

MIRAGE

love that car

**BUILT FOR FUN
IN THE CITY**

The stylish Mirage Hatch will have you out and about, picking up friends, zipping off for coffee, shopping, entertaining and living your busy life with a minimum of fuss. Compact and good looking on the outside, Mirage is surprisingly spacious and sporty on the inside, with handy storage compartments and comfortable seating for five adults.

'Smooth, quiet, practical and fuel-efficient' now have another companion – fun.

- + Cruise control in the LS Mirage Hatch means you're as comfortable on the highway as you are in the city streets and laneways.
- + Your control switches are conveniently located on the steering wheel with integrated phone and audio buttons.
- + Bluetooth® with audio streaming will keep you in touch.
- + Climate control air-conditioning in the LS means you and your passengers will travel in comfort.
- + Keyless entry and central door locking complete this modern city car.

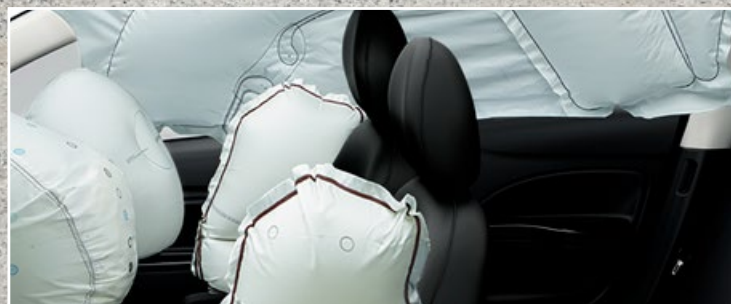

Mirage Hatch has a newly shaped body with sporty, lean lines. The chrome grille surround adds style that really stands out in a crowd. Mirage turns heads as effortlessly as it turns in tight city spaces. Take LS Mirage Hatch for example:

- + 15" 2-tone alloy wheels mean you'll always have the right shoes for your outfit.
- + Front fog lamps make you visible as well as light your way when needed.
- + High-mount stop lamp on the rear roof spoiler signals your intentions.
- + Privacy glass keeps your passengers discreetly from view.

AS ALWAYS, SAFETY COMES FIRST

5 Star ANCAP Rating - Significant safety features coupled with Mitsubishi's Reinforced Impact Safety Evolution (RISE) body have earned Mirage Hatch the maximum safety rating of 5 stars so you can rest assured you're driving one of the safest cars on the road.

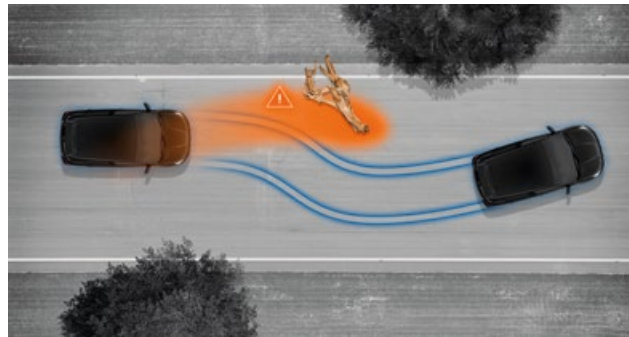

6 SRS airbags

Mirage Hatch is fitted with driver and front passenger SRS airbags for maximum protection in the event of a frontal collision. Side and curtain SRS airbags are also standard, protecting against side-on collision, inflating from the side of the seat to protect the torso, and from the roof lining to protect the head.

Reinforced Impact Safety Evolution (RISE)

The Mitsubishi Reinforced Impact Safety Evolution (RISE) body means you and your passengers are protected by the latest energy absorbing chassis design and technology. In the event of a collision, impact-absorbing crushable zones are designed to dissipate energy away from the passenger compartment.

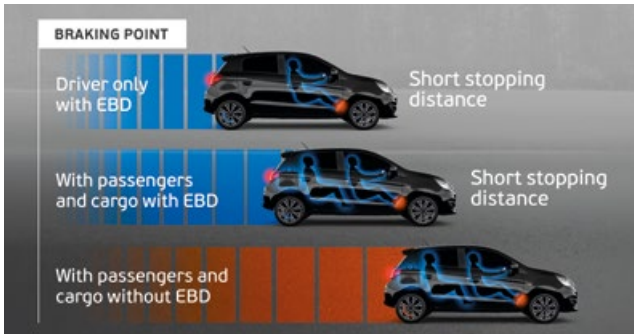

Anti-lock Braking System (ABS)

Mirage Hatch is equipped with an Anti-lock Braking System (ABS) which allows the driver to maintain steering control of the vehicle and manoeuvre around obstructions in heavy braking conditions.

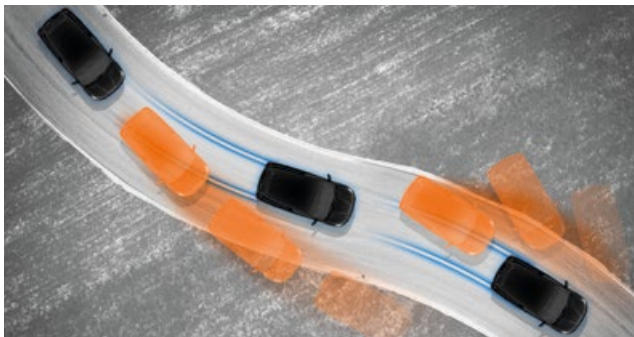

Hill Start Assist (HSA)

Hill Start Assist (HSA) prevents the car from rolling backwards on hills by maintaining the braking force to give you time to move your foot from the brake to the accelerator.

Electronic Brakeforce Distribution (EBD)

Electronic Brakeforce Distribution (EBD) works hand-in-hand with the ABS computer to assess load and distribute braking force between the front and rear wheels. When you have a load in the rear, it helps you stop in a shorter distance.

Active Stability Control (ASC)

Active Stability Control (ASC) intuitively recognises when you over-steer or under-steer and applies brake force to appropriate wheels to keep you online through corners.

TOP CLASS PERFORMANCE ON THE ROAD.

Coupled with the Mirage's aerodynamic lines, the 1.2 litre MIVEC petrol engine delivers outstanding fuel economy of 4.7L/100km*, without any loss of performance. The ample torque from 57kW of power and its light bodyweight, ensures Mirage Hatch accelerates effortlessly from standstill or when overtaking.

The ride in Mirage Hatch is smooth and comfortable. The car's improved stability and handling means you'll feel even more in control, and getting in and out of tight spots and city parking is a breeze with Mirage Hatch's tiny 4.6 metre turning radius.

 **4.7L/100km***
