MAZDA3, DRIVING IS BELIEVING.

Mazda3 represents the beginning of a new era for Mazda. A car that takes every element of design, performance and technology beyond anything that's come before. Winner of the prestigious World Car Design of the Year 2020, Mazda3 is a drive you need to feel to believe.

In designing Mazda3 Hatch the goal was to create a car that was sportier and more exciting than any other. The evolution of Mazda's Kodo – Soul of Motion design philosophy sees light and shadow shift beautifully across the body. This, combined with a low roofline and wide stance delivers a powerful presence.

CREATED TO MAKE A MOMENT LAST

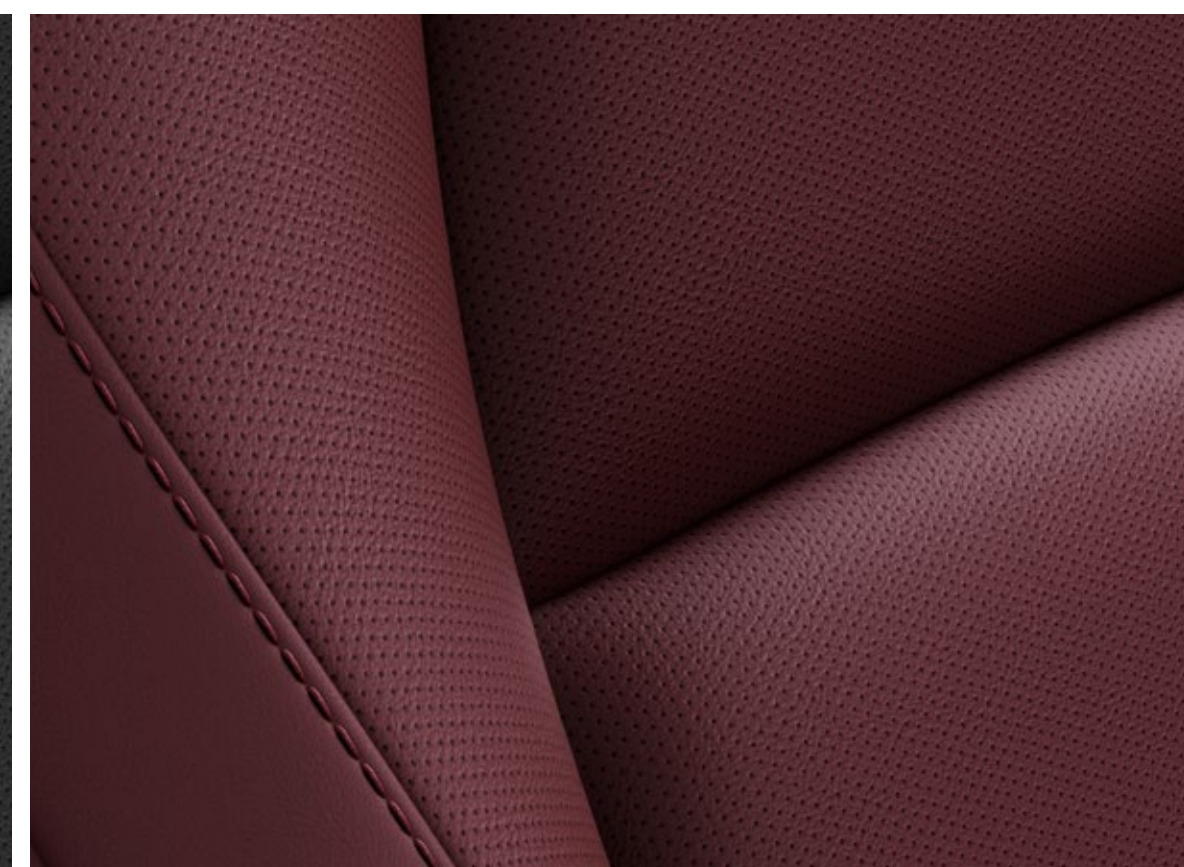

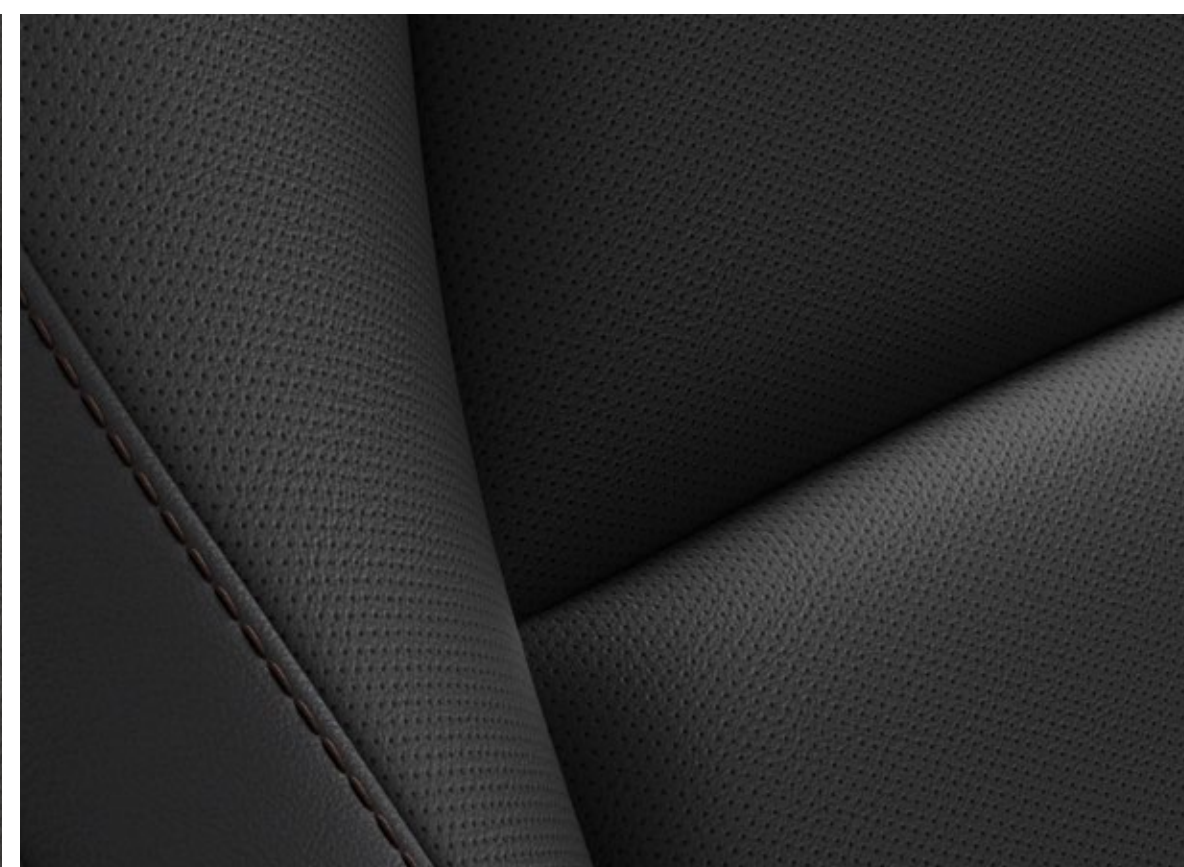

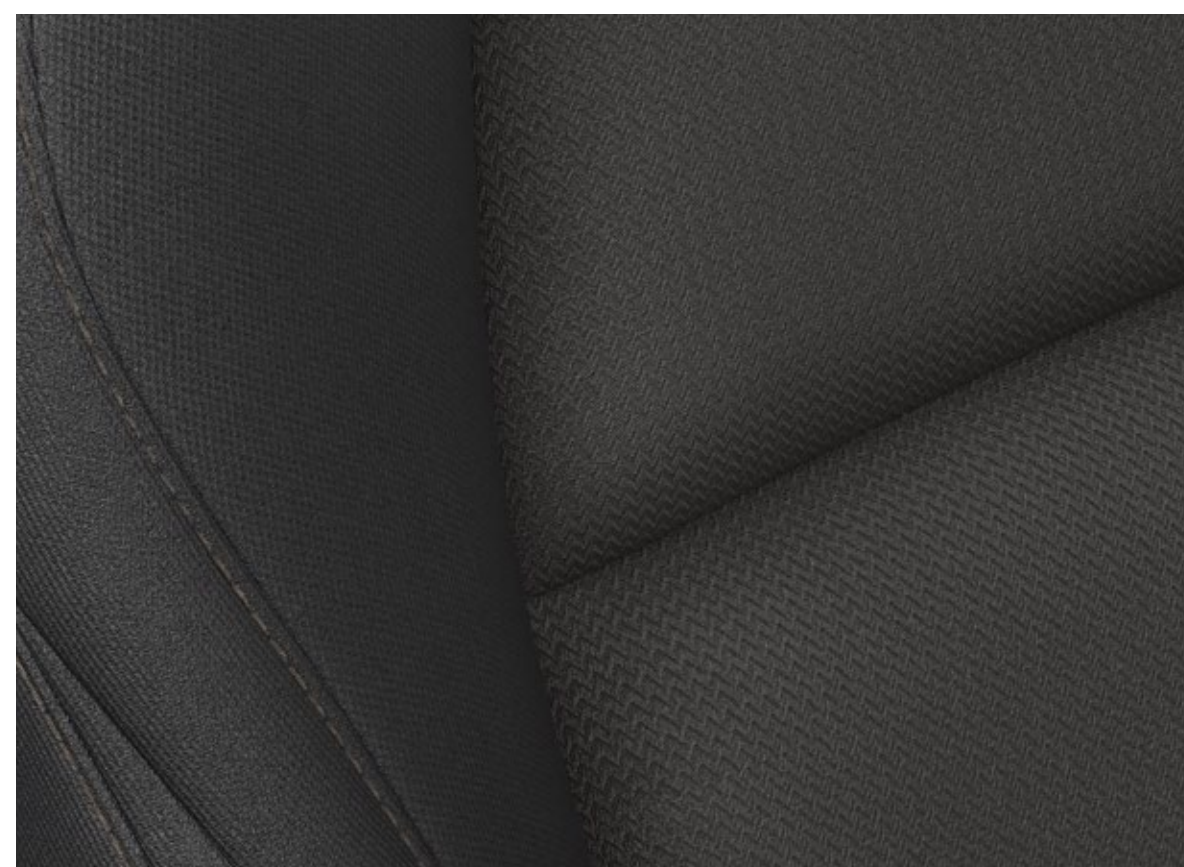

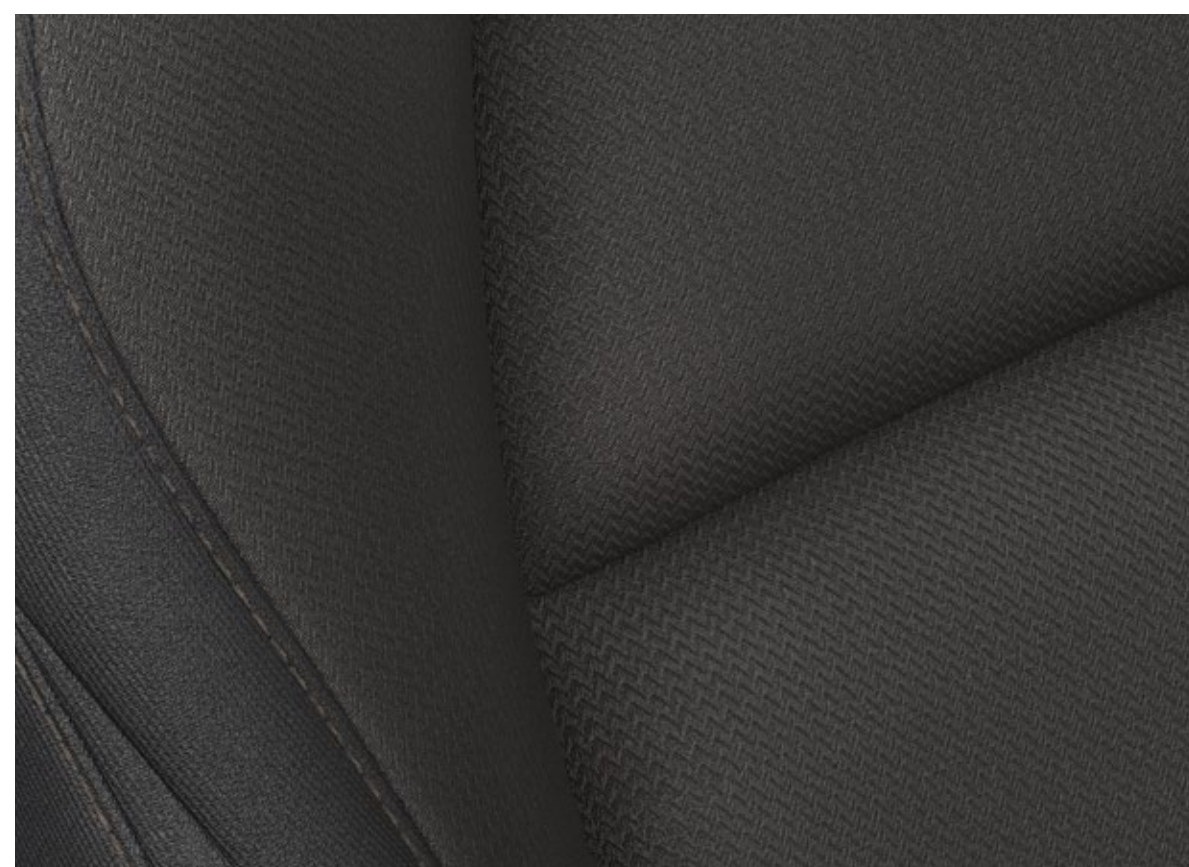

BEAUTY IN SUBTRACTION

Every element of Mazda3 Hatch has been created with the intention to further strengthen the connection between car and driver. A less is more approach has been followed to develop a cabin that's as beautiful as it is functional.

NEW LEVEL OF INTERIOR CRAFTSMANSHIP

Quality is abundant from top to bottom. Beautifully crafted detailing covers key components like the dashboard, centre console and door panelling. While the luxurious and immersive leather seats at higher grades are now heated.

Black cloth (G20 Pure)

Black cloth (G20 Evolve and G25 Evolve)

Black leather (G20 Touring, G25 GT and G25 Astina)#

Burgundy leather ● (G25 Astina and X20 Astina only)#

● Burgundy leather interior only available in models with Snowflake White Pearl Mica, Sonic Silver Metallic, Polymetal Grey Metallic, Machine Grey Metallic, Deep Crystal Blue Mica and Jet Black Mica exterior colours.

Leather interior includes some Maztex material on selected high-impact surfaces.

INSTINCTIVE TECHNOLOGY

Every piece of driving technology has been honed to provide an unparalleled sense of control and enjoyment. The Active Driving Display has been carefully designed to present only the most relevant information in the simplest fashion. The meter cluster now features a vibrant 7-inch LCD screen. While on the steering wheel, switches are streamlined and better integrated for superior functionality and beauty.

CONNECTED IN EVERY WAY

Enjoy the latest in connectivity with an all-new Mazda Connect system displayed in stunning clarity on the 8.8-inch widescreen display. With Apple CarPlay® and Android® Auto as standard, you can access your compatible smartphone's contacts, social media, music and more at the touch of a button.

