

The LDV **G10** Van

RELIABILITY.
VALUE.
COMFORT.

THE LDV G10 VAN.

G10+ model shown

When it comes to business, it doesn't take a genius to see that the LDV G10 Van is a rock-solid investment. You need a one tonner that can keep you and your business moving reliably and comfortably. G10s are built to stand up to the everyday and so much more.

Every van features a powerful engine, rear wheel drive, a comfortable cabin and tough, roomy cargo space, all with the backing of one of the world's leading commercial vehicle manufacturers.

A G10 gives you the space and features to tackle your day-to-day with confidence.

HARD YARDS.
EASY WORK.

2 litre petrol engine

2.0 litre D20 turbo diesel

1.9 litre diesel engine

Setting off for a job site before sunrise. Working through a long list of deliveries before school zone traffic hits. Grabbing lunch and some materials. No matter your to-do list, rock-solid LDV G10 Van engines give you the go-forward to tackle whatever the job calls for.

The pride of the pack is the G10+ 2.0 litre D20 turbo diesel engine with 118kW of power and 375Nm of torque. But let's not forget our proven workhorse on the G10, the 1.9 litre with 106kW and 350Nm, which delivers time after time. Prefer to leave the engine running during deliveries? No worries. The diesel's fuel efficiency means you spend less time – and money – at the petrol station.

The G10 petrol model (160kW, 330Nm, 2.0 litre turbocharged engine) brings extra power at take-off time. Its Gasoline Direct Injection (GDI) and Variable Valve Timing (VVT) provide plenty of oomph for your tools, team and load.

All come with rear wheel drive and a tight turning circle that can save you time. Say goodbye to the stress of halting traffic with five-point turns in the city's most crammed corners. Plus, the G10+ automatic models bring the benefit of an 8 speed ZF transmission for an even smoother ride.

WORK SMARTER AND HARDER

G10+ model shown

The LDV G10 is a convenient, comfortable mobile office that travels with you.

A spacious interior provides room for your tools of the trade to ride shotgun so you can take your business on the road. Keep computers, tablets, notebooks and payment processing tech securely up front with you. And use Apple CarPlay® to map your route, take calls and send messages hands free.

All G10 Vans come with absolute comfort built into the driver's seat. Sleek dark design hides the scuffs, pen marks and spills that come with a life spent driving. And durable padding and an armrest help you survive hours behind the wheel.

Because a comfortable driver is a safer driver.

COMFORT AND CAPABILITY

Features

- > Apple CarPlay®
- > Bluetooth
- > Rear camera
- > Alloy wheels
- > Rear parking sensors

**READY FOR THE
TOUGH STUFF**

The G10's huge 5.2m³ cargo area has heaps of room for your tools, materials and deliveries. Fit it out and it's fit for any purpose, with space for the nuts and bolts of your operation plus room to pile in ducting, metres of cable or wiring, parcels and the other spare parts and pieces you need to get the job done.

Six convenient tie-down points on the floor and one on each wheel arch let you secure payloads of various shapes and sizes. And don't be shy about what you chuck in the back – the durable floor is built to withstand hefty loads.

A rear lift tailgate keeps you protected from the elements when accessing the back. Combine that with two side sliding doors and integrated steps on both sides and you can get the whole crew involved, making light work of heavy packing and unloading jobs. Even with all that space, the G10 is only 1.928m high, so getting in and out of underground car parks for maintenance jobs at apartment buildings and shopping centres is too easy.

SERIOUS ABOUT **SAFETY**

Safety is a priority in all G10 Vans.

A robust Lotus calibrated chassis. An ESP safety system from Bosch. A braking system with anti-skid brakes (ABS), electronic brake force distribution (EBD) and emergency brake assist (EBA). It's all here to keep you, your passengers and your payload safer.

While you're driving, electronic stability control (ESC) and roll movement intervention (RMI) help keep your van stable. The G10 Van also comes with everyday essentials like driver and passenger airbags, rear fog lamps and a tyre pressure monitoring system, as well as a rear camera and parking sensors.
