

RENAULT
Passion for life

Renault CAPTUR

"Style in buckets, on-road 'zing' and a surprisingly roomy interior... No doubt about it, Renault's new Captur crossover SUV is going to win hearts."

Tim O'Brien
The Motor Report

"Brings real style and efficiency while also appealing to those who like low prices and high specs. No wonder it's going gangbusters globally."

Byron Mathioudakis
Wheels

A cross between an urban hatch and compact SUV

Whether you need a vehicle for business or pleasure, weekdays or the weekend, Captur is the crossover for both sides of your life.

It's visually stunning. The fluid, sculptured body can be enhanced with a range of two-tone colour schemes, so think of your new Captur as a blank canvas ready to reflect your own personality.

Inside it's just as impressive, combining European style with practicality. For example, ergonomic shell front seats and sliding rear seat bench are wrapped in either dark charcoal leather or optional washable, zip off covers.* And like the exterior you can genuinely personalise the interior to suit your tastes.

Captur has all the smarts you expect from a European car brand. Keyless start, satellite navigation, Bluetooth® phone pairing and the Media Centre are controlled by a high definition touchscreen. It's powered by the highly fuel efficient Renault TCe engines with ECO Mode to reduce CO₂ emissions and it's been awarded a 5 star Euro NCAP Safety Rating.

Isn't it time you crossed over to a Renault Captur?

*Dynamique only

A design movement

Captur's eye-catching appearance evolved from a simple design philosophy.

Few straight lines.

Curves to evoke movement and lightness.

A commitment to make Captur's overall appearance as stunning and fresh as the thinking behind the car itself – both inside and out.

We could go on to describe features like the muscular looking side panels and wheel arch design, the larger wheels and broad bumpers that give Captur a sporty, solid look...but as they say, a picture tells a thousand words.

Eco-driving

*Optional on the Expression and Dynamique
^Manual transmission only

Driving habits are changing towards the concept of Eco-driving. The rewards are more relaxed, cleaner driving, lower fuel consumption and less vehicle wear.

Eco-driving is second nature in the Renault Captur. Its innovative technology gives each driver even greater control over fuel consumption and CO₂ emissions. Various assistance tools on the instrument panel make things easier; an indicator shows the best moment to change gear, whilst another assesses your driving style (green, yellow, orange) as part of the R-LINK system.*

By activating ECO Mode, you can benefit from engine settings optimised for more restrained, economical driving. The Renault Captur features energy smart management (ESM) – which recovers kinetic energy when braking or decelerating. ESM optimises consumption of electrical energy and helps recharge the battery. Also included is Stop&Start[^], which automatically turns off the engine when the Captur is stopped or in neutral, cutting emissions, fuel consumption and noise.

Overseas model shown

Your Safety - Our Priority

Captur has been awarded the maximum 5-Stars by Euro NCAP.

Earned under tighter Euro NCAP regulations, this result confirms Renault's expertise in passive safety. Captur is the fifteenth Renault to achieve a 5-star safety rating – a record we are particularly proud of as it's an acknowledgement of our commitment to providing the most advanced and effective safety devices, both passive and active, as standard features in all Renault cars.

Along with front and side airbags, seat belt pretensioners and a reinforced structure, the Captur also comes with Hill Start Assist, rear view camera and rear parking sensors standard across the range. On the Captur Dynamique, there's a headlight cornering function that automatically lights up the fog light nearest the bend in order to give you a wider field of vision.

Safety for all

Safety is one of Renault's core priorities. The Captur is a perfect example: its active and passive safety features are among the most innovative and efficient available.

Protection

Reinforced structure, high-efficiency front airbags, head/chest side airbags for driver and front passengers, pressure sensor to detect impact, seat belts with pre-tensioners, anti-whiplash headrests, and Isofix 3-point seat attachments on rear outermost seats.

Hill Start Assist

When starting the vehicle on a hill, brake pressure is automatically maintained for two seconds, giving the driver time to manoeuvre.

