The GLS Sport Utility Vehicle

Mercedes-Benz

The pinnacle of space and comfort is only to be found in the new GLS.

The new GLS does full justice to the “S” in its name. Like no other car in the world, it combines the effortless agility of an SUV with the inner qualities of an S-Class. Climb aboard and discover exquisite luxury, tangible comfort and exemplary safety.

This Brochure is prepared by Daimler AG and it predominantly reflects the capabilities and performance of vehicles sold in Europe. Some characteristics, capabilities, performance features and optional extras (e.g. towing systems) may not be available or may not apply in Australia or under Australian conditions. The information in this Brochure is therefore indicative, illustrative and provided only for guidance and should not be relied on. To obtain current and accurate information on a vehicle and any options applicable to Australia, contact your local authorised Mercedes-Benz retailer.

Climb aboard and revel in modern luxury.

In the new GLS everything you see and touch adds up to a first-class experience. The fluid transitions, the stylish wood trim and the all-digital Widescreen Cockpit blend harmoniously into the superlative interior. As the first luxury-class Mercedes to feature the MBUX infotainment system, it also understands you better than ever before.

Maximum comfort.
And minimalist design.

Nothing is more valuable than good style.

Elegant and consummately stylish, the new GLS is a dominant presence even in its purest form. The EXCLUSIVE interior, electric panoramic sliding sunroof and optional wheels of up to 23 inches in size take this hallmark elegance to a new level. MULTIBEAM LED headlamps and LED tail lights lend it an added shine.

A rear compartment like none before.

The interior of the new GLS really is larger than life, with ample space for seven people. Each seat boasts luxury-class comfort and an infotainment offering that even goes one better. The second row of seats is electrically adjustable and the third row is more comfortable than ever.

The world’s most masterfully refined suspension.

When the going gets tough, the new GLS always retains its poise and composure like no other in its class, with AIRMATIC suspension package as standard. The optional E-ACTIVE BODY CONTROL suspension is fully active and is designed to compensate for pitch, roll and shocks.

Mercedes-Benz Intelligent Drive.

In the rush hour, during a long drive at night or on an unfamiliar route, your GLS noticeably takes the strain out of driving, particularly in stressful situations. It's all down to a concept that makes every journey in a Mercedes-Benz a safer and exceptional experience: Mercedes-Benz Intelligent Drive. Because the time you spend behind the wheel is your time. Time for relaxation. Time to replenish your energy. So that, first and foremost, you reach your destination safely, but are also relaxed when you get there.

EQUIPMENT HIGHLIGHTS – DRIVING ASSISTANCE SYSTEMS

The **Driving Assistance package Plus*** offers maximum comfort and safety on the road to autonomous driving. To supplement the Driving Assistance package you receive Active Stop-and-Go Assist, which ideally takes the strain off you on motorways. A further benefit of this package is PRE-SAFE® Impulse Side, which can provide additional protection in side collisions caused by other vehicles.

The innovative **PRE-SAFE® Sound*** system generates a sound signal through the loudspeakers that can trigger a protective reflex: your auditory system briefly disconnects, thereby protecting itself from the loud noise of a crash.

Optimum parking service on board. **Active Parking Assist with 360-degree camera*** makes it easier for you to find a parking space and to manoeuvre into and out of parking spaces. Here the choice is yours: park with ease yourself thanks to all-round visibility – or make things even easier still by getting the car to park for you.

* Various safety systems and features included in Mercedes-Benz vehicles are driver assistance aids only and the driver at all times remains solely responsible for maintaining proper control of the vehicle, ensuring safety and monitoring the driving environment and complying with all applicable road rules

Mercedes-Benz User Experience.

Infotainment to the highest GLS standard. The new Mercedes-Benz User Experience is designed to beguile. With your every look, every word and every touch.

EQUIPMENT HIGHLIGHTS – EASE OF OPERATION AND DISPLAY CLARITY

Augmented Reality Video* helps you to cope better in complex traffic situations. The optionally available system films the area around the moving vehicle with a camera, combines the live images with practical virtual traffic information and presents everything clearly on the media display.

