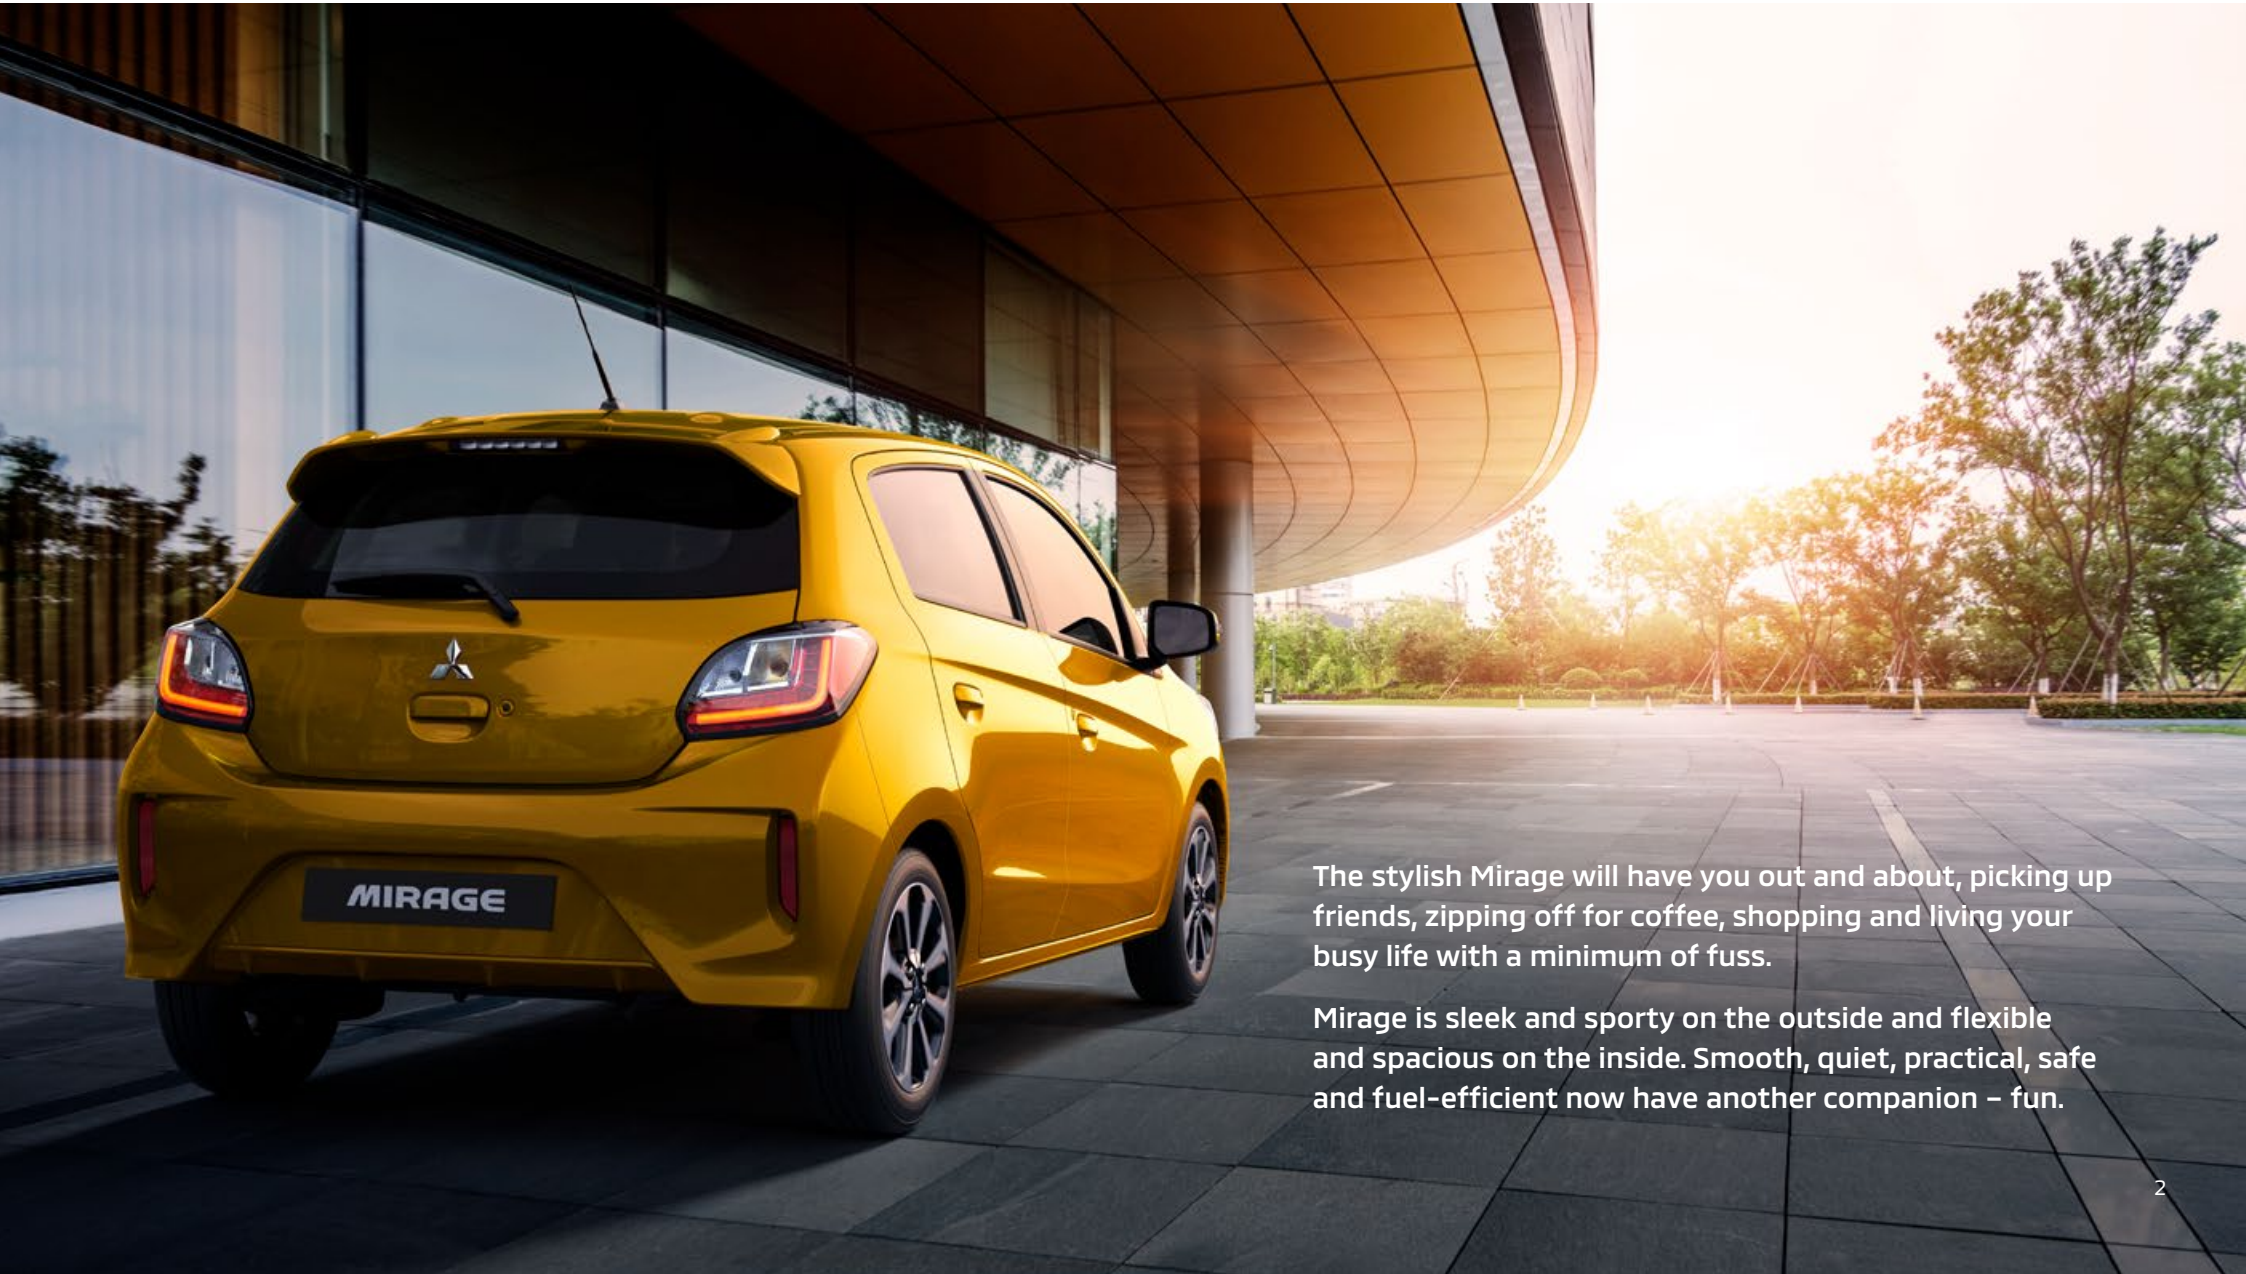
MIRAGE
MIRAGE

BUILT TO MAKE LIFE EASIER



The stylish Mirage will have you out and about, picking up friends, zipping off for coffee, shopping and living your busy life with a minimum of fuss.

Mirage is sleek and sporty on the outside and flexible and spacious on the inside. Smooth, quiet, practical, safe and fuel-efficient now have another companion – fun.

Discover all the models in the Mirage range, from the ES with great little touches to make commuting easier, to the LS with extra exterior enhancements like 15" alloy wheels, front fog lamps, privacy glass and LED headlights.

+ The 1.2 litre MIVEC petrol engine delivers outstanding fuel economy, without any loss of performance. 57kW of power and 100Nm of torque ensure Mirage accelerates effortlessly from standstill or when overtaking.
+ Cruise Control in the Mirage LS means you're as comfortable on the highway as you are in the city streets and laneways.
+ Daytime Running Lamps (DRL), LED Headlights# and Automatic High Beam# make sure you're seen, as well as light your way when needed.

#LS model only.

