## THE NEW HR-V. AS DIFFERENT AS YOU ARE.

With a sleek, coupe-like body and sharp lines at every angle, the HR-V not only piques the curiosity of passers-by, but fuels the curiosity of anyone who gets behind the wheel.

Whether it's a night on the town or an overnight in the country, its wide stance and elevated position make it a joy to drive. And with curiously concealed rear door handles, 18-inch alloy wheels\* and a sporty black grille\*, its streamlined looks ensure you're driving in style.

A suite of beautifully designed LED lights take these stylish good looks to new heights with Daytime Running Lights, headlights^ and fog lights^ up front, and LED tail lights^ for a smart finish. So, whether you're coming or going, during the day or night, the HR-V is sure to shine.

The 7-inch touchscreen keeps you connected, while turn-by-turn satellite navigation and the multi-angle reversing camera act as your intelligent guides. LaneWatch^ side-mirror cameras gives you eyes in the back of your head, allowing you to see more

of your environment including pedestrians, cyclists and other motorists.

When it comes to comfort, HR-V's rear seats accommodate even long legs. And smart compartments means everything will fit right in. But the HR-V's real secret is its Magic Seats, which fold away to almost nothing. With three modes to choose from – tall, long and utility – you've got 18 possible configurations that make it as versatile on the inside as it is sharp and stylish on the outside.

\*Only available on RS. ^Available on VTI-S and above.
