

**Innovation
that excites**

NISSAN PATHFINDER

With unrivalled space and superior comfort, the 7-seat Nissan Pathfinder is the family SUV that's going places. Its clever design and effortless technology ensure that every member of the family is ready for adventure. The only question is... **Where to next?**

FAMILY ADVENTURES START HERE

The image shows the interior of a car from a high-angle perspective. A sunroof is open, allowing bright sunlight to stream in from the top. The car's interior is dark, with black leather seats and a dashboard. A woman wearing a straw hat is sitting in the back seat, looking out the window with a smile. The view through the windows shows a bright, sunny day with a blue sky and some clouds. The overall atmosphere is bright and cheerful.

**WHERE THE
SUN SHINES ON
EVERYONE**

EASE INTO ANOTHER GREAT ESCAPE

With the innovative EZ Flex[®] seating system, comfort and accessibility sit side by side. The second row reclines as well as folds for easy access from both sides while the third row can recline for passenger comfort. And with LATCH AND GLIDE[™] technology, you can even tilt and slide the right-side of the second row with an ISOFIX-compatible child seat in place so access to the third row is easier than ever.

T1 model interior shown with booster seat (not included).

T1 model interior shown with booster seat (not included).

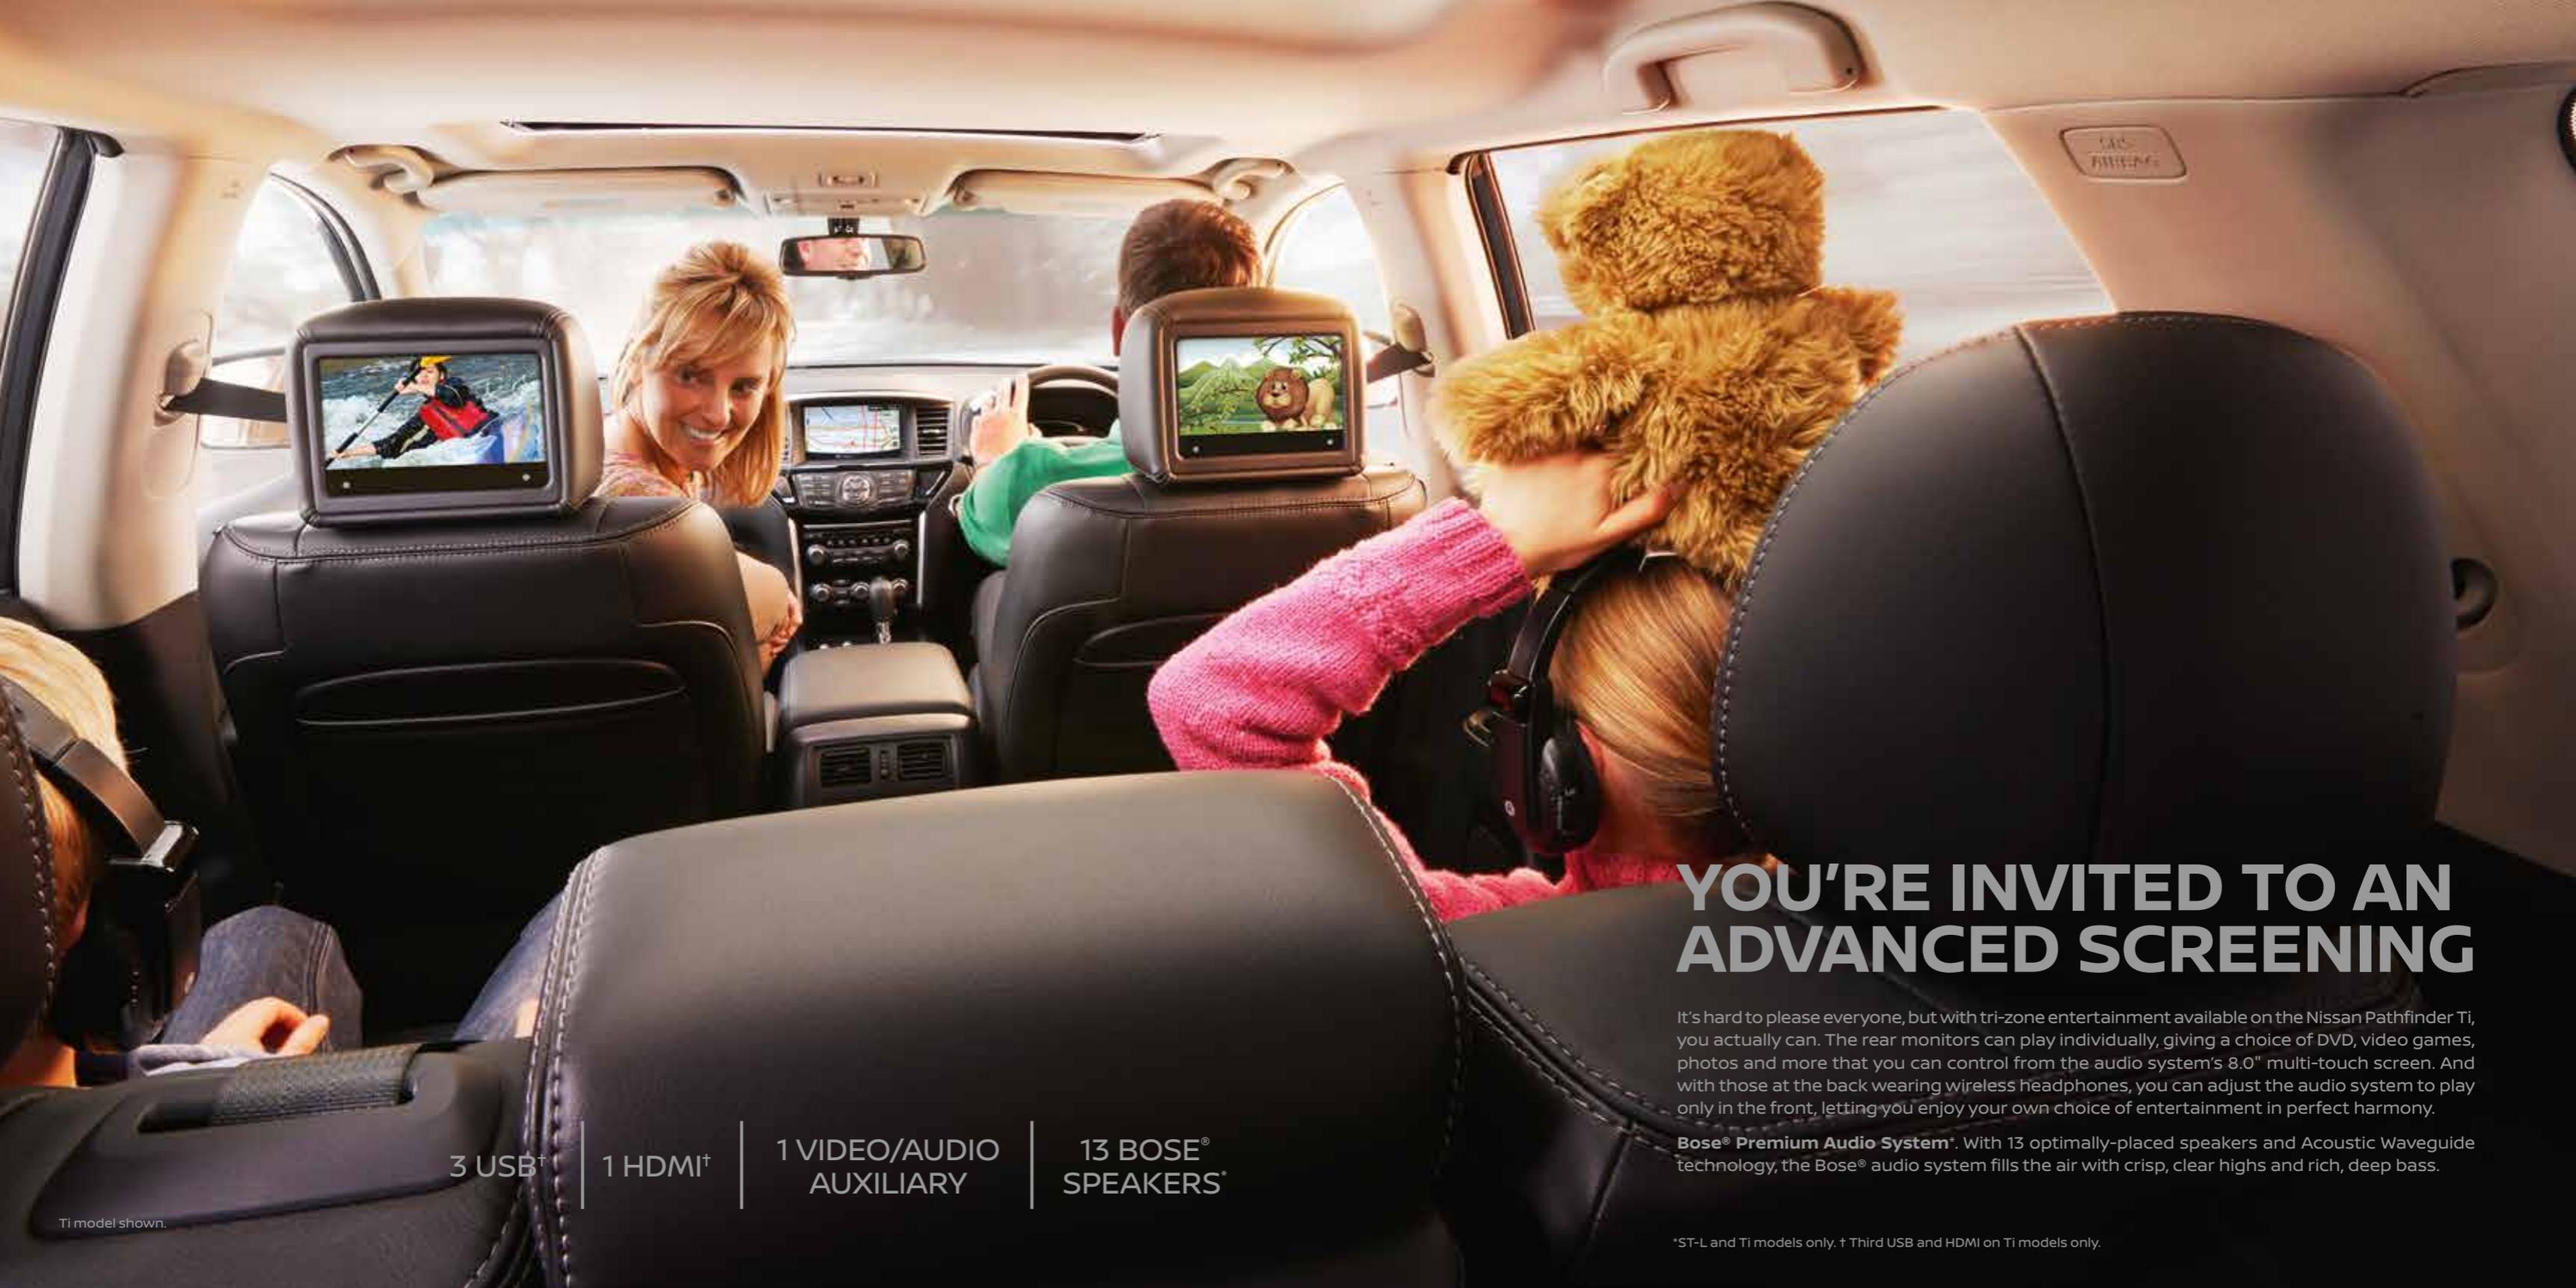

COMFORT TIMES SEVEN

Comfort is a high priority in the Nissan Pathfinder. As well as boasting 7 theatre-style adult sized seats, it features tri-zone climate control, large windows throughout and a panoramic glass roof* that brings natural light and scenery to your ride. Each and every passenger can travel in comfort with second and third row seating featuring a flat floor, arm rests, individual cup holders and loads of legroom.

