ZERO EMISSIONS AT POINT OF USE.

The new HTD-5E is the industry's first high volume fully Electric Dumpster, with zero emissions at point of use and zero compromise on performance.

IDEAL INDUSTRY'S

We have ensured that the HTD-5E is equally safe and productive. An ideal product for the rental industry, housebuilding, landscaping, agriculture and much more.

LOW NOISE LEVELS.

Low noise levels make the Electric Dumpster ideal for urban areas, indoor working, 'out-of-hours' working, and allows better communication with co-workers.

NOISE REDUCTION

Operator station noise is reduced by a huge 14dB compared to the diesel model.

A FULL DAYS SHIFT.

Lithium-ion batteries power the machine for a full typical day, whilst offering two charging options: 110V, 230V to aid versatility.

INNOVATIVE SAFETY

An incredible charge time of just 73 minutes* from any standard domestic 3 pin plug.

*Charge times measured from 20-80% (Industry Standard)
