THE COMPLETE PACKAGE

Reborn and rebuilt from the ground up, Mazda BT-50 is here. A whole new level of versatility and performance has been achieved through a relentless pursuit of challenging what's possible. Innovation greets you at every turn with more features at your disposal than ever before. Bold, balanced, stylish and capable, Mazda BT-50 truly is the complete package.

A BOLDER LEVEL OF DESIGN

The exterior design of Mazda BT-50 is the first true expression of Mazda's Kodo Design language in a ute. The confident, planted stance projects strength, capability and uncompromising quality. The new two-tone alloy wheel design gives BT-50 a unique and striking look. LED headlamps punctuate the front grille while sculpted side panels draw the eye to the bold rear presence. There is also a full range of accessories to add even more toughness and functionality.

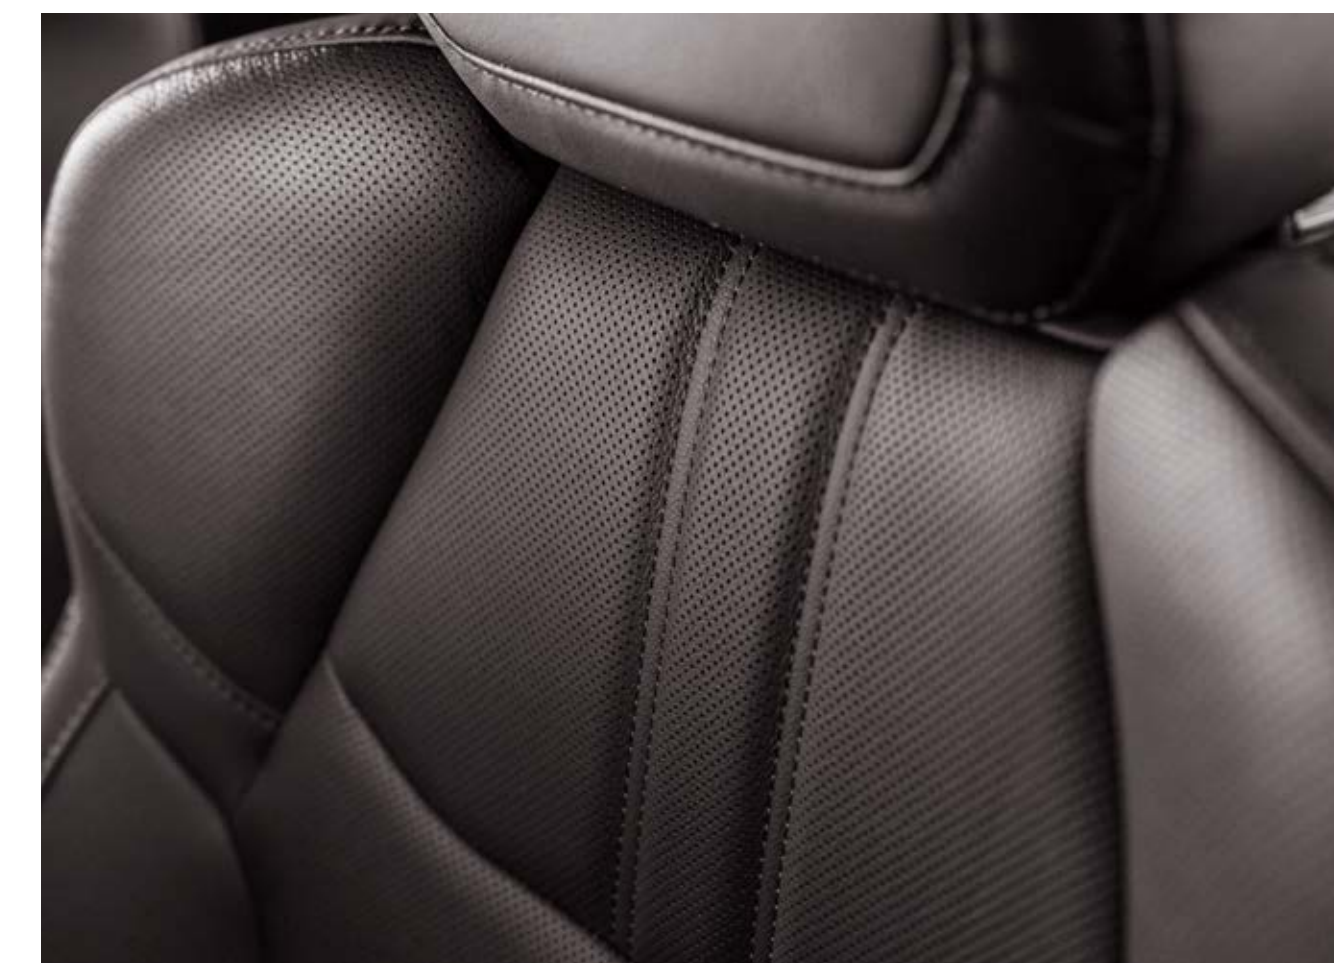

CLASS-LEADING AND DRIVER-CENTRIC

Step inside the comfortable, spacious and durable cabin and you'll find yourself immersed in the highest quality Mazda design. Soft leather seats wrap the driver and passenger alike with a sense of control and calm. An expansive and stylish centre console is further evidence of the exceptional quality and finish of the premium materials. Rear seat passengers are taken care of too, with a USB charging port and air-conditioning vents.

