ENJOY THE BEST OF BOTH WORLDS

Introducing the MG HS Plus EV. MG Motor's spacious, family-friendly SUV now offers the best of both worlds, designed for those who want the advantages of electric driving with the practicality of a combustion engine.

Powered by a combination of a 1.5-litre turbocharged petrol engine, a permanent-magnet synchronous motor and a liquid-cooled lithium-ion battery, the HS Plus EV also the most powerful MG ever, producing 189kW and 370Nm.

Whether it's tackling the midweek commute, running errands around town or navigating the school run, enjoy silent, powerful and emissions-free performance with a pure electric driving range of up to 63km from a single charge*.

Charging can be done easily overnight, via a home 7kW fixed wall charger, taking approximately 5 hours[^] to fully charge via a Type 2 charging port conveniently located on the side of the car.

MORE POWER WITH LESS CONSUMPTION

Exceptional fuel economy, vastly reduced CO2 emissions and impressive acceleration is all part of the HS Plus EV experience.

MG's most powerful SUV delivers rapid acceleration, reaching 0-100km/h in just 6.9 seconds.

Proving that power and economy aren't mutually exclusive, the MG HS Plus EV returns an impressive 1.7L/100km fuel consumption figure (combined)[~] and combined CO2 emissions of just 39 grams per kilometre.[~]

Engage EV mode with the press of a button at any speed, and you'll not only save money at the bowser, but your emissions fall to zero.
