why Impreza?

Symmetrical force of power

Our All-Wheel Drive philosophy

Greater balance and control. That's the confidence you get from our unique Symmetrical All-Wheel Drive (AWD) system, which delivers the drive distribution to all four wheels, all the time. Every Subaru Impreza has an innate sense of balance from the ground up, thanks to a near perfect symmetrical layout.

Boxing clever

Our famous Subaru Boxer engine

While most engines stand vertically, ours lay flat. The famous Subaru Boxer engine helps to deliver better handling. Sitting horizontally in the engine bay, it moves like a boxer's fists with a punch and counterpunch action. Lightweight, low and flat, it makes for perfect balance and a much lower centre of gravity. It creates less noise and vibration too. All of this means better on-road handling for you. More stability. More performance. More fun. And a more confident drive.

Finest safety

5 star ANCAP¹ safety across the Impreza range

With spirit, quality and imagination comes some serious safety innovation. We want every Subaru Impreza to be amongst the safest cars on the road. Engineered full of cutting-edge technologies and the most intelligent design features. The Subaru Impreza carries the maximum 5 star ANCAP safety rating.

The backbone of the future

Subaru Global Platform

Built on the new Subaru Global Platform (SGP), Impreza is a new-generation small car which sets the benchmark.

Revolutionary Subaru engineering underpins the superior modular platform for enhanced performance, safety and drivability. Innovative to the core, the game changing frame delivers reduced vibration, less roll when cornering, a smoother ride and improved overall road dynamics.

The result? A drive that's damn near perfect and super smooth – with greater straight line stability, improved rigidity, more responsive steering control and a quieter cabin.

Eyes in the back of your head

Rear view reverse camera

Manoeuvring back into a tight side street? Family driveway littered with toys? Reverse with confidence, thanks to our rear view reverse camera technology. The rear view reverse camera is like having eyes in the back of your head. This greatly improves your visibility and reduces the risk of bumps and scrapes. The rear view reverse camera comes standard across the Impreza range.

1. The Australasian New Car Assessment Program (ANCAP) gives consumers consistent information on the level of occupant protection provided by vehicles in serious front and side crashes.

Efficiency without compromise

Auto Stop Start

We're constantly thinking of ways to help the environment and become more fuel-efficient. That's why we developed Auto Stop Start technology. It saves fuel by immediately cutting the engine when you don't need it, like when you're idling or stopped in heavy traffic. The moment you're ready to move again, the engine restarts in a fraction of a second. Our Auto Stop Start technology is standard across the Impreza range.

Yet another world first

Lineartronic® CVT

Pushing innovation beyond the bounds, we introduced an automatic transmission called Lineartronic® Continuously Variable Transmission (CVT). And it's the reason our automatic models drive so smooth. It's the world's first longitudinally mounted system for AWD vehicles. Unlike a conventional automatic transmission – which uses fixed gear ratios – our Lineartronic® CVT provides infinite variability between the highest and lowest available ratios.

So you now experience a smoothness that also optimises the efficiency of the vehicle. For even more excitement, switch to manual mode for greater control to suit your driving style. Lineartronic® CVT is standard across the Impreza range.

We're looking out for you

EyeSight® Driver Assist

We were the first car company to exclusively use stereo camera technology to detect objects in our vehicles path. A sign of our future-thinking and our commitment to quality, technology and safety, EyeSight® Driver Assist is like your second pair of eyes, spotting potentially dangerous situations. If EyeSight® detects anything that might be of danger, it warns you audibly, urging you to take action and brake. EyeSight® Driver Assist is standard on Impreza 2.0i-L AWD, 2.0i Premium AWD and 2.0i-S AWD variants.

Clever thinking

Subaru's Vision Assist

Subaru's Vision Assist is advanced technology that gives you greater awareness of the world around you. Subaru's Vision Assist Blind Spot Monitoring features rear and side sensors that let you know when there's something in a blind spot to make lane changes safer. The Rear Cross Traffic Alert can warn you that another car is approaching when reversing out of a car space. Cutting-edge technology to help keep your family safe. Subaru's Vision Assist technologies are standard on the Subaru Impreza 2.0i Premium AWD and 2.0i-S AWD.

feel amazing inside

One of the features to love about a Subaru Impreza is the interior.

The quality of the finish is impressive to say the least. And it's packed with technologies to make every moment you spend behind the wheel a whole lot of fun.

Infotainment lets you enjoy more of the good stuff via the 6.5" or 8" LCD touchscreen, with Apple CarPlay® and Android Auto™ connectivity¹ at your fingertips. The smarts continue with satellite navigation on 2.0i Premium AWD and 2.0i-S AWD variants.