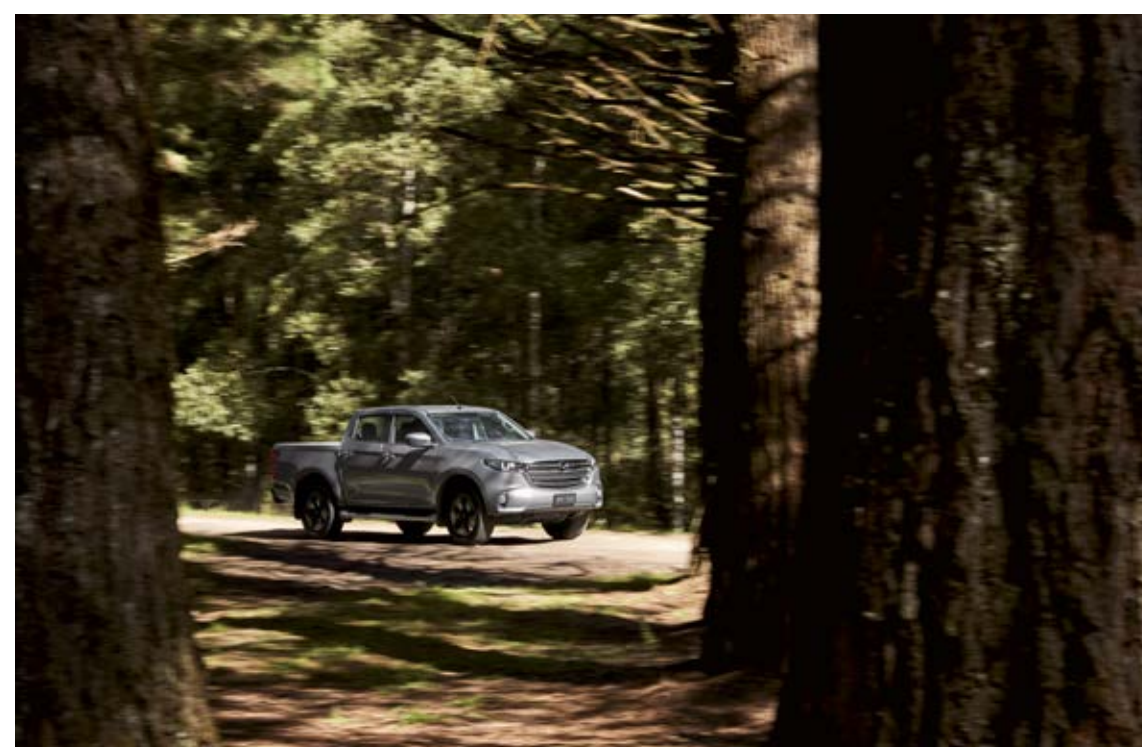

THE COMPLETE PERFORMANCE PACKAGE

Combining the latest technology, powerful performance and off-road capability, Mazda BT-50 delivers unparalleled versatility and dependability. Both tough and fuel efficient, you can choose from either a 3.0L or 1.9L 4-cylinder turbo diesel engine. The 3.0L delivers 140kw of power and 450Nm of torque in both 6-speed auto and manual transmissions, all while using just as little as 7.7L/100km*. This is backed up by a braked towing capacity of 3,500kg, a payload capability of up to 1,196kg and a host of features for the dedicated four-wheel driver.

The punchy new 1.9L puts out 110kW, 350Nm of torque and features a six speed automatic transmission. With a towing capacity of up to 3,000kg, it makes for an exciting entry level addition to the range.

* Fuel consumption figures are based on ADR 81/02 test results. They are useful in comparing the fuel consumption of different vehicles. They may not be the fuel consumption achieved in practice. This will depend on traffic and road conditions and how the vehicle is driven.

