# FIGHTER BY NAME

Fuso Fighter is no exception. Our medium duty truck is renowned for its versatility, durability and reliability. The Fighter's strength comes from its advanced safety features, superior driver comfort and gutsy 6-cylinder engine. Available in three model types and two engine types, the Fighter has a wide range of applications to tackle any challenge.

**FUSO**

**JOB DONE**

# CHOOSE YOUR FIGHTER

No matter how tough the job, there's a team of Fighters to step into the ring. The range includes the FK, FM and FN models with a mixture of 4x2, 6x2 and 6x4 layouts; various wheelbase options and GVM variations of 10.4 tonnes and up to 24 tonnes (dependent on model type). There's also the choice of two manual and two automatic transmission types. With a wide range of options available to suit truckloads of applications, you'll find a Fighter for your business.

# SAFE TRAVELS

The Fighter takes safety seriously. That's why it's S badge certified. This means every Euro 6 model is equipped with advanced safety features like Active Emergency Braking System (AEBS), Lane Departure Warning System (LDWS) and Electronic Stability Program (ESP). Also as standard is Side Guard Assist,\* which warns drivers of any cars, objects, cyclists or pedestrians in their blind spot.

Fighter safety features:

- Anti-lock Brake System (ABS)
- Driver Side Airbags
- EZGO Hill Start Assist
- Electronic Stability Program (ESP)
- Active Mitigation Brake Plus (AMB Plus)
- Lane Departure Warning System (LDWS)
- AEBS (Active Emergency Braking System)
- Attention Assist
- Reverse Camera (with the option of 4 additional cameras)
- Active Sideguard Assist\*

\*Not available in FN models with Steel Suspension

## SAFETY AS STANDARD

The S badge is a guarantee that your Fuso comes with safety, built in. At a minimum, vehicles with this badge come with LDWS, AEBS and ESP, at no extra cost.

# COMFORT IS KING

Driving the Fighter is like driving business class. The interior has comfort top of mind with an improved cabin layout design to enhance the driver experience. In addition, all Euro 6 models come with a new multifunction steering wheel, stalk switches, central digital information screen, centre control layout, and an air suspended driver's seat. These updates work together to ensure drivers finish the day feeling fighting fit.

# PACKS A PUNCH

It's not the size of the truck in the fight, it's the size of the fight in the truck. All Euro 6 models have an impressive upgraded 7.5 Litre 6M60 six-cylinder engine, available with 240hp and 745Nm or 270hp and 784Nm variations. The 240hp engine now achieves maximum torque between 950rpm and 2270rpm. This lowers fuel consumption, reduces costs and increases profit. The Euro 6 standard emission engine reduces the cost to the environment too, with a series of upgrades in technology and aftercare treatment.

Additional Fighter Euro 6 engine features include:

- Exhaust Brake System
- Cruise Control System
- 6-speed Manual Transmission, 9-speed Manual Transmission and 5-speed/6-speed Allison Automatic Transmissions
- BlueTec After-Gas Treatment System
- Exhaust Gas Recirculation System (EGR)