It takes just two little words from you – "Hey Mercedes" – to activate the intelligent natural-speech **LINGUATRONIC voice control system**, which understands almost every word you speak and can even handle indirect language. The air conditioning will respond to "I feel cold" by setting a higher temperature, for example.

In the new GLS you can highlight media displays, start favourite functions, activate the reading lamp and much more without having to touch any controls whatsoever. Courtesy of **MBUX Interior Assist*** which, as part of the optional MBUX Innovation package, recognises the driver's and front passenger's hand gestures precisely by means of a camera.

* Augmented Reality Video and MBUX Interior Assist available as optional equipment as part of the innovation package. Augmented Reality Video is a driver assistance aid only and may not be accurate in all instances. The driver at all times remains solely responsible for monitoring the driving environment and observing all traffic and / or speed signs as well as complying with all applicable road rules

Widescreen Cockpit.

With the Widescreen Cockpit, the instrument display and media display form a visual unit. The two fully digital colour displays are combined beneath a joint glass cover and blend harmoniously into the interior design as a seamless surface. The media display comes in a free-standing variant for the first time – an elegant eye-catching feature.

Burmester® surround sound system.

13 speakers and a system output of 590 watts make the Burmester® surround sound system a high-end experience that you can conduct like your own personal orchestra.. The high-performance speakers develop a first-class surround sound and you can specifically optimise this for the front and rear seats to intensify the listening experience. A level of quality that is also visible, thanks to the high-quality Burmester lettering.

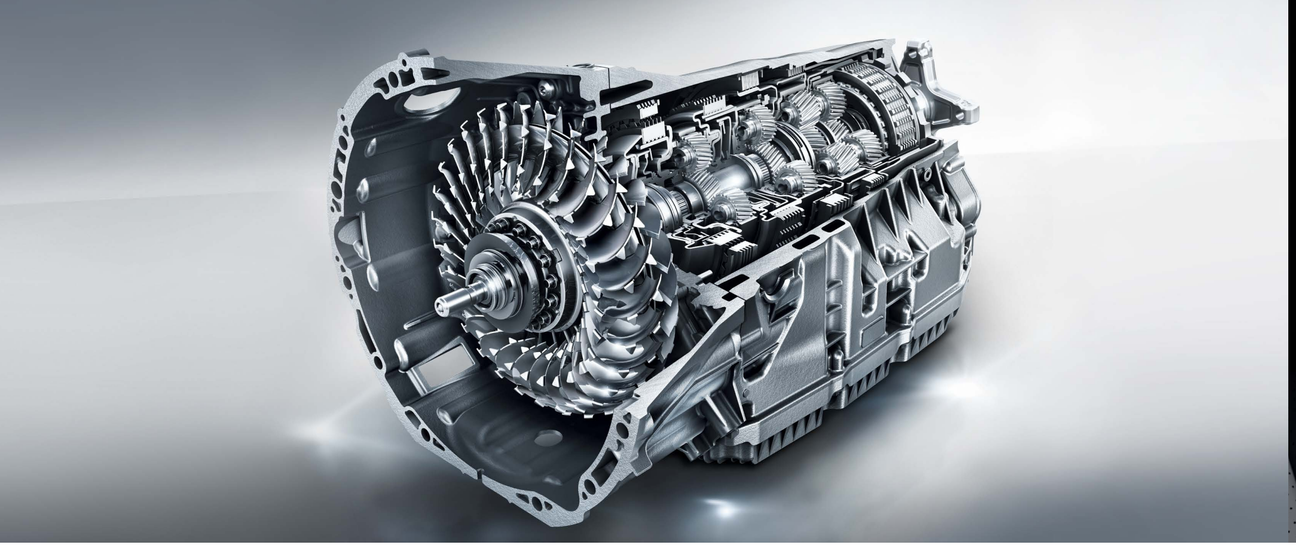

23-inch wheels.

Tailor-made to suit your individual taste: the new GLS offers optional wheels of up to 23 inches in size, plus a stylish selection of different rim designs and colour variants. To add that final distinguishing flourish to your car’s appearance.

Panoramic sliding sunroof.