BT-50 THUNDER

The range-topping Mazda BT-50 Thunder has arrived. The Complete Package is now completely packed with boldness, toughness and capability including an all-new sports bar, wheels, lightbar, electric tonneau cover and much more so you can conquer the workday and the weekend with ease.

Wash salt water to avoid corrosion.

NEW BT-50 SP

The latest addition to the lineup, new BT-50 SP offers a sleek, sport-luxe look. Featuring 18-inch black alloy wheels, black and grey exterior accents, sail-plane sports bar and more, it has a stylish presence both on and off road.

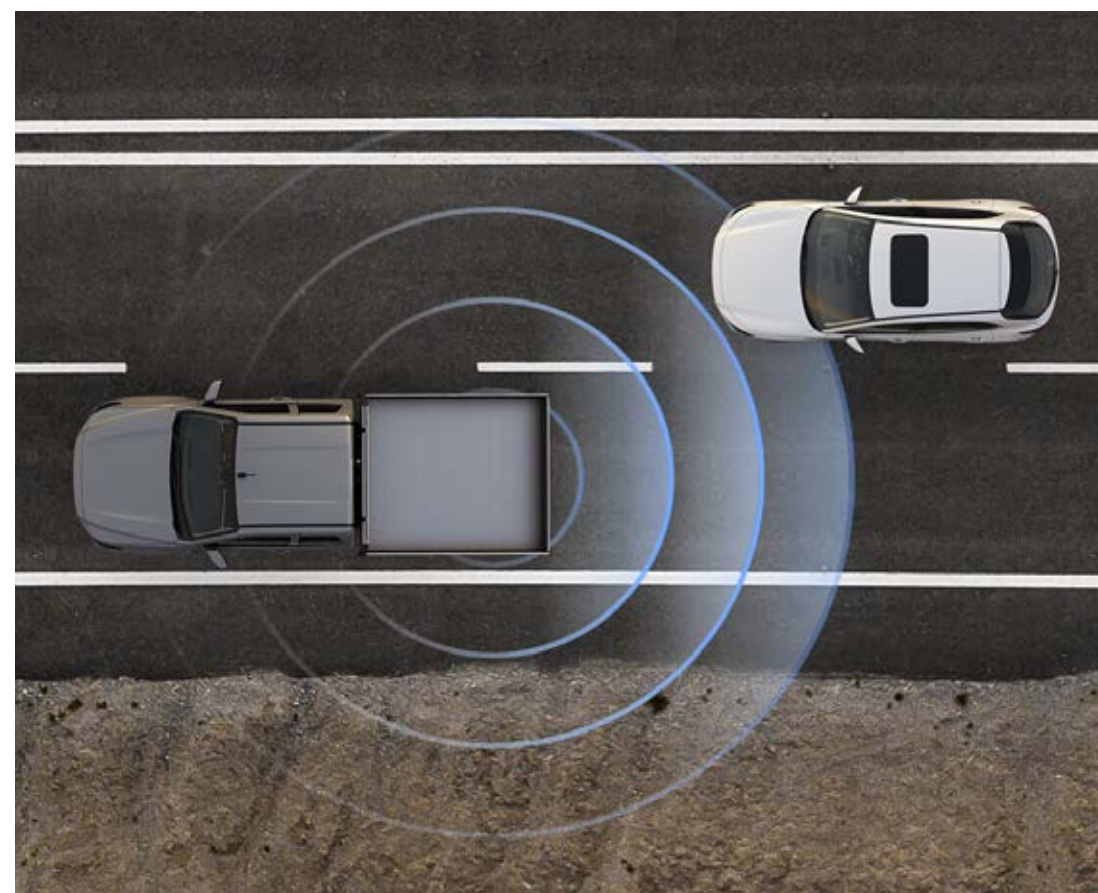

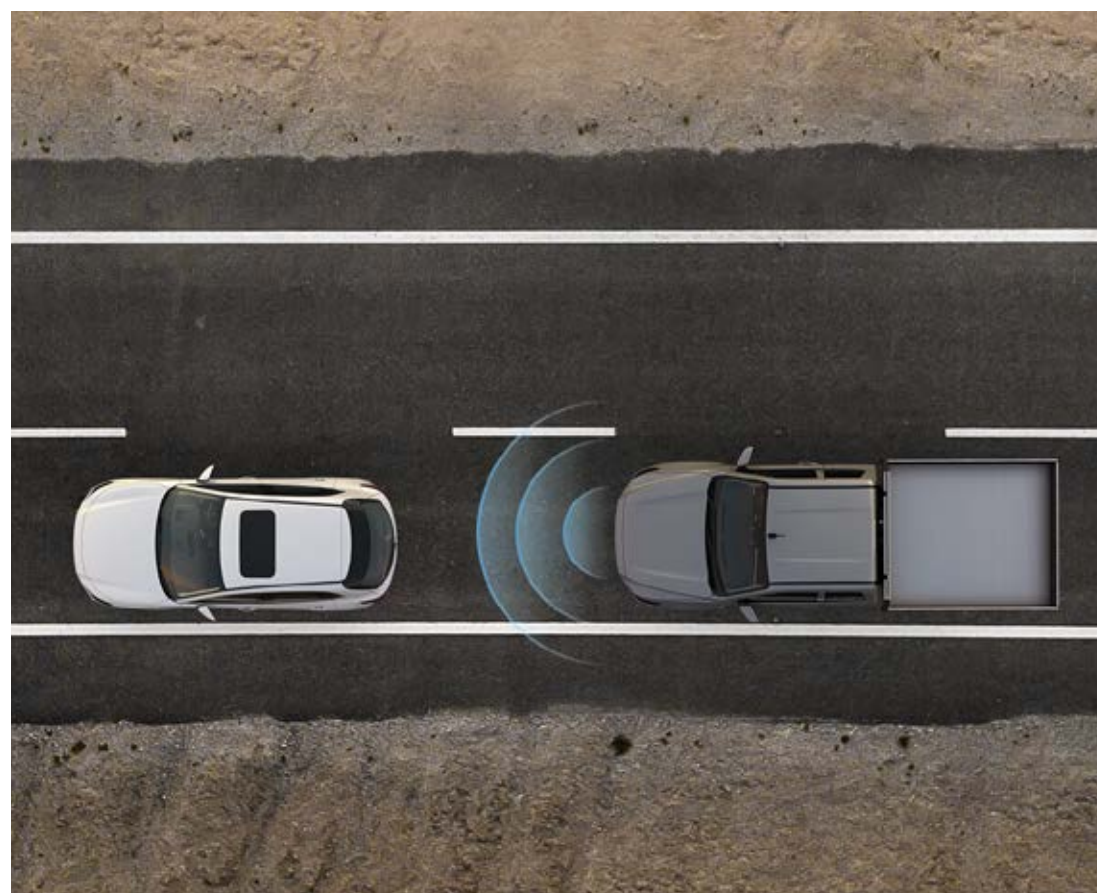

Wash salt water to avoid corrosion.

UNCOMPROMISING SAFETY

Mazda BT-50 offers a level of safety across the range that you wouldn't expect in a ute. A suite of the latest advanced safety technologies, like Autonomous Emergency Braking (AEB)[†], Blind Spot Monitor (BSM)[†], Lane Departure Warning (LDW)[†] and Automatic High Beam (AHB)[†] are standard across the range. You'll also enjoy the confidence of an 8-airbag protection system, which includes an airbag that deploys between driver and passenger.

[†] Driver assist technology only. It should not be used in place of skilled and safe driving practices. It is the driver's sole responsibility to monitor vehicle surroundings and conditions and comply with all applicable laws at all times.

TECHNOLOGY AT THE CUTTING EDGE

