1. 8 years or 160,000km whichever comes sooner, from the vehicle's warranty start date. Subject to terms and conditions, visit [www.peugeot.com.au/owners/warranty.html](http://www.peugeot.com.au/owners/warranty.html) 2. Figure based on WLTP (Worldwide Harmonised Light Vehicle Test Procedure) static laboratory combined average city and highway cycle test, which measure, energy consumption, range and emissions in passenger vehicles, figures stated for the purposes of comparison amongst vehicles tested to the same technical procedures only. Actual real world range results will vary depending on a combination of factors including but not limited to load, driving style, type of journey, vehicle configuration, battery age and condition, use of vehicle features (such as heating and air conditioning), as well as operating, environmental and climate conditions. 3. Charging times will vary depending on a variety of factors including, but not limited to, the output of the charger being used, starting battery charge, charging equipment, ambient temperature, battery state as well as the age of the battery at point of use. As a result of these factors, charging times may therefore vary significantly. 4. Driver only. 5. In sport mode, 133km/h in electric mode.

1. Tare Weight where quoted is for the vehicle unoccupied and unladen with full fluids and 10L fuel. Weights may change with the addition of equipment. An individual vehicle must be weighed to establish the exact kerb weight and payload applicable to that vehicle. It is the responsibility of the driver to ensure the vehicle is operated within the legal limits.  
2. Fuel consumption results are based on WLTP or NEDC standard test procedure to provide customers with a basis for comparison of the performance of vehicles in accordance with ADR 81/02 only. No test can simulate all 'real world' driving conditions. Actual on-road fuel consumption is will vary due to factors such as traffic conditions, vehicle conditions and load, fuel quality and how the vehicle is driven.
