Patrol Defy Ordinary

THE NISSAN PATROL

The iconic Nissan Patrol has always been the pinnacle of versatility, bringing with it the right balance off-road capability and sophistication. The Nissan Patrol brings its rugged reputation and a refinement that focuses on the details. Make no mistake; the Nissan Patrol V8 is the most powerful 4x4 in its class^o. Stylish additions like 18" wheels, a sophisticated grille and LED front and rear lamps, makes this 4x4 feel as comfortable in the driveway as it does on the mountain. With innovative safety features and Nissan Intelligent Mobility technologies, the Nissan Patrol also brings capability to a new and luxurious level.

* Cover page: Up to 10 years or 300,000km (whichever occurs first), when servicing at authorised Nissan dealers. Full terms at [Nissan.com.au/warranty](https://www.nissan.com.au/warranty).

^o Class refers to Upper Large SUV <\$120k VFACTS Market Segmentation.

Ti-L model shown in Brilliant Silver

NISSAN INTELLIGENT DRIVING OFF-ROAD CAPABILITY

The Nissan Patrol brings with it the technology, design and forethought needed to tackle almost any terrain. For instance, the Intelligent 4X4 technology allows the driver to switch between a range of different modes including sand, on-road, rock and snow with the push of a button. Hill Start Assist and Hill Descent Control systems give the driver the utmost confidence to take the road less travelled. When the road gets that much tougher, the driver can engage the electronic rear differential lock with the push of a button. When it comes to the Nissan Patrol, capability is everything.

4H
Stay on track despite the best efforts of slippery surfaces.

4L
Soft surfaces, mud, steep inclines, the Patrol can do it all.

HILL DESCENT CONTROL
Ensure you command the downhill rather than the other way around with the advanced Hill Descent Control and do it all with the simple push of a button.

REAR DIFFERENTIAL LOCK
The electronic rear diff lock allows you to gain traction in tough conditions with the simple push of a button.

SAND
Tackle sandy conditions with ease and confidence.

SNOW
Snow is no match for the Patrol.

ON ROAD
Get the most out of your on road experience.

ROCK
Adjust throttle characteristics to crawl over rocks with ease.

HYDRAULIC BODY MOTION CONTROL

The Hydraulic Body Motion Control (HBMC) suspension system has been implemented to ensure remarkably low body roll when powering through corners and provides better traction through rough terrain. HBMC plays both the role of shock absorbers and stabiliser bars, allowing for full wheel travel, meaning your wheels will stay firmly on the ground when you're off the beaten track. The HBMC system provides this balance and superior cornering by monitoring force and then distributing pressure to either the outer or inner double wishbone suspension system. This HBMC system delivers a smoother ride, safer cornering and overall enhanced stability.

POWER AND PERFORMANCE

With power comes performance. That's exactly what the Nissan 5.6L V8 Direct Injection engine delivers, sporting an impressive 298kW of power and 560Nm of torque. At ease off the beaten track, the Nissan Patrol also features electronic rear diff lock, Hill Descent Control, Hill Start Assist. While 3,500kg* of braked towing capacity and seven-speed automatic transmission ensures you're equipped to go anywhere.

*Towing capacity is subject to towbar/towball capacity and is based on the fitment of a Genuine Nissan towbar. Towing capacity figure described is a maximum figure. Actual towing capacity depends on the laden mass of the vehicle, driving conditions, fitment of any accessories or towing equipment limitations including the maximum towball download.

Ti-L model shown in Brilliant Silver

LOOK OUT BELOW

In Reverse, the display helps you see what's directly behind you, while the overhead view helps with smaller objects that might be hidden below your window.

COMPLETE THE PICTURE

Located under your driver's side mirror, this camera helps round-out your virtual 360° bird's eye view, whether you're in Drive or Reverse.

SPARE YOUR WHEELS

In Drive or Reverse, you can push the camera button to switch-out the overhead for a side view. A great help for seeing how close you are to the kerb.

