

 SUZUKI

Jimny

***THE LIGHTWEIGHT 4X4 THAT TAKES YOU
PLACES OTHERS CAN'T***

NOBODY BUT JIMNY

It's the original, rugged 4x4. Beginning with the LJ10A in 1970, the Jimny has forged a legendary reputation for being tougher than the terrain it travels. Lightweight but seriously capable, the Jimny takes you places others can't.

LOOKS BORN OF A LEGEND

The Jimny grabs attention with rugged and retro looks that take cues from its iconic past. Modern and boldly functional, it's been shaped by a strong desire to explore.

READY TO CONQUER THE WILD

Built to tackle the harshest weather and terrain, the Jimny goes where other vehicles fear to tread. Take on nature's challenges, unleash your spirit of adventure and get ready to explore.

EXTERIOR

OPTIMISED BUMPERS

All is clear for adventure. The Jimny is equipped with angled bumper edges that increase clearance at the wheels for comfortable traversing of obstacles. The moulded black material safeguards the body from stone chips and scratches.

LED HEADLAMPS WITH WASHERS

Take pride in the Jimny's heritage, symbolised by its iconic round headlamps, available on Jimny and Jimny XL. Washers are standard for LED headlamps, allowing confident driving in mud, dirt and snow.

PRACTICAL DRIP RAIL

Let the Jimny take you on your all-weather adventures. The drip rail keeps your head dry when entering and exiting by preventing water from dripping off the roof.

BONNET CORNERS

Stay on top of your surroundings, thanks to a bonnet that's carefully crafted to keep front corners in view for better situational awareness when navigating uneven terrain.

FOCUS ON WHAT MATTERS

With the Jimny, there's little to distract you from adventure. Its stylish black interior is humble, yet handsome, and its controls are designed for quick, easy operation. A seven inch multimedia unit integrates reversing camera, Apple CarPlay® and Android Auto™ so that you can enjoy every moment behind the wheel.

INTERIOR

Relish the sheer pleasure of simple, straightforward and sensible design. Colours are minimal. Every detail is thoughtfully and attractively crafted to support serious off-roading.

Jimny Lite CD player and radio

Jimny 7 inch display

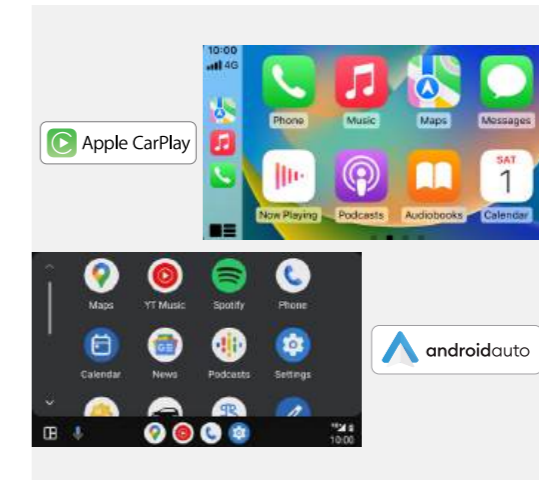

Jimny XL 9 inch display

INFOTAINMENT SYSTEM WITH SMARTPHONE CONNECTIVITY

Jimny's seven inch and Jimny XL's nine inch touchscreen displays enable an intuitive operation of features including audio, hands-free phone and reverse camera display.

With seamless connection to your smartphone, Apple CarPlay® and Android Auto™ put your favourite apps at your fingertips. And allow you to make phone calls, access music, send and receive messages, and get directions all by voice command or a tap on the audio display. Use Apple Maps, Google Maps™, Google™ Search and other services conveniently, in a non-distracting way.

Apple CarPlay is available in the countries listed at the following link: <https://www.apple.com/ios/feature-availability/#applecarplay-applecarplay> For more details including iPhone models compatible with Apple CarPlay, see: <https://www.apple.com/ios/carplay/> Apple, Apple CarPlay and iPhone are trademarks of Apple Inc., registered in the US, and other countries. Android Auto is available in the countries listed at the following link: <https://www.android.com/auto/#hit-the-road> Android Auto connectivity requires the Android Auto app available on Google Play and an Android compatible smartphone running Android™ 5.0 Lollipop or higher. <https://support.google.com/androidauto/#6140477> Android and Android Auto are trademarks of Google LLC.

STEERING WHEEL INTEGRATED SWITCHES

Cruise control and audio control switches are integrated into the steering wheel, and on models equipped with a display audio system, there are additional switches for hands-free calling.

EVERYTHING WITHIN REACH

Convenient pockets and trays keep your smartphone, beverages and other personal items close at hand. Nearby USB and accessory pockets also connect and power your mobile devices. Switches in the front console box allow the driver to control the rear seat power windows.

Note: personal items in the photos are shown for illustrative purposes only. Items should be properly secured while driving.

INTERIOR CONFIGURATION

DEPENDABLE, ROBUST AND AUTHENTIC

Whether navigating the urban jungle or exploring off the beaten track, the Jimny offers ample space and practical storage features to accommodate every need.

SEATING FOR FOUR

Jimny offers comfortable seating for four adults across the range. So next road-trip, everyone's invited.

EXTRA LEG ROOM

With Jimny XL, passengers can enjoy extra leg room and electric rear windows so everyone on board can explore the wilderness in comfort.

ELEVATED SEATING

With an elevated seating position, Jimny allows you to take in your surroundings when driving through tight obstacles.

PRACTICAL CABIN

The Jimny cabin takes practicality to the next level with the space you and your passengers need to enjoy every off-road adventure.