ENGINEERED TO EXHILARATE

The strict adherence to the philosophy of 'Jinba-ittai', the sense of car and driver as one, has created a driving experience that's truly next generation. The newly developed G-Vectoring Control Plus (GVC Plus) offers unprecedented levels of confidence-inspiring controllability, while Skyactiv-G petrol engines deliver exhilarating performance.

A FEAT OF ENGINEERING

Skyactiv-X utilises Mazda's world-first Spark Controlled Compression Ignition (SPCCI) which combines the fuel-efficiency of a diesel with the power and driveability of a petrol engine. This engine switches seamlessly between conventional spark ignition and a compression ignition mode where a lean fuel-air mix is compressed so it combusts more efficiently – releasing fewer emissions than a conventional engine.

M Hybrid also employs new electric technology, replacing the alternator and starter motor with an Integrated Starter Generator (ISG), which captures energy that would normally be wasted during braking. This electrified energy is stored in a lithium-ion battery and then used to power electrical systems and assist the engine under acceleration. The result is improved efficiency and a smoother driving experience.

The combination of these two systems takes Mazda3 Skyactiv-X M Hybrid to a new level of efficiency without compromising the Zoom-Zoom driving experience.

THE EVOLUTION OF SAFETY

True peace of mind is at the forefront of Mazda3. A higher concentration of ultra-high tensile steel reinforces the chassis, while a newly developed knee airbag for the driver's seat is not only a first for Mazda, but comes as standard equipment. Paired with the latest in safety technology, like Smart Brake Support (SBS), Lane-keep Assist System (LAS), and Mazda Radar Cruise Control (MRCC), every grade of Mazda3 takes safety to another level.