The panoramic sliding sunroof conjures up a wonderful feeling of freedom and a pleasantly light and airy atmosphere inside the vehicle. From the outside it lends the exterior an exclusive lightness of touch.

9G-TRONIC.

Leave the gear-shifting work to your vehicle: you will barely notice the gear changes performed by the 9G-TRONIC automatic transmission. Nine gears enable low engine speeds, which reduces your fuel consumption and ensures a more pleasant noise level.

When you select the Comfort and ECO drive programs via DYNAMIC SELECT, the 9G-TRONIC will shift smoothly and efficiently through the nine gears for the ultimate in driving comfort. The transmission also comes with sporty credentials: at the push of a button you can enjoy fast, sporty gear changes while nevertheless remaining in the ideal engine speed range for much of the time. Sport mode raises performance accordingly for even greater driving enjoyment.

E-ACTIVE BODY CONTROL.

A totally new active suspension is optionally available for the new GLS in the guise of E-ACTIVE BODY CONTROL. This incorporates the camera-based lane recognition system ROAD SURFACE SCAN and the CURVE active curve inclination function, and is able to assess the driving situation, speed and load. Damping and level control are automatically adjusted for each wheel accordingly. For excellent ride comfort and outstanding stability – on- and off-road alike.

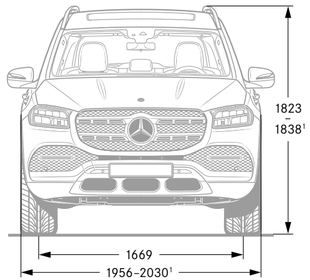

Technical data.

	Diesel	Petrol
	GLS 400 d 4MATIC	**GLS 450 4MATIC**
Displacement (cc)	2925	2999
Rated output[1] (kW [HP] at rpm)	243 [330]	270 [362]
Fuel consumption (l/100 km)		
Urban	9.3	11.4
Extra-urban	6.7	7.9
Combined	7.7	9.2
Combined CO_2 emissions (g/km)	202	210

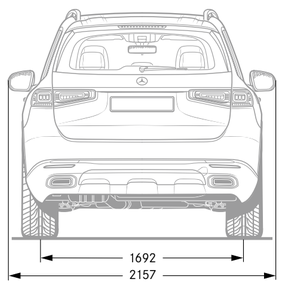

The best for the engine:
Mercedes-Benz genuine engine oils.

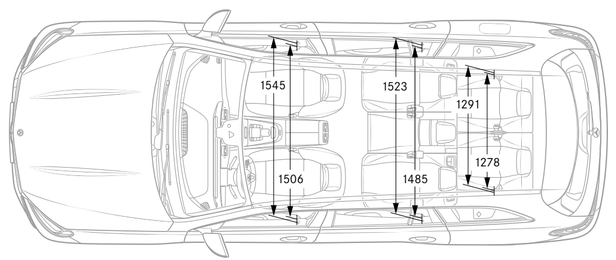

The declared fuel and energy consumption figures are determined by testing under standardised laboratory conditions in accordance with ADR 81/02. The fuel and/or energy consumption stated are for the purposes of comparison amongst vehicles tested under the same technical procedures only. Real world fuel and/or energy consumption may vary and is influenced by many additional factors such as, individual driving style, load, traffic, ambient temperature and vehicle condition or fuel quality (as applicable).

Dimensions.

[1] With minimum to maximum-size tyres at normal or highway level. [2] With rear bench seat pushed forward 100 mm. All figures in millimetres. The illustrated dimensions are mean values. They are valid for vehicles in basic specification and in unladen condition.

SPORT FOR GOOD

Mercedes-Benz is one of the founding partners of the worldwide “Laureus Sport for Good Foundation”, which was established in 2000. It is the Mercedes-Benz brand s most important social initiative. Laureus Sport for Good supports children and young people in need through social sports projects, opening up new perspectives and imparting important values such as team spirit, respect and determination. “Change the Game for Kids” is our mission statement which we wish to share with you. In buying a Mercedes-Benz you are supporting the “Laureus Sport for Good” movement.