EQUIPPED FOR ADVENTURE

With a spacious interior design, Jimny is ready for your next road trip. And with Jimny's comfortable cushioned seating, you won't want the road trip to end.

NO LIMITS

It will take you anywhere, then bring you back again. The Jimny opens up every opportunity for adventure with the incredible 4x4 traction and powerful low-range capability of ALLGRIP PRO.

PACK FOR ADVENTURE

With its highly practical cabin design and comfortable seating, Jimny provides the space you and your passengers need to enjoy every off-road adventure.

Note: Items are loosely placed in the rear storage area for illustrative purposes only and should be properly secured while driving. Jimny XL variant shown.

PRACTICAL IN EVERY DIMENSION

The Jimny range offers ample storage for any adventure. Luggage spaces of both variants can be expanded by folding the rear seats, with the Jimny's rear seats able to fold completely flat. Screw holes provide support for optional accessories like luggage bars and utility hooks to enhance versatility and practicality.

WIDE AND TALL BACK DOOR OPENING

The large back door opening makes it easy to stow gear in the roomy luggage area, and the low height of the door sill reduced strain when loading and unloading heavy items.

Not available on Jimny Lite

SIDE-MOUNTED LAMP AND ACCESSORIES POCKET

The side-mounted luggage area lamp on Jimny provides illumination where it's needed most, and a convenient socket delivers 12V for accessories at your campsite.

LUGGAGE CAPACITY

OFF-ROAD PERFORMANCE

Jimny variant shown

AMPLE BODY ANGLES AND CLEARANCE

Push outdoor exploration to the limit with an ample departure angle, ramp breakover angle, approach angle and ground clearance that lets you handle steep slopes, sharp descents and obstacles without scraping the bumpers or underbody of the Jimny.

RIGID LADDER FRAME

From the very first generation, the Jimny has always featured a ladder frame that offers a solid foundation for serious off-road performance.

3-LINK RIGID AXLE SUSPENSION WITH COIL SPRING

Settle for nothing less than full-width rigid axles in both the front and rear, which help the Jimny ensure superior grip on diverse surfaces. When an obstacle pushes one wheel up, the axle presses the other wheel down to increase tyre contact in rough road conditions.

4WD WITH LOW RANGE TRANSFER GEAR

At your command, the Jimny adapts to every situation. Shift the transfer lever to the 4L mode when the going gets tough for maximum torque and traction. On flat off-road trails and snow-covered roads, enter 4H to enjoy 4WD traction at higher speeds. Once you return to paved roads, shift to the 2H (2WD) mode for a smoother, quieter and more fuel efficient ride. Let ALLGRIP PRO satisfy your adventurous nature with its on and off-road mastery.

ALLGRIP
PRO

POWER YOUR OFF-ROAD AMBITIONS

Nothing stands in your way when driving the Jimny. It takes you wherever you want to go with unrivalled agility, precision control and powerful torque when you need it most.

PERFORMANCE

1.5L ENGINE

Feel empowered by the Jimny. Its robust 1.5L engine generates strong torque throughout a wide rpm range for powerful off-road performance. Small and lightweight, it also delivers high fuel efficiency. (Automatic transmission not available with Jimny Lite variant).

HILL HOLD CONTROL

Move upward and onward when starting on steep slopes. Even on bumpy slopes that vary on the right and left sides, this feature helps prevent rearward rolling so you can focus on controlling acceleration.

HILL DESCENT CONTROL

On tricky descents, with a push of a button, the system is designed to automatically apply the brakes and maintain a fixed speed — so you can concentrate on steering without using the brake pedal or clutch.

Without brake LSD

With brake LSD

BRAKE LSD TRACTION CONTROL

Cover slippery ground with confidence. If two wheels diagonal from each other lose grip while you're travelling over slippery surfaces, this feature will automatically brake the slipping wheels and redistribute torque to the other two wheels, allowing the Jimny to make its escape.

ALWAYS ON GUARD

In town and in the country, you'll enjoy peace of mind knowing that you, your passengers and your vehicle are protected by a full range of safety features.

SAFETY

SRS AIRBAGS FOR COLLISION SAFETY

Jimny is equipped with a full complement* of SRS airbags, including front and side airbags for the driver and front passenger, and side curtain airbags for occupants of both the front and rear seats.

*Illustration of inflated airbags is approximate.

REAR PARKING SENSORS

Ultrasonic sensors in the rear bumper detect obstacles when reversing, and audible warning beeps sound with increasing frequency as you approach.

INJURY MITIGATION BODY FOR PEDESTRIAN SAFETY

For added peace of mind, Jimny's front bumper, fenders, bonnet and other front-end components are designed to absorb impact and help mitigate pedestrian head and leg injuries in the event of a collision.

1. Impact-absorbing wipers
2. Impact-absorbing cowl top
3. Impact-absorbing bonnet hinges
4. Impact-absorbing fenders
5. Impact-absorbing bonnet
6. Impact-absorbing front bumper

ELECTRONIC STABILITY PROGRAM (ESP)

ESP* technology helps you control the vehicle during cornering, and assists you in maintaining traction when accelerating on loose or slippery road surfaces.

If wheel slip is detected, the ESP system automatically regulates engine torque and selectively applies the brakes to help you maintain control.

Note: There is a limit to the ability of the monocular camera and laser sensor to detect obstacles and lanes, and control the vehicle. Please do not rely on the system; always drive safely. *AEB is designed to support the driver only in emergency situations. The driver remains responsible for the vehicle at all times.