MAKE A BOLD STATEMENT

The Mirage may be small and compact, but it's surprisingly spacious inside. It seats up to five and the versatile 60:40 split fold rear seat means it has plenty of luggage space.

+ Phone and audio controls are conveniently located on the steering wheel, with hands-free phone with voice control.
+ Smartphone link Display Audio (SDA)^ is connected to an impressive 7.0" touchscreen, so you can access your phone's compatible apps and get directions, make calls, send and receive messages and listen to music from any source including DAB+ radio.
+ Keyless entry and central locking complete this ideal city car.

^Smartphone link Display Audio (SDA) supports Android™ 5.0 or higher/iOS 8.0 or higher for use with Android Auto™/Apple CarPlay. Smartphone link Display Audio will not operate in areas with no service signal and may not operate in supported areas where the signal is weak. Users are responsible for all charges incurred using smartphones and iPhones to connect to Android™ and CarPlay respectively. Some functions may not be available for use depending on the user's location. Only compatible Apps can be used. 1. Android™ and Android Auto™ are trademarks of Google Inc. 2. Apple CarPlay and iPhones, are trademarks of Apple Inc., registered in the US and other countries.

GUIDE. PROTECT. CONNECT.

MiTEC

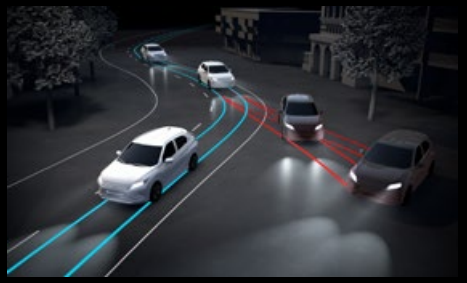
Mitsubishi Motors Intuitive Technology or MiTEC, is an integrated system^ of brilliant innovations in action, working in unison to guide and protect, alert and connect, even entertain. It thinks like you, reacts like you, before you even know it. MiTEC delivers unsurpassed safety and next generation features to the modern-day driver.

These significant safety features coupled with Mitsubishi's Reinforced Impact safety Evolution (RISE) body have earned Mirage the maximum ANCAP safety rating of 5 stars so you can rest assured you're driving one of the safest cars on the road.

ANCAP SAFETY
TESTED 2013
★★★★★

Lane Departure Warning#
Mitsubishi's Lane Departure Warning uses a camera to issue an audible alert and shows a warning on the multi-function display if your vehicle drifts from its lane while the turn signals are not operating.

