driving on sealed roads, manoeuvring through city traffic or cruising down a highway. This mode delivers maximum fuel efficiency in safe driving conditions.

Auto mode

Use this mode when conditions are wet, slippery or the road surface is unsealed. Sensors will distribute torque between the front and rear wheels to match road conditions, reducing the chance of wheel spin. In tight cornering or braking situations, this mode will deliver optimum torque to the rear wheels.

4WD/Lock mode

Lock all new Koleos in 4WD when driving on unsealed roads, slippery roads, snowy roads, off roads or steep hills.

Front and rear wheel torque distribution is fixed, ensuring permanent transmission between the four wheels to maximise the vehicles clearance capability and stability. When LOCK mode is selected, Koleos will switch automatically to AUTO mode when your speed increases.

Out of the ordinary performance

Underneath the bonnet is the heart of all-new Koleos - a 2.5L naturally aspirated multipoint fuel injection engine that generates 126kW at 6000 rpm and 226Nm of torque. It's rated to tow 2,000kgs thanks to its power, torque and rigid chassis.

2.5L ENGINE

The 2.5L petrol engine gives the all-new Koleos power all of its own. You'll be delighted by the quiet in-cabin volume and the feeling you get with rapid acceleration, responsiveness and fluidity. Perfect for drivers who expect their vehicle to not only be economical, but enjoyable to drive as well.

An engine is only as good as its transmission. Combined with Renault's new X-TRONIC continuously variable automatic transmission, Koleos guarantees real driving pleasure.

X-TRONIC

The new X-Tronic automatic transmission offers fluid, responsive driving without interruption of torque. X-Tronic adjusts continuously while maintaining optimal engine speed and can also simulate gear shifts, producing even more powerful acceleration.

A wider gear ratio delivers excellent fuel economy, lower CO_2 emissions, quieter driving at low speeds and stronger acceleration at high revolutions.

Freedom of movement

All-new Koleos knows when you are coming.

On approach, it switches on the daytime running lights, unlocks the doors and deploys the door mirrors without needing to take the key out of your pocket or bag.

To open the boot, either use your remote key card or place your foot underneath the rear bumper. Sensors will open the motorised tailgate* automatically, revealing 458 litres of luggage space in seconds.

The 'one-touch' easy folding rear seats fold down to create a colossal luggage area. Even better, it's storage that's easily accessible with a low loading sill that makes it easier to pack cumbersome items inside. Even a rear boot cover hides your load and rear Privacy Glass protects it from prying eyes.

Driver assists

Renault engineers have long studied and re-imagined different driving situations to develop new technologies and systems to assist the driver. And not just in case of an emergency. They can help prevent emergencies from happening in the first place.

Easy Park Assist*

The parking assistance system measures the parking space with its sensors (whether parallel, perpendicular, or angled) and defines the parking trajectory. Then it takes over the wheel and steers itself while the driver controls the speed and braking. It can also help to exit parallel parking spots.

Front, Side, and rear parking sensors^

All-new Koleos has you covered from all directions with sensors that give you an audible warning when moving or static objects are too close, as well as visual guidelines displayed on the touchscreen let you know exactly how close you are to an obstacle.

Automatic high and low beams

The Pure Vision LED headlamps* on the Intens model will automatically switch from high to dipped beams when your Koleos enters a built-up area or approaches another vehicle from the front or behind. Cornering foglights automatically switch on when turning corners.

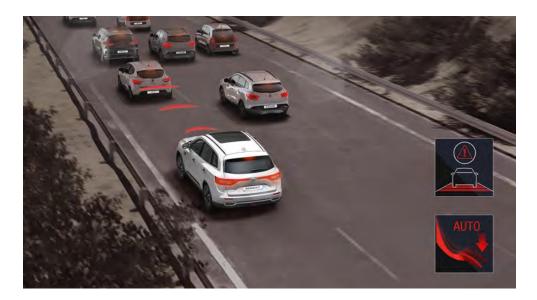

Blind spot warning system*.

The All-new Koleos detects vehicles entering your blind spot. An indicator light located on each wing mirror will warn you of any potential hazards.

^Side sensors standard on the Intens. Front and rear standard across the range.
*Standard on the Intens. Blind Spot Warning is optional on the Zen.

Out of the ordinary safety

Driving safety is a cornerstone of Renault's corporate culture and builds on fifty years of research and development into accident protection and prevention.

Advanced Emergency Braking*

If you have to brake in an emergency, this system complements the ABS and ESC to reduce stopping distances and collision risks. If a vehicle suddenly stops in front of you, a forward collision warning light and tone alerts you.

Simultaneously, the vehicle is actively preparing for emergency braking by bringing the brake pads and discs closer together for maximum braking power in the minimum response time. If you don't react and step on the brakes, the car will activate braking for you.

Adaptive airbags

Koleos protects occupants with multi-stage, variable force deployment airbags. This variable deployment is determined by the severity of the accident and proximity of the driver and front passenger to the dash or steering wheel. All-new Koleos also features lateral pelvis and chest level airbags for front occupants, and curtain airbags for the entire cabin.

Emergency braking lights

In the case of heavy braking, the all-new Koleos activates its hazard lights to warn other vehicles around you.

Lane departure warning*

At higher speeds the front camera monitors the lanes and activates a warning light and tone if your Koleos strays from its marked lane. The warning tone even mimics the sound of driving over lane markers.

Automatic locking

When driving, or leaving the car, Koleos will automatically engage the door locks, never leaving you exposed.

*Standard on the Intens. Advanced Emergency Braking system and Lane Departure Warning is optional on the Zen.

Renault Services. For peace-of-mind.

Comprehensive Warranty

Renault has been building and racing motor vehicles for more than 100 years, creating a legacy of invention, innovation and a competitive spirit that drives us to excel. The wealth of experience we've gained is reflected in the design, performance and quality of every vehicle we sell. We're so confident that your new Renault will provide you with many years of reliable and enjoyable driving that we're backing our quality promise with a comprehensive 5 years unlimited kilometre warranty on all of our passenger vehicles.

24/7 Roadside Assistance

Renault Roadside Assistance is a service Renault provides to you as a new Renault owner for the period of your new vehicle warranty, regardless of how many kilometres you travel. You could run out of fuel, lose your car keys, have a flat tyre or an accident just around the corner or a long way from home. Just call 1800 009 008 and we'll arrange the assistance you need to get back on the road. The service is available 24 hours a day, 365 days per year and covers you right across Australia.

Capped Price Servicing

Fantastic Renault value doesn't end once you've got your new vehicle home – you'll enjoy the benefits of lower maintenance costs for your first 3 years or 45,000 km (whichever occurs first) behind the wheel thanks to Capped Price Servicing. The Capped Price Service program covers the cost of all genuine parts, lubricants and labour required for standard scheduled maintenance services. And because you're busy, Renault vehicles are designed to require servicing only once per calendar year – not every six months like many other manufacturers.

Genuine Renault Parts

Genuine Renault parts, lubricants and accessories are of the highest quality, and specifically designed for Renault vehicles. They are purpose-built to our exacting specifications, guaranteeing fit, function and performance first and every time. They are also covered by our 1-year unlimited kilometres warranty. Authorised Renault Dealers keep high stock levels of commonly used genuine Renault parts to ensure continuous availability.
