a suite of advanced driver assistance systems

Renault Master is equipped with innovative advanced driver assistance systems.

smart rear-view mirror*
Using a rear-mounted camera, it provides excellent medium and long-distance vision of the surroundings via an in-cab digital display.

active emergency braking system*
This system detects vehicles to the side or in front, and stops the vehicle in the event of any danger.

high-beam assist
Automatically dips the high beams when there is an oncoming vehicle. Once the vehicle has safely passed, the high beams will be reactivated automatically.

blind spot warning
Safely change lanes with the help of the blind spot warning system.

hill start assist
Combined with ESC, hill start assist maintains brake pressure automatically for 2 seconds to give you time to lift your foot from the brake pedal and press the accelerator. The system activates when the slope exceeds 3%.

lane departure warning
The system warns the driver if the vehicle is drifting into another lane unintentionally

driver assistance systems

- hill start assist
- high-beam assist
- smart rear-view mirror*

park assist systems

- rear parking sensors and camera

safety assistance

- lane departure warning
- blind spot warning
- electronic stability control (ESC)
