Renault TRAFIC

Overseas model shown

A TRAFIC for every profession

Instantly distinguishing Renault TRAFIC is a more expressive front-end design, with full-LED headlights incorporated into the C-shaped lighting signature that represents the identity of the Renault range.

A bolder grille, with details such as a new surround for the Renault logo and chrome finishing strip, plus a new 'Urban Grey' colour complete the revised styling.

Your everyday activity is unique. Renault TRAFIC has been reinvented in order to meet your specific needs. In its various versions, from the Panel Van to the Crew Van, you will find the one which will help you achieve the best performance.

In addition to its remarkable loading capacities, it now has an updated design, a more powerful 2.0L engine and an automatic gearbox which makes for an even smoother driving experience.
