

DAILY VAN

QUICK REFERENCE

IVECO

Your partner for sustainable transport

OVERVIEW

The multi award-winning Daily van range provides operators with a tough and reliable commercial vehicle that features the truck-like strength of a 'C' section chassis, with the safety features, comfort and appointments of a high-end passenger vehicle.

With a wide selection of options covering volume capacity, GVM, wheelbase, roof, engine and transmission, the Daily is ideal for a large range of trade, courier and specialist applications.

The Daily also provides several market-leading features for Australia, including largest van volume and GVM capacities, most powerful engine and an advanced 8-speed automatic transmission along with class-leading oil change intervals.

A WORLD CLASS VAN.

The Daily van has featured prominently in prestigious commercial vehicle awards in recent years with variants winning the International van of the Year in 2018 and 2015, and locally the Delivery Magazine 'Technology and Innovation Award' – 2017 just to name a few accolades.

MODEL OVERVIEW

- Daily Van 35S
- Daily Van 50C
- Daily Van 70C

GVM / VOLUME / WHEELBASE / TOWING

- **GVM:** From 3,800kg to 7,000kg (market leading)
- **Volume:** 7.3m³, 9m³, 10.8m³, 12m³, 16m³, 18m³, 19.6m³ (market leading)
- **Wheelbase:** 3000mm, 3520mm and 4100mm
- **Towing:** Braked towing from 3,200kg to 3,500kg

OPTION PACKS

- **Business Premium:** Reverse buzzer, fog lights, rear view camera, IVECONNECT multimedia + GPS
- **Comfort:** Padded headrests, automatic climate control
- **Efficiency – Single Wheel:** Alloy wheels, Eco switch, Instrument cluster, Start and Stop, Lane departure warning
- **Efficiency – Twin Wheel:** Eco switch, Instrument cluster, Lane departure warning

MEETING EURO 5 & 6 EMISSION STANDARDS

The Daily range is powered by a selection of powerful yet fuel efficient engines that meet either Euro 5 or even more stringent Euro 6 emission standards.

Emission control on Euro 5 variants is achieved via an Exhaust Gas Recirculation (EGR) system. EGR works by recirculating a portion of an engine's exhaust gases back into the engine cylinders where it dilutes oxygen in the incoming airstream, providing the gases that are to combust and absorb heat reducing in cylinder temperatures, reducing levels of nitrogen oxide.

Euro 6-rated models employ a Selective Catalytic Reduction (SCR) system that uses a urea solution such as Adblue to treat the exhaust gases. This process results in even lower exhaust gases including nitrogen oxide, hydrocarbons and particulate matter.

Adblue is widely available at petrol stations and can also be purchased at transport outlets. As a guide, the Adblue tank will need to be refilled approximately every seven or eight tanks of fuel.

ENGINE OVERVIEW

A number of engine options are available across the Daily van range based on two core direct injection 2.3 and 3.0 litre diesel powerplants – all deliver market-leading power and torque output.

Engine options include:

- Euro 5, 2.3l, 4-cylinder direct injection turbodiesel producing 126 hp (94kW) and 320Nm
- Euro 5, 3.0l, 4-cylinder direct injection turbodiesel (VGT) producing 170 hp (126kW) and 430Nm
- Euro 5, 3.0l, 4-cylinder direct injection turbodiesel (Twin Stage Turbo) producing 205 hp (153kW) and 470Nm (market leading power)
- Euro 6, 3.0l, 4-cylinder direct injection turbodiesel (VGT) producing 180 hp (134kW) and 430Nm (available for Daily 70C only)

SMOOTH SHIFTING TRANSMISSION

Depending on the application and driver preference, Daily owners can choose between a 6-speed synchromesh double overdrive manual transmission, or the market-leading 8-speed 'Hi-Matic' full automatic.

Benefits of the Hi-Matic include:

- Self-adaptive shift strategy for correct gear selection
- Manual gear shift option
- Ultra-fast gear changes (under 200 milliseconds), ensures seamless power delivery
- 'Eco' and 'Power' modes providing flexibility depending on van load and road conditions

LOW TOTAL COST OF OWNERSHIP

When buying a van, buyers need to consider more than just the purchase price. In the longer term, a vehicle like a Daily with a proven lower cost of ownership will ultimately leave the buyer in a better financial position, making up for a higher up-front purchase price.

- 40,000km or 12 month oil change intervals
- Availability of 'start and stop' idle system on selected models to save fuel
- 'Ecoswitch' (reduces engine torque) to minimise fuel consumption – use when vehicle is empty or lightly loaded
- 'Eco' mode on 'Hi-Matic' 8-speed auto transmission
- Low friction piston rings and high grade engine oils to reduce fuel consumption
- Smart alternator will improve the efficiency and battery life

ADVANCED SAFETY

The Daily is among the safest vans available in Australia with impressive levels of active and passive safety on offer across the range.

Features include:

- Engine immobiliser
- Daytime Running Lamps
- Four SRS Airbags
- Front and rear disc brakes with ABS and Electronic Brakeforce Distribution (EBD)
- Electronic Stability Program (ESP 9)
- Anti-Slip Regulator (ASR)
- Hill Holder (HH)
- Optional Lane Departure Warning System (LDWS)
- Optional Rear View Camera

CABIN & INTERIOR

While the Daily is a commercial vehicle, owners will enjoy a cabin finish and layout that more closely resembles that of a high end passenger car, providing a comfortable driving experience even after extended time on the road.

Features include:

- Three roof height options
- 270 degree rear opening doors
- Optional IVECONNECT multimedia system
- Bluetooth radio
- Steering wheel-mounted controls for audio and phone
- Electric windows
- Optional automatic climate control
- Extensive storage areas including open areas with USB sockets
- Optional heated and suspended driver and passenger seats
- Electric, heated mirrors