Corner lighting

When taking corners, the fog light on the side nearest the bend lights up automatically to give you a wider field of vision.

Crossover to
clever thinking

The METRO

Naturally the Captur's higher ride height lets you literally 'step in and step out' of the cabin. From behind the wheel you'll appreciate the benefits of Captur's higher driving position – a further, less cluttered view of the road ahead.

The ergonomic shell seats are superbly comfortable. In the Dynamique model, you even get seat covers that zip off so you can swap colours and designs. If they get dirty, you can just throw them in the washing machine. The rear bench seat can slide forward or back 160 mm, allowing for either more legroom or boot space. The 60:40 split also folds flat to give you up to 1,235 litres of load space.

The in-dash 7" touchscreen – that controls features like Bluetooth® phone pairing, satellite navigation and the Classic Sound audio system – is sensibly located and simple to use. Storage abounds with a large 1.6L space in the dash and a clever two-sided floor in the boot with carpet on one side and plastic on the other for easy cleaning. This floor can be raised and lowered to hide your possessions or to give you more space.

Inside adventure

The superbly practical Renault Captur has set its sights on explorers, providing them with storage worthy of its name. Net pockets behind each front seat can be used to store newspapers, maps, notebooks or explorer guidebooks. As if that wasn't enough, you also have 1.6 litres of closed storage compartment on top of the dashboard.

To ensure even greater comfort for everybody, there is ample interior space. The rear passengers enjoy knee room of up to 21.5 cm. The 60:40 split folding rear bench has 3 seats, converts into a flat floor and slides on rails, allowing the Captur's volume to be adjusted and its passenger compartment arranged to suit your needs.

The Captur's clever boot floor is also remarkably versatile with the ability to be put in multiple positions (high for flat loads or low for extra room), it also can be reversed to a sturdy plastic cover allowing easy cleaning after moving messy cargo.

Touch & explore

Renault Media Nav, intuitive and simple multimedia. With its 7" touch sensitive multimedia tablet-screen, the Media Nav system offers a number of smart, and practical functions such as step-by-step navigation, radio, music streaming via USB or Auxiliary cables, podcasts or audiobooks, and hands-free telephony using Bluetooth® technology*. With Renault Media Nav, connecting your mobile phone is easy and intuitive.

Reversing Camera and Rear Parking Sensors

Whether reversing down a driveway or finding that last tricky space in the car park, rear parking sensors and camera (available across all models) make manoeuvring easier and safer.

The rear view camera is also tucked away in the licence plate recess, giving you a perfect view of the

road behind you when reversing or parking. Distance guidelines displayed on the touchscreen help guide you into place rear sensors also provide an audible warning as your approach potentially unseen objects.

