Golf.

Let's drive.

Rarely does a vehicle offer so much in one complete package. With its heritage rooted in over 40 years of motoring excellence, the Volkswagen Golf has been enhanced in every way and sets new standards in stylish design and performance. The Golf has optimum levels of comfort, innovation and downright driver appeal.

At the heart of each Golf variant is a powerful and reliable 110kW engine that provides compelling performance, whatever the drive, while BlueMotion technologies offer greater fuel efficiency.

The Golf's striking appearance is every bit a match for its potent drivetrain and assured roadholding abilities. This is a vehicle whose every curve has been carefully considered and which looks set to tackle any challenge laid before it.

Attention to detail is a hallmark both outside and inside, where high-quality materials make every touchpoint, from steering wheel to switchgear, a pleasure to use. Instrument trims and decorative inlays add to the cabin's visual appeal, while ergonomic seats and driver-oriented surrounds add to the sensation that driver and car act as one.

Advanced intuitive technology takes the form of Gesture Control¹, an interactive feature that allows drivers to navigate through on-screen menus with a simple mid-air swipe of the hand, and impressive Media Control², which gives passengers the ability to select music and more via their smartphone or tablet.

With its evolutionary styling, impressive level of driver safety equipment as standard, and exceptional performance and comfort, the Golf once again sets the benchmark high.

Media Control shown

1. Gesture Control available with optional Sound and Vision Package on Golf Comfortline and Highline variants only.
2. Media Control is available on Golf Comfortline and Highline variants only.

Exterior

The Golf's shape is recognised the world over for its sleek, precise lines and understated confidence. This latest Golf marks the next step in the evolution of the model, whose reputation is founded on perfect proportions, clean lines and unmistakably European styling. When viewed in profile, the eye is immediately drawn to the Golf's long wheelbase and distinctive horizontal lines that connect the front wheel arch with the rear of the car. The long bonnet and roof, sharply angled rear windscreen and wide C-pillars are all signature Golf features, as is the black radiator grille with chrome inserts.

LED daytime driving lights and LED tail lights are standard features across the range (LED headlights are available in the Highline variant) and add to the Golf's considerable on-road presence.

The rear offers a resolutely modern interpretation of a design classic. The tailgate features an integrated rear spoiler, while a black rear diffuser below the bumper adds a further point of interest on the car that looks effortlessly cool from every angle.

Setting this Golf apart from its forebears is a wider selection of eye-catching alloy wheels, including 17" Karlskoga alloys and 18" Sebring alloys on the Highline and Highline R-Line variants respectively.

For drivers wanting to make the ultimate statement, the optional R-Line package (Highline variant only) is a must-have. Potent styling additions set the Golf R-Line apart from every other car on the road and offers a bold declaration of the vehicle's sporty underpinnings.

- 03 Karlskoga (Highline)
- 04 Sebring (Optional R-Line – Highline)

Interior

The Golf's interior presents a balanced combination of comfort, style and ergonomics. Volkswagen's commitment to driver enjoyment is readily apparent in the Golf's dashboard, which is every bit as impressive as it is functional, while the choice of Black or Pure Grey Vienna leather appointed upholstery# in Highline variants offers owners even more opportunity to personalise their vehicle.

The first hint of the technology contained in the Golf is the striking high-definition Active Info Display¹, which forms part of the optional Sound and Vision Package in Comfortline and Highline variants.

Also included is Volkswagen's Discover 9.2" infotainment system complete with smartphone glass appearance. Gesture Control¹ allows the driver to navigate through various menus with a simple mid-air swipe of the hand, while passengers can use the Golf's Media Control² technology to select music and more via their smartphone or tablet. And every journey is an adventure with the Dynaudio Excite 400w premium audio system, which produces a crystal clear aural soundscape.

The Golf Comfortline and Highline also both feature Air Care dual-zone climate control air conditioning with air cleaning function and allergen filter to help keep the cabin air clean and the temperature exactly to your specification.

The driving experience can be further personalised with the choice of Volkswagen's optional Driver Assistance Package (Available for Trendline and Comfortline variant and standard for Highline), which not only offers drivers a suite of aids to make their journey more enjoyable, but allows them to customise the vehicle's settings exactly to their taste.

And because this is a Golf, you're assured of outstanding luggage space. The Golf hatch holds a generous 380 litres, while the Golf Wagon offers an impressive 605 litres with the seats up and 1620 litres with the back seats down.

- 02 Boot Space in a Golf Wagon
- 03 Boot Space in a Golf

#Leather appointed seats have a combination of genuine and artificial leather, but are not wholly leather.

1. Active Info Display and Gesture Control are available with optional Sound and Vision Package on Golf Comfortline and Highline variants only. 2. Media Control is available on Golf Comfortline and Highline variants only.

Technology and Safety

Class-leading technology helps make the Golf an efficient and satisfying drive. But it also offers peace of mind by making the vehicle exceedingly safe.

Drivers can take comfort knowing that an assortment of advanced safety technology is there for them when they need it most. Standard across the Golf range is Front Assist with City Emergency Brake (City EB) and Pedestrian Monitoring*, which uses a radar sensor to detect when the distance to the vehicle in front is critical and helps to avoid or mitigate a potential impact.

Another safety feature is Manoeuvre Braking*, front and rear; assisting the driver to avoid or reduce damage in a potential low speed impact by initiating emergency braking.

Other optional safety features include Lane Assist*, a lane departure warning system designed to reduce the likelihood of the vehicle straying from its intended course, and Volkswagen's Proactive Occupant Protection System. This clever feature detects when an emergency manoeuvre is being made and prepares the vehicle and its occupant restraint systems in advance of a possible collision. Both are included in the optional Driver Assistance Package.