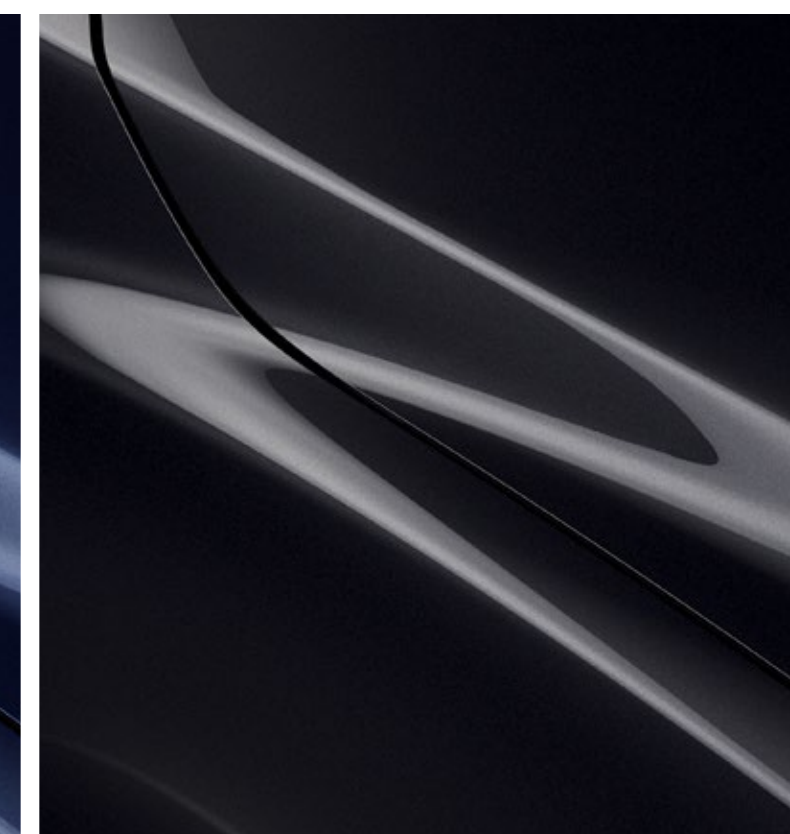

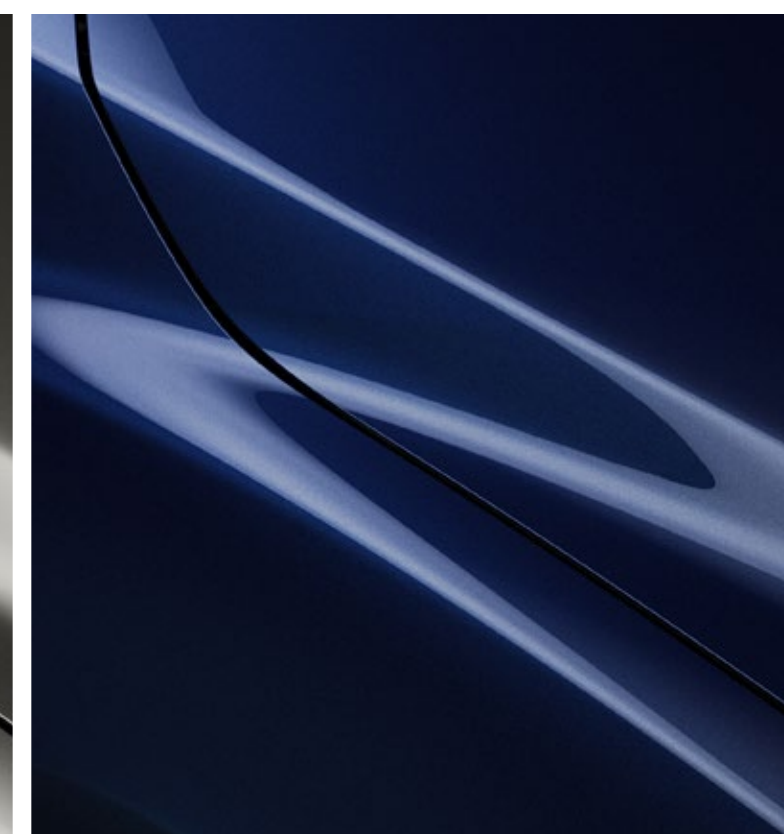

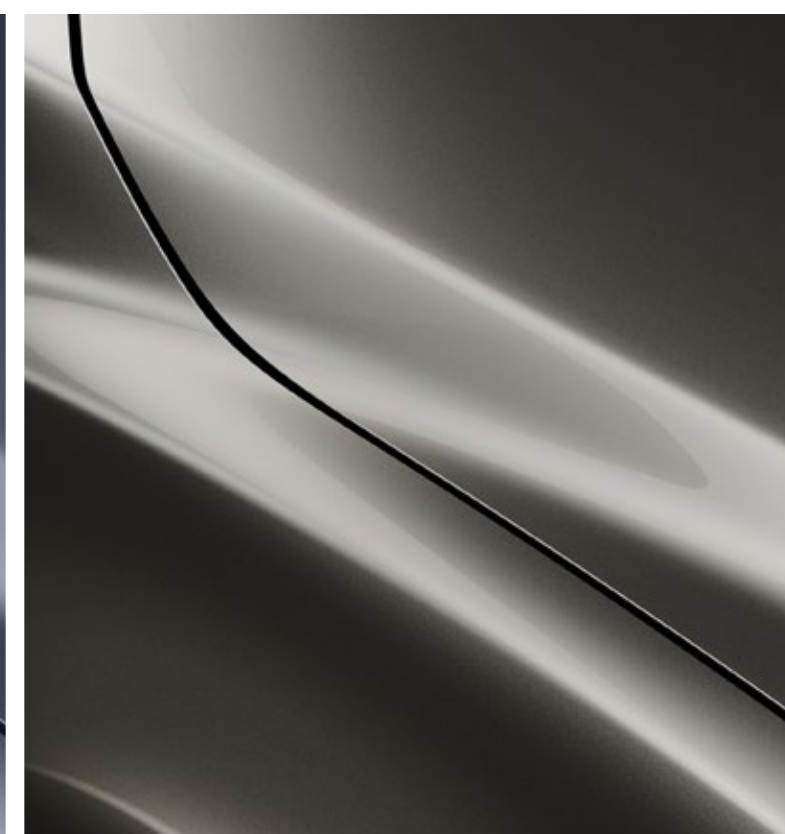

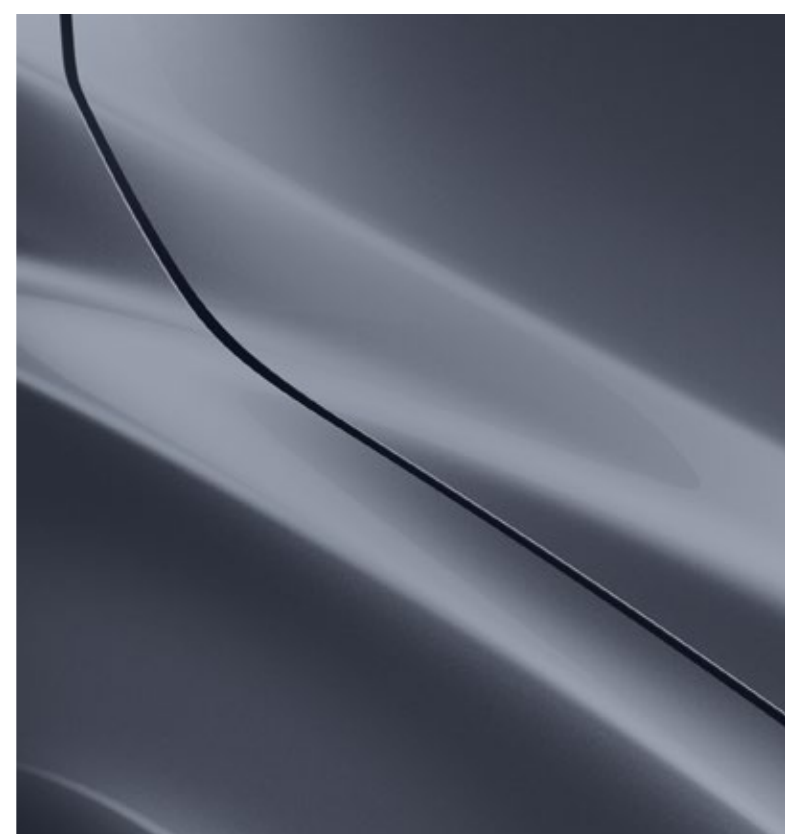

AN INTUITIVE EXPERIENCE

Consisting of 5 intuitive features, the Vision Technology package transforms your drive into a truly effortless one. It includes a 360° View Monitor, for superior visibility during low speed manoeuvres. Cruising and Traffic Support (CTS) assists with the accelerator, brake and steering while stuck in traffic. Driver Monitoring uses infrared cameras to detect driver drowsiness and deliver an alert when needed. Front Cross Traffic Alert (FCTA) checks for approaching vehicles in blind spots at T-intersections, and Front Parking Sensors help you handle parking with ease. Vision Technology is standard on G25 Astina and available to purchase on all other grades.

INTEGRATED STARTER GENERATOR
A small Integrated Starter Generator (ISG) captures energy normally wasted during braking and stores in a 24-volt battery that then can be used to start the engine and help you pull away.

REGENERATIVE-FRICTION BRAKE COORDINATION SYSTEM
The system converts kinetic energy into electricity as the car decelerates and stores it to power headlights, climate control, audio system and any other electrical equipment.

SPARK CONTROLLED COMPRESSION IGNITION
Using a process similar to a diesel, petrol is burned more quickly and more completely so you get better performance and fewer emissions than a conventional engine.