The very latest in class-leading technology starts with the large 9-inch touch screen display on XTR grade and above that puts it all at your fingertips. Intuitive smartphone connectivity, like Android™ Auto and wireless Apple CarPlay®§ keeps you connected to a world of functionality and entertainment. Connectivity information is also delivered to the instrument panel, helping you keep attention on the road. While the 8-speaker surround sound system, which includes two innovative roof speakers, delivers powerful, crystal clear audio for you to enjoy. As an added bonus, on GT, SP and Thunder models you can also start the engine remotely to prepare you for a quick departure.

§ Please check the compatibility of your device (particularly your mobile phone) with your Mazda Dealer as not all devices support connectivity or use all available features.

¶ When fitted with a Mazda Genuine Towing Kit. Subject to State or Territory regulations.

1 Gross Combined Mass (GCM) is the total permissible combined weight of the vehicle and trailer/caravan being towed including occupants, fuel and cargo.

2 Gross Vehicle Mass (GVM) is the total permissible weight of the vehicle including occupants, fuel and cargo.

3 Kerb weight is the unladen weight of the vehicle including all fluids and a full tank of fuel.

4 Maximum payload weight is calculated as the difference between GVM and kerb weight. The weight of any vehicle occupants, options, accessories, modifications, cargo and tow ball download must be included when calculating payload weight.