Forward Collision Mitigation[1]
Mitsubishi's Forward Collision Mitigation system detects obstructions ahead and issues a visual and audible alert when there is a danger of collision, automatically applying the brakes to avoid collision or reduce impact.



Active Stability Control
Mitsubishi's Active Stability Control intuitively recognises when you over-steer or under-steer and applies brake force to appropriate wheels to keep you stable through corners.

TOP CLASS PERFORMANCE ON THE ROAD

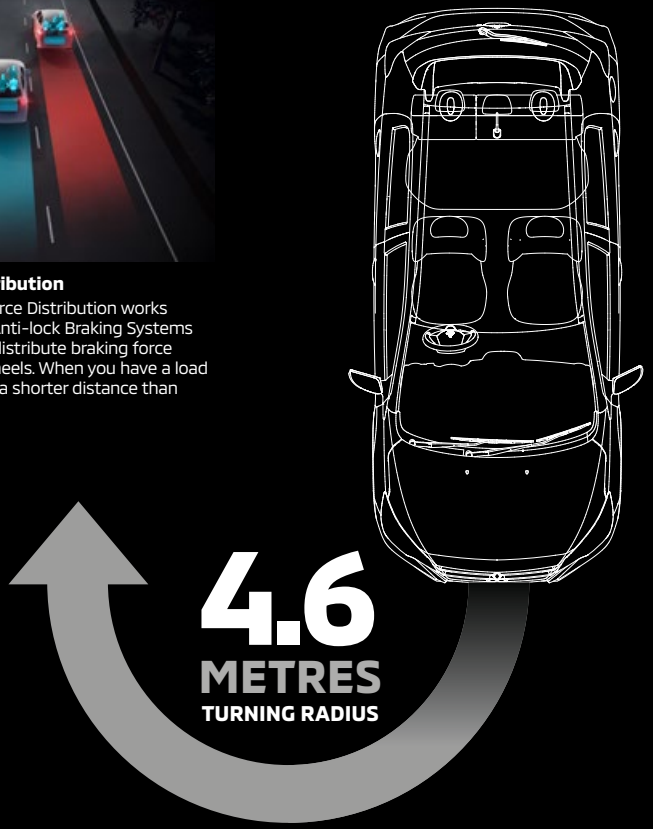
The ride in Mirage is smooth and comfortable. The car's stability and nimble handling means you'll feel even more in control, and getting in and out of tight spots and city parking is a breeze with Mirage's impressive 4.6 metre turning radius.

Around town, Mirage gets up to speed surprisingly quickly. On the open road, it glides along without working hard. The smooth acceleration comes from the CVT transmission, which constantly keeps you in the right gear to deliver the power you need.

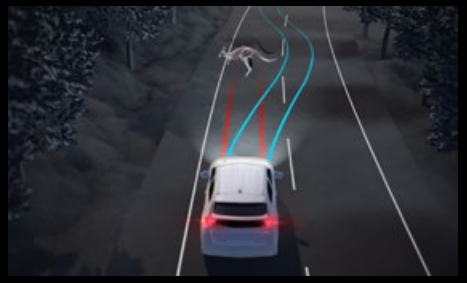
Hill Start Assist
Steep city streets or congested shopping mall ramps are no longer a problem with Mitsubishi's Hill Start Assist technology. It prevents the car from rolling backwards by maintaining braking force to give you time to move your foot from brake to accelerator.

Rear View Camera
Mitsubishi's Rear View Camera assists when reverse parking in tight spots.

Electronic Brakeforce Distribution
Mitsubishi's Electronic Brakeforce Distribution works hand-in-hand with your cars Anti-lock Braking Systems computer to assess load and distribute braking force between the front and rear wheels. When you have a load in the rear, it helps you stop in a shorter distance than standard brakes.



Auto High Beam#
Mitsubishi's Auto High Beam detects both the headlights of oncoming vehicles and the tail lights of vehicles ahead, automatically switching between high or low beams.



Anti-lock Braking System
Mitsubishi's Anti-lock Braking System allows the driver to maintain steering control of the vehicle and manoeuvre around obstructions in heavy braking situations.

^Please drive safely and never rely solely on these systems while driving. Drivers are fully responsible for their own safe driving. #LS model only. 1. The detection and control capabilities of Forward Collision Mitigation (FCM) are supplementary only and do not prevent collisions in every situation. Please read the operation manual carefully and be aware of these limitations.