Safety is paramount, but in-cabin technology goes a long way to making every trip a pleasurable one. Rear View Camera* makes parking a breeze, while the intuitive 8-inch infotainment system with App-Connect~ puts a world of information and entertainment at your fingertips. Volkswagen's class-leading technology is no more evident than in its Active Info Display (part of the optional Sound and Vision Package), a ground breaking addition to the Golf that will forever change how driver and car interact.

Optional Packages Available

Few vehicles can claim to offer as extensive a range of driver comforts as the Golf, even in standard trim. But adding an optional package takes the Golf to the next level.

The Driver Assistance package (standard in Highline) significantly enhances the driving experience with its suite of advanced features designed to improve safety and assist with day-to-day driving. You'll be more relaxed and comfortable on long journeys with Adaptive Cruise Control (ACC)* technology, which keeps the Golf an optimal distance from the vehicle in front. Park Assist* uses sensors front and rear to identify spaces and guide drivers into and out of them semi autonomously, while Blind Spot Monitor with Rear Traffic Alert* not only detects vehicles in blind spots to the left and right but can detect oncoming traffic when reversing into tricky traffic. Light Assist (Highline models only) provides enhanced comfort and safety on the road by means of automatic high beam control. Plus Traffic Jam Assist*, Emergency Assist* and Lane Assist with Adaptive Lane Guidance* available in DSG equipped models only.

The ability to personalise the driving experience is another unique feature of the package. Simply set your preferred driver seat configuration (Highline variant only), air conditioning, radio station and more and the Golf will respond to your settings every time you take the wheel.

The Sound and Vision Package (Comfortline variant and above) puts a state-of-the-art infotainment system at your fingertips in the form of a high-res Active Info Display¹ instrument cluster and a 9.2" satellite navigation display offering Gesture Control¹ and Voice Control¹. You can also enjoy music as it was meant to be heard courtesy of an exquisite Dynaudio Excite 400w premium audio system.

Select the optional R-Line package on the Highline grade and the Golf receives a thorough sports styling transformation inside and out, complete with R-Line body styling, exclusive R-Line badging, 18-inch Sebring alloy wheels, progressive steering, sports suspension and tinted rear and rear side windows.

Colours & Upholstery

The Golf's broad colour palette complements the stylish interior trim, making configuration a simple pleasure. Customise the bodywork of your Golf by choosing from a range of paint finishes including alluring metallic options such as the Turmeric Yellow Metallic.

Every journey is more relaxing in supportive seats with quality Black Cloth as standard, while high-grade Black or Pure Grey Vienna leather appointed upholstery[#] is a luxurious addition to the 110TSI Highline variants.

Overseas models are shown for illustrative purposes only. Optional accessories at extra cost. Please note that the above accessories may have an effect on fuel efficiency. Items such as sports equipment and tablets are shown for illustration purposes only and are not available for purchase from Volkswagen Group Australia or its Dealers. For a full range of Volkswagen Genuine Accessories, please refer to the accessories tab at www.volkswagen.com.au or visit an authorised Volkswagen Dealer.

Volkswagen Choice

Naturally we understand that your Volkswagen represents a valuable investment, so we understand that you want to maintain it in premium condition. Volkswagen Choice[^] is a finance program tailored to the requirements of Volkswagen owners by providing assurance around your Volkswagen's future value[^], whilst offering simple monthly instalment financing options.

Whether you are selecting your new Volkswagen for business or personal use, you can choose the contract term that best suits your requirements. Enjoy the confidence that comes from having locked in a minimum value up front to be attributed to your vehicle at the end of your contract[^]. There are also no account keeping fees with a fixed interest rate.

Trade in

If you wish to trade-in your Volkswagen for a new vehicle, all you need to do is return it to the dealership. If the trade-in value is higher than the Guaranteed Future Value[^], you can use this equity towards your new vehicle purchase.

Retain

If you prefer to retain your Volkswagen, simply let us know. Provided that you also meet the relevant payment obligations under your contract, you can purchase your vehicle outright for the Guaranteed Future Value price locked in at the start of the contract[^]. Then your Volkswagen is yours to keep. Or you can choose to refinance your balloon at the end of the term.

Return

All you need to do is hand your car back and, if the vehicle meets the agreed kilometre and fair wear and tear requirements[^], you will have no more to pay.

[^]The Volkswagen Choice Program consists of an option to return the vehicle to Volkswagen Financial Services (VFS)** at the end of the term and require VFS** to purchase the vehicle at an agreed price known as the Guaranteed Future Value or GFV as determined by VFS** and set out in your contract. At the end of the term, you can elect to: (1) trade-in the vehicle; (2) exercise the option to return the vehicle; or (3) retain the vehicle by paying the GFV. The GFV is not a representation by VFS** as to the likely market value of the vehicle as at the end of your contract. The option is available on new and demonstrator Volkswagen vehicles for selected models only. Please verify with your dealership the vehicles that are eligible for the program. The GFV will be reduced, and you will be liable for any loan contract deficit, if you exceed the nominated kilometre allowance and/or the vehicle is not in an acceptable condition in accordance with the Fair Wear and Tear Guide available at www.volkswagen.com.au. Other terms and conditions apply. The cost of the Volkswagen Choice Program is incorporated into the applicable interest rate. Please read the full terms and conditions. Please consider whether these products and services are appropriate for your circumstances. Before acting on any of the information on this page, please seek independent financial and tax advice. Full terms and conditions are available upon application. Available only to approved applicants of VFS**. Subject to credit assessment. Standard fees and charges apply. Fleet, government, rental buyers, hire car and chauffeur companies are excluded. Available at participating Volkswagen dealers. **VFS is a trading name of Volkswagen Financial Services Australia Pty Limited ABN 20 097 071 460. Australian Credit Licence 389344.