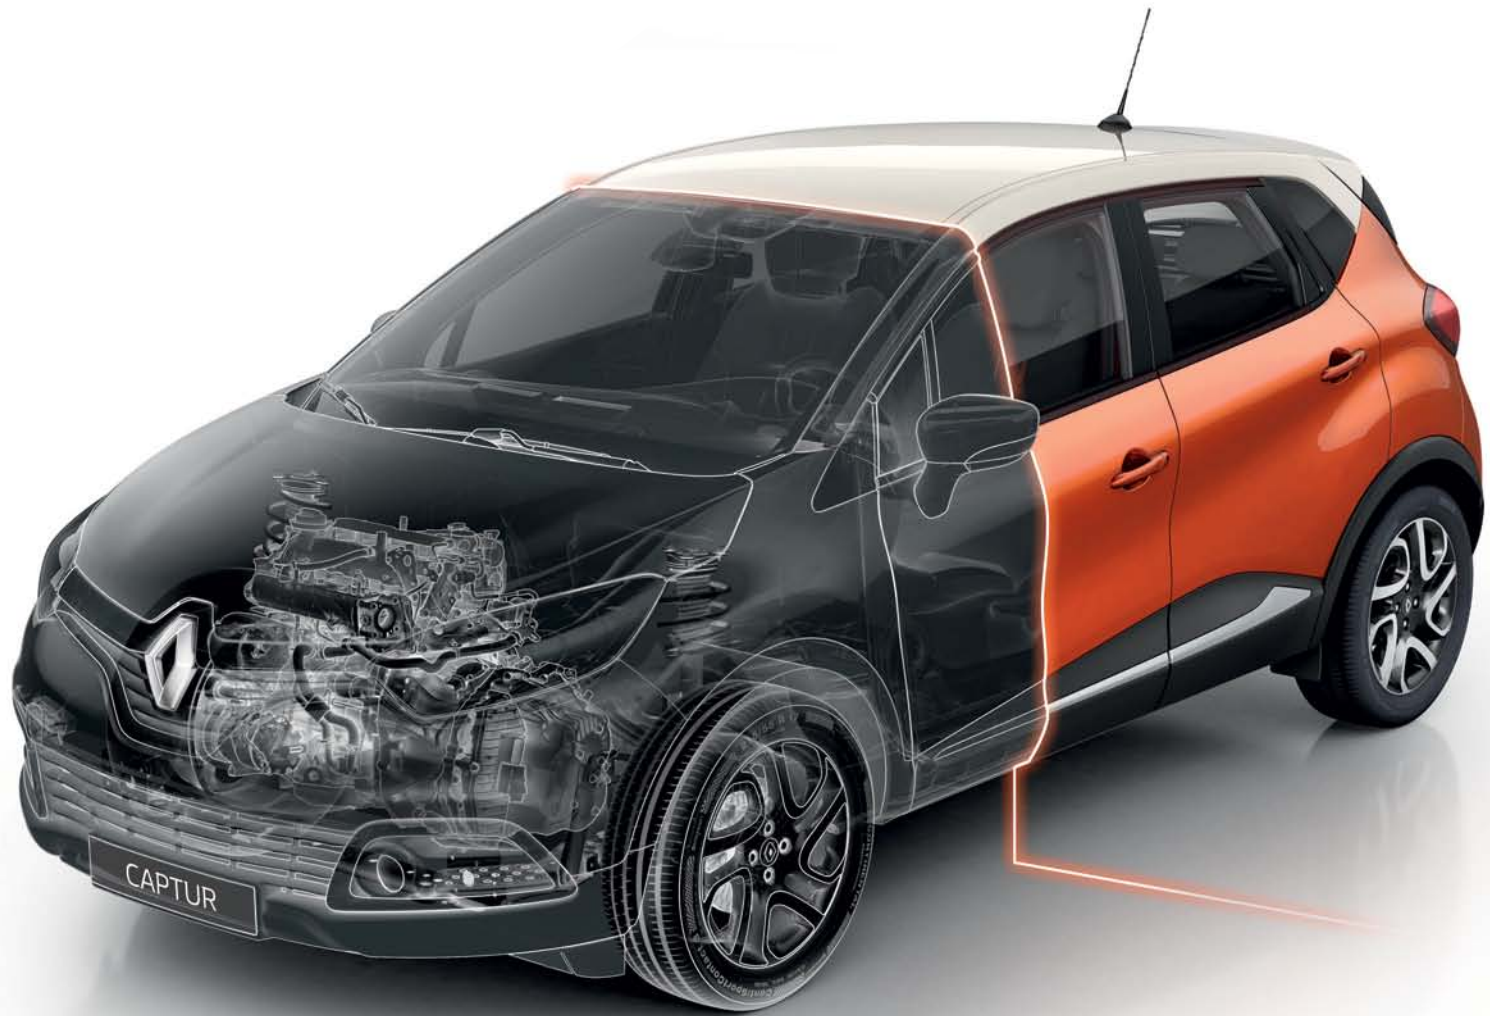

Automatic, everything

In the Renault Captur, every length has been taken to make your drive, safer and simpler. Whether it is the automatic rain sensing windscreen wipers, or the dusk-sensing automatic headlights (that switch on and off whether you are driving at night or passing through a tunnel), the Captur's autonomous systems allow you to focus on the road ahead at all times. The Captur even comes with hands-free entry and engine start, so your key never needs to leave your bag or pocket.

