

THE NEW MINI CONVERTIBLE.

DO THINGS DIFFERENTLY. AGAIN.

How do you go about inventing an icon like the MINI? According to its designer, Sir Alec Issigonis, you simply do things differently to everybody else. We've been doing things differently for generations and the MINI range just goes to show that while you can't go past an original, you can keep the essence of a good thing and make it even better.

When you take a huge step forward it offers a great view of the past, and it's a past we're proud of thanks to John Cooper who

revolutionised racing in the 1950s. His tireless commitment to racing led to such milestones as a legendary MINI Bathurst victory in 1966 and three Monte Carlo Rally wins to name but a few.

Reinventing an icon like MINI is no easy task. You have to create a vehicle that exceeds the demands of twenty-first century driving, while remaining true to the original. Of course, you'll find some things never go out of fashion, like the MINI DNA – low centre of gravity, short wheelbase and legendary go-kart handling,

eye-catching lines and a distinctive profile, all finished off with a touch of chrome.

The latest generation of MINIs are as unmistakably modern as the originals. From the classic Hatch and convention-defying Countryman SUV, right through to the versatile Clubman and open top Convertible, every member of the MINI family is ready to take on any adventure.

STAY OPEN.

Always open-minded, the MINI Convertible is packed with pure unfiltered energy. The very essence of roof-down driving, it stimulates your senses with moments of sheer joy and open-road thrills. Feel more alive with unlimited headroom and breathe in the clean air of sophistication. Built to make those good times even better.
