## COMFORT IN CLOSE QUARTERS.

When moving from job to job, you need a truck with easy access. Large non-slip steps and front doors that open to 90° are standard features on our Crew Cabs. Inside they boast the trademark comfort and roominess Isuzu is known for, making those early morning starts more inviting than you might imagine. There's no more races to the 'best seat' at the end of the day either, everyone has room to wind down.

## SAFETY FOR SEVEN.\*

It's not just yourself you have to think about in a Crew Cab, so you can rest easy knowing that when it comes to safety we're not one to cut corners. ABS and ASR traction control come fitted on all 4x2 models<sup>†</sup>, while manual transmission models come with Hill Start Aid (HSA). A driver's and passengers airbag is standard across all Crew cab models. And with Isuzu Electronic Stability Control (IESC) if one of your wheels starts to slip, on-board sensors pick it up and send power to the other wheels and even automatically apply your brakes to put you right again.

\*ASR is not available on FTR model. <sup>†</sup>NLS 45-150 has 6 seats.

## MEET DAVE, YOUR STREET-SMART SIDEKICK.

Our Digital Audio Visual Equipment (DAVE), the ultimate cab infotainment system, is right at your fingertips. Navigate through the simple menu to play your favourite songs or (digital) station.