*Bluetooth compatibility may vary depending on phone

Media Nav navigation system

Pure energy

Captur is the crossover that balances environmental considerations with inspired performance.

ENERGY TCe 90 **100% turbo, 100% efficient.**

When it comes to petrol, the new ENERGY TCe 90 is an 898 cm³, three-cylinder turbo engine that delivers 90 horsepower. The engine allows sharp acceleration from low speeds (90% available torque at 1,650 rpm), avoiding excessively frequent gear changes and ensuring pleasant city driving. It consumes only 4.9 L/100 km* (combined cycle) and its CO₂ emissions are limited to 113 g/km*.

TCe 120 EDC **Agility and control.**

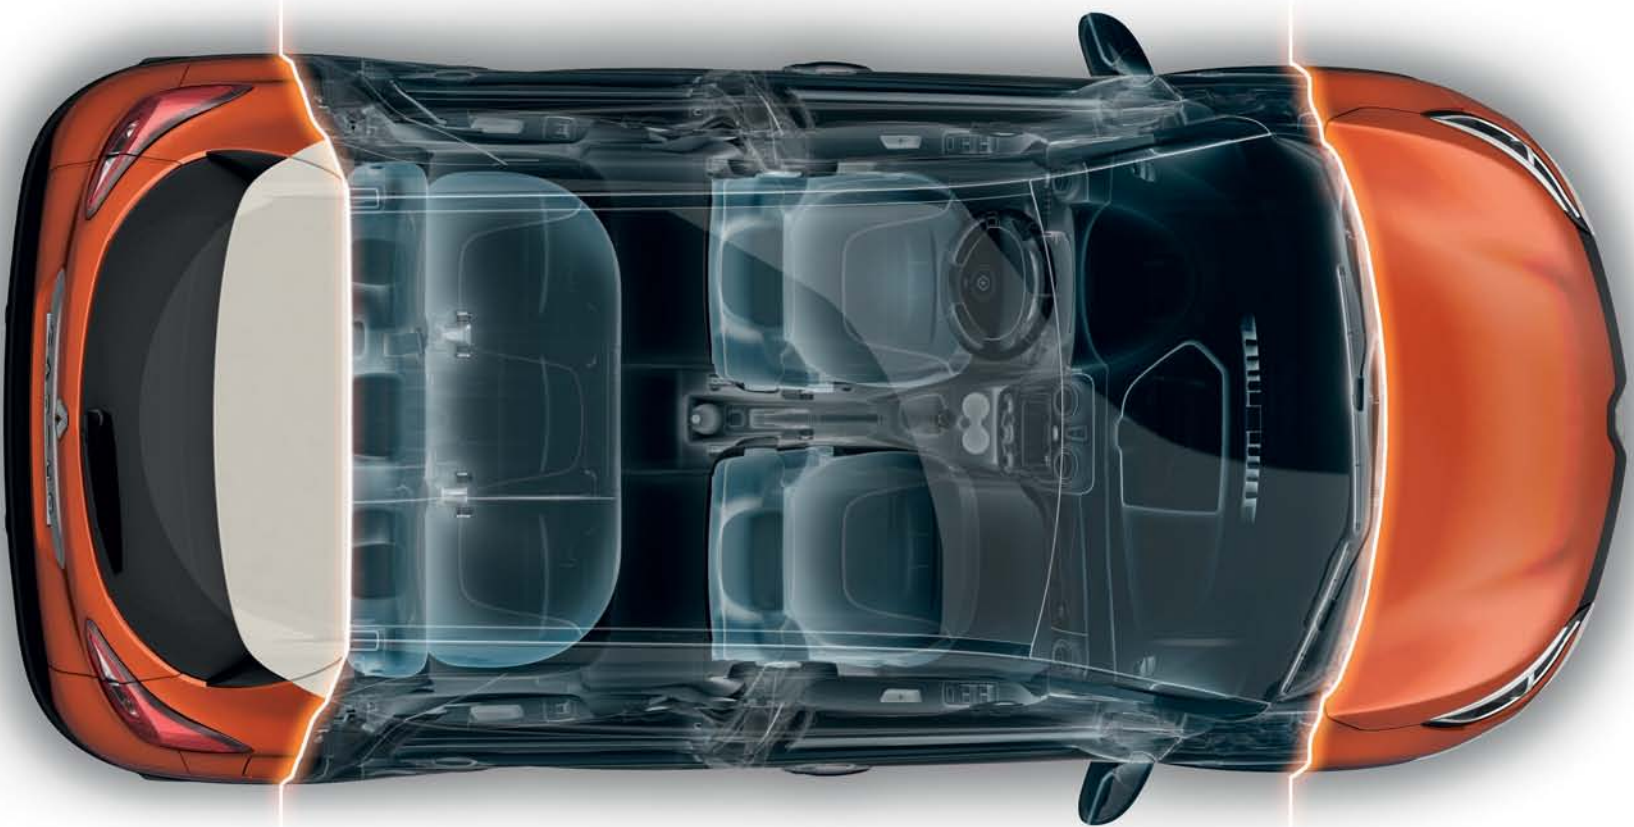

The TCe 120 EDC (Efficient Dual Clutch) combines power with controlled fuel consumption (5.4 L/100 km and 125 g/km* of CO₂). Responsive, lively and agile, it is both powerful and quiet. Its 120 hp delivers 190 Nm of torque at 2,000 rpm. For even greater driving pleasure, it is connected to a 6-speed dual-clutch EDC automatic gearbox.

EDC automatic gearbox

For greater comfort and pleasure, the 6-speed efficient dual-clutch automatic gearbox is available with the TCe 120 engine on Expression and Dynamique models. Upshifting is fast and smooth, with no jerking or loss in acceleration. The EDC benefits from a transmission which combines the comfort of an automatic with the response and fuel efficiency of a manual transmission.

*Vehicle tested in accordance with ADR 81/02 based on combined cycle (city/highway). Actual fuel consumption and CO₂ emissions depend on factors such as traffic conditions, vehicle condition and how you drive.

Renault Services. For peace-of-mind.

Comprehensive Warranty