DON'T BUMP YOUR NOSE

In Drive, the display gives you both a front and overhead view, so you know just how far to pull up - without going too far.

INTELLIGENT AROUND VIEW® MONITOR 360 WAYS TO MAKE PARKING EASIER THAN EVER

The Intelligent Around View® Monitor¹ uses four cameras to give you a virtual composite 360° bird's-eye view of your vehicle, with selectable split-screen close ups of the front, rear, and kerbside views, so you can get a better look. Moving Object Detection² can detect moving objects near the vehicle, and can give you a visual and audible alert.

¹Driver's aid only and should not be used as a substitute for safe driving practices. Always monitor your surroundings when driving.

²May not provide braking or pedestrian detection in certain conditions. See Nissan.com.au for full details on system parameters

INTELLIGENT EMERGENCY BRAKING

Using radar technology to monitor the velocity and distance of up to two vehicles ahead, Intelligent Forward Collision Warning can give you audible and visual display warnings to help you know when to reduce your speed. If required, the Intelligent Emergency Braking³ will apply automatic braking to avoid or reduce the damage caused by the collision.

Ti-L model shown in Brilliant Silver

NISSAN INTELLIGENT DRIVING EMPOWER YOUR SAFETY IN THE NISSAN PATROL

The Nissan Patrol comes equipped with a huge array of technologies that will assist to provide a safe and confident drive. Across the range, you'll find technologies like Intelligent Cruise Control, Intelligent Forward Collision Warning, Intelligent Lane Intervention, and Intelligent Blind Spot Warning.

INTELLIGENT REAR VIEW MIRROR

Unique to the Ti-L grade, the Intelligent Rear View Mirror has been innovatively designed to help drivers "see around" second and back row interior obstacles, improving visibility and helping maintain a clear view of the conditions and traffic behind them.

REAR CROSS TRAFFIC ALERT*

Rear Cross Traffic Alert can help you be more aware of your surroundings and back out of a space more safely. With radar sensors watching the rear, your Patrol can detect and warn you about cars approaching from either side.

INTELLIGENT BLIND-SPOT INTERVENTION

Smart technology like the innovative Blind Spot Warning and Intervention system detects vehicles in your blind spot and alerts you via an audible alarm. If, for instance you continue to change lanes and the car in your blind spot also continues to proceed, the system will initiate, gently braking one side of the vehicle, bringing your vehicle back to your original lane position, well out of harm's way.

Ti-L model in Gun Metallic. *Drivers' aids only and should not be used as substitutes for safe driving practices. Always monitor your surroundings when driving.

YOU DESERVE NOTHING LESS THAN THE BEST

Reach new destinations as the Nissan Patrol gives you technology you need and more. Technologies that include the practical, the useful, and the almost indulgent. Technologies such as the Satellite Navigation System with 12.3" colour touch screen, Bluetooth hands free and audio streaming, tri-zone climate control, Intelligent Key with push button start and remote keyless entry.

WIRELESS CHARGER*

Keep it 100%. The Patrol's wireless charging lets you charge your compatible gadgets without the need for cords.

WIRELESS APPLE CARPLAY®‡

Integration People to see? Places to be? Just ask Siri.® Equipped with Siri® voice control, Apple CarPlay®‡, brings your contacts, favourite messaging apps, Apple Music®‡ playlists, Apple Maps, and more on board to your Patrol. No need to plug in, just bring your compatible iPhone®‡

WIRELESS ANDROID AUTO™‡

Talk to Google on Android Auto™‡ and get things done with your voice. Easily send messages, get directions, control media, and more. Just say, "Hey Google" or, in compatible cars, long-press the voice control button on your steering wheel to get started.

BOSE®‡ PREMIUM AUDIO SYSTEM†

Thirteen speakers strategically placed throughout the interior provide a rich sound that upgrades your listening experience. The Bose®‡ premium sound system is custom-tuned by Bose®‡ engineers to take advantage of the unique interior acoustics inside the Nissan Patrol
