

RENAULT MASTER BUS

Master Bus shown with optional curtains and electric sliding doors.

Renault Master Bus

Safe. Spacious. Practical. The Renault Master Bus is a genuine alternative to the same old, same old. Developed specifically for the Australian market, it combines great value for money with high levels of driver and passenger comfort. There's plenty of safety equipment, excellent payload and luggage storage, plus a generous warranty and low servicing costs. Not to mention a highly competitive purchase price. And anyone with a car licence can drive it.

features by the busload

dimensions: At 6.2m in length, 2.47m wide and 2.47m high, Master Bus is the perfect compromise between exterior size and internal space.

storage: A class leading 3.5m³ storage space behind the rear seats keeps the cabin area baggage free, leaving more room for passengers.

standing room height: The Master's low cabin floor allows for up to an exceptional 1.88m of internal standing room, making access easy for even the tallest passengers.

fuel tank: The Master's highly efficient diesel engine and 100 litre fuel tank combine to deliver operating economy and long range between fills.

safety: Accurate and predictable handling backed with a range of electronic systems provide high levels of standard safety.

engine: The turbo diesel engine delivers 110kW peak power and 350Nm of torque from just 1500rpm.

driveability: Light controls, good maneuverability, excellent driver comfort and outstanding visibility give Master Bus exceptional driveability. And with a 3.9 tonne GVM, anyone with a normal car licence can drive it.

seating and comfort: The 12 seats are arranged for excellent accessibility and efficient use of interior space.

colour: Master Bus comes in a wide range of 7 solid or 3 metallic colours.

servicing: The lower running costs are further enhanced by long service intervals of 12 months or 30,000km, whichever comes first.

1. **safe & secure.** All passenger seats come with integrated head rests and 3-point seat belts. Aisle seats are equipped with adjustable armrests and two positions are fitted with Australian Standards compliant Child Restraint anchorage points. Master Bus shown with optional curtains and premium carpet.
2. **Electronic Stability Control.**
3. **front airbags.** In the cabin, driver and passenger safety is ensured with front airbags.
4. **passenger wide view mirror.**

a safe and sound investment

When it comes to moving people you can never be too safe. That's why a busload of people deserve a bus loaded with safety features.

Master Bus's high level of standard safety equipment includes Electronic Stability Control, anti-lock brakes (ABS), Hill Start Assist, Grip X-Tend, driver and passenger front Airbags, reverse parking sensors and a reversing camera.

Every seat is fitted with a 3-point seat belt. Two seat positions are also fitted with Australian Standards compliant child restraint anchorage points so even the youngest of passengers can travel in safety.

Up front, the ergonomically designed cockpit limits driver distraction and fully-adjustable seating reduces driver fatigue. Front fog lights, powerful cornering headlamps and plenty of glass in the cabin help to further reduce the risk of an accident by increasing the driver's visibility.

1

1. **intelligent cabin.** Master Bus comes with a centre passenger bench seat that folds down to become a handy work table. Plenty of internal storage areas provide flexibility in the space upfront.
2. **internal storage.** With approximately 3.5m³ of internal storage and nearly 1.3 tonnes of payload there's no need for a trailer in most cases. Master Bus shown with optional curtains and premium carpet.
3. **room to move.** The seats are arranged in a 3/2/3/4 configuration that maximises cabin space and accessibility. Up to 1.88m of internal standing room is class leading. Master Bus shown with optional curtains, premium carpet and USB sockets.

class-leading comfort

Real comfort means having plenty of room to move, and Master Bus doesn't disappoint with a cabin designed with both space and practicality in mind.

The two-tone grey cloth seats are arranged in a 3/2/3/4 configuration, providing loads of comfort and easy accessibility for passengers carrying shopping, luggage or mobility aids. For even greater comfort, the optional Business Pack includes premium carpet flooring, privacy curtains, LED interior lighting and USB points for each row of seats.

Maintaining a comfortable temperature for everyone onboard is easy with both front and rear air conditioning units and an additional cabin heater.

Passenger comfort and safety is further enhanced by the 3.5m³ storage area behind the last row of seats. This huge space means a clutter free cabin and no need in most cases for a separate trailer.

2

1. **upgrade to luxury.** Business Pack options including LED strip lighting, privacy curtains and dual-USB sockets for a truly up-market environment.
2. **steering wheel mounted controls.** Immerse yourself in your favourite music or keep connected on the go with the 2x15W Radio with Bluetooth® phone pairing,† USB, AUX connectivity and steering wheel mounted controls.
3. **2.3L M9T turbo diesel engine.**

performance and technology that really performs

Driving pleasure isn't a term you often hear to describe a bus, but the Master Bus's unique blend of power, comfort and economy delivers exactly that.

Powered by a 2.3L turbo diesel engine with plenty of go around town or on the highway, Master Bus is also extremely efficient, with a number of innovative engine design features that keep fuel consumption, running costs and emissions to a minimum. A 100 litre fuel tank means long range and fewer trips to the bowser, while 12 month/ 30,000km service intervals mean fewer trips to the dealer.

And when you consider Renault's economically priced Capped Price Service program and 5 Years / 200,000 km Warranty with 24/7 roadside assist, and it's easy to see that Master Bus stacks up for your bottom line as well.

Master Bus is not only functional, it's full of functionality with standard equipment including Cruise Control, speed limiter, MediaNav 7" touchscreen media & navigation system w/ Apple CarPlay® and Android Auto® smartphone replication and a 12V auxiliary power outlet.

services

renault at your side

When you choose a Renault Commercial Vehicle, you enjoy years of worry-free motoring, backed by a trusted and reliable brand.

*Conditions apply

Comprehensive Warranty

With over 100 years of Commercial Vehicle history, our experience is reflected in the design, performance and quality of every vehicle we sell. We're so confident of the quality in your Renault Trafic, we back it with a 5 Years / 200,000 km Warranty.

24/7 Roadside Assistance

In the unlikely event you breakdown, you're backed by Renault's 24/7 Roadside Assistance for up to 5 years from your initial purchase. Simply call 1800 009 008 and we'll provide the support you need. Available 24/7, 365 day a year, all across Australia.

Capped Price Servicing

For easy budgeting, enjoy Capped Price Services for the first 5 scheduled maintenance services. Plus, to minimise disruption to your business, authorised Renault dealers also have low-cost loan vehicles available to use. Authorised Renault Dealers have Registered Renault Factory Trained Technicians (COTECHs) and only use genuine Renault parts, equipment and tools specially designed for your Renault. There is also a 1 year parts and labour guarantee on all repairs. With a clear, simple and transparent pricing structure for all servicing, Renault provide reassurance, when you need it most.