Renault has been building and racing motor vehicles for more than 100 years, creating a legacy of invention, innovation and a competitive spirit that drives us to excel. The wealth of experience we've gained is reflected in the design, performance and quality of every vehicle we sell. We're so confident that your new Renault will provide you with many years of reliable and enjoyable driving that we're backing our quality promise with a comprehensive 5 years unlimited kilometre warranty on all of our passenger vehicles.

24/7 Roadside Assistance

Renault Roadside Assistance is a service Renault provides to you as a new Renault owner for the period of your new vehicle warranty, regardless of how many kilometres you travel. You could run out of fuel, lose your car keys, have a flat tyre or an accident just around the corner or a long way from home. Just call 1800 009 008 and we'll arrange the assistance you need to get back on the road. The service is available 24 hours a day, 365 days per year and covers you right across Australia.

Capped Price Servicing

Fantastic Renault value doesn't end once you've got your new vehicle home – you'll enjoy the benefits of lower maintenance costs for your first 3 years or 45,000 km (whichever occurs first) behind the wheel thanks to Capped Price Servicing. The Capped Price Service program covers the cost of all genuine parts, lubricants and labour required for standard scheduled maintenance services. And because you're busy, Renault vehicles are designed to require servicing only once per calendar year – not every six months like many other manufacturers.

Genuine Renault Parts

Genuine Renault parts, lubricants and accessories are of the highest quality, and specifically designed for Renault vehicles. They are purpose-built to our exacting specifications, guaranteeing fit, function and performance first and every time. They are also covered by our 1-year unlimited kilometres warranty. Authorised Renault Dealers keep high stock levels of commonly used genuine Renault parts to ensure continuous availability.