TI model interior shown.

*ST-L and TI models only.

YOU'RE INVITED TO AN ADVANCED SCREENING

It's hard to please everyone, but with tri-zone entertainment available on the Nissan Pathfinder Ti, you actually can. The rear monitors can play individually, giving a choice of DVD, video games, photos and more that you can control from the audio system's 8.0" multi-touch screen. And with those at the back wearing wireless headphones, you can adjust the audio system to play only in the front, letting you enjoy your own choice of entertainment in perfect harmony.

Bose® Premium Audio System*. With 13 optimally-placed speakers and Acoustic Waveguide technology, the Bose® audio system fills the air with crisp, clear highs and rich, deep bass.

POSITION YOURSELF FOR ALL THE POSSIBILITIES

With so many possible seating and cargo configurations, the Nissan Pathfinder can handle almost any family need. Whether it's seven people, or just two people and 2,260 litres of load, the Nissan Pathfinder is primed and ready for your next adventure.

Ti model shown in Midnight Jade with Ivory seat trim.

Ti model interior shown.

MOTION-ACTIVATED TAILGATE

DISCOVER THE UPSIDE OF SMART DESIGN

Hands full? We've got you covered. With the Intelligent Key® in your pocket, just kick your foot under the rear bumper, and the Pathfinder Ti's motion-activated tailgate will automatically open to give you easy access to the versatile interior and cavernous cargo space.

Ti model shown.

DRIVERS ARE IN FOR A TREAT

It's not just the passengers who get it good. The Nissan Pathfinder sports some seriously impressive touches specifically designed with the driver in mind. It starts with the Intelligent Key®, which lets you unlock the doors and start the engine with the push of a button, without even taking the key out of your pocket.

Further to that there's an 8" touch-screen, satellite navigation with traffic monitoring* and an Advanced Drive-Assist™ Display which monitors tyre pressures, fuel use and much more. Each model also offers Bluetooth® connectivity with voice command for audio streaming and hands-free phone use. Connectivity is further enhanced by twin USB ports so you can connect and charge almost any device, and control them using the easy-access steering wheel controls or the touch-screen.

Add to that the 8-way power adjustable driver seat, driver position memory†, heated* and cooled‡ front seats and plush leather-accented black or ivory seat trim*^, and you've got a vehicle you'll just love to drive.

*ST-L and TI models only. †TI models only. ‡4WD models only.
^Leather accented features and upholstery may contain synthetic material.

ADVANCED DRIVE-ASSIST™ DISPLAY

Safety is paramount when driving your family. That's why the smart technologies in the Nissan Pathfinder are designed to provide crucial information at-a-glance, and can be effortlessly controlled from the steering wheel.

DRIVING AIDS*

TYRE PRESSURE MONITORING SYSTEM

4WD TORQUE DISTRIBUTION#

Ti model interior shown.

LOOK OUT BELOW

In Reverse, the display helps you see what's directly behind you, while the overhead view helps with smaller objects that might be hidden below your window.

SPARE YOUR WHEELS

In Drive or Reverse, you can push the camera button to switch-out the overhead for a side view. A great help for seeing how close you are to the kerb.

COMPLETE THE PICTURE

Located under your driver's side mirror, this camera helps round-out your virtual 360° bird's eye view, whether you're in Drive or Reverse.

DON'T BUMP YOUR NOSE

In Drive, the display gives you both a front and overhead view, so you know just how far to pull up - without going too far.

INTELLIGENT AROUND-VIEW® MONITOR
360 WAYS TO BE MORE AWARE

When it comes to parking, it's nice to see more than just what's directly behind you. That's why the Nissan Pathfinder features Intelligent Around-View® Monitor with Moving Object Detection* using four cameras to give you a virtual 360° bird's-eye view of your vehicle, with selectable split-screen close-ups of the front, rear and curbside views. And across the whole range, you'll find Predictive Path technology which uses a rear camera and rear sensors to ensure that when reversing, you can always get a better look.

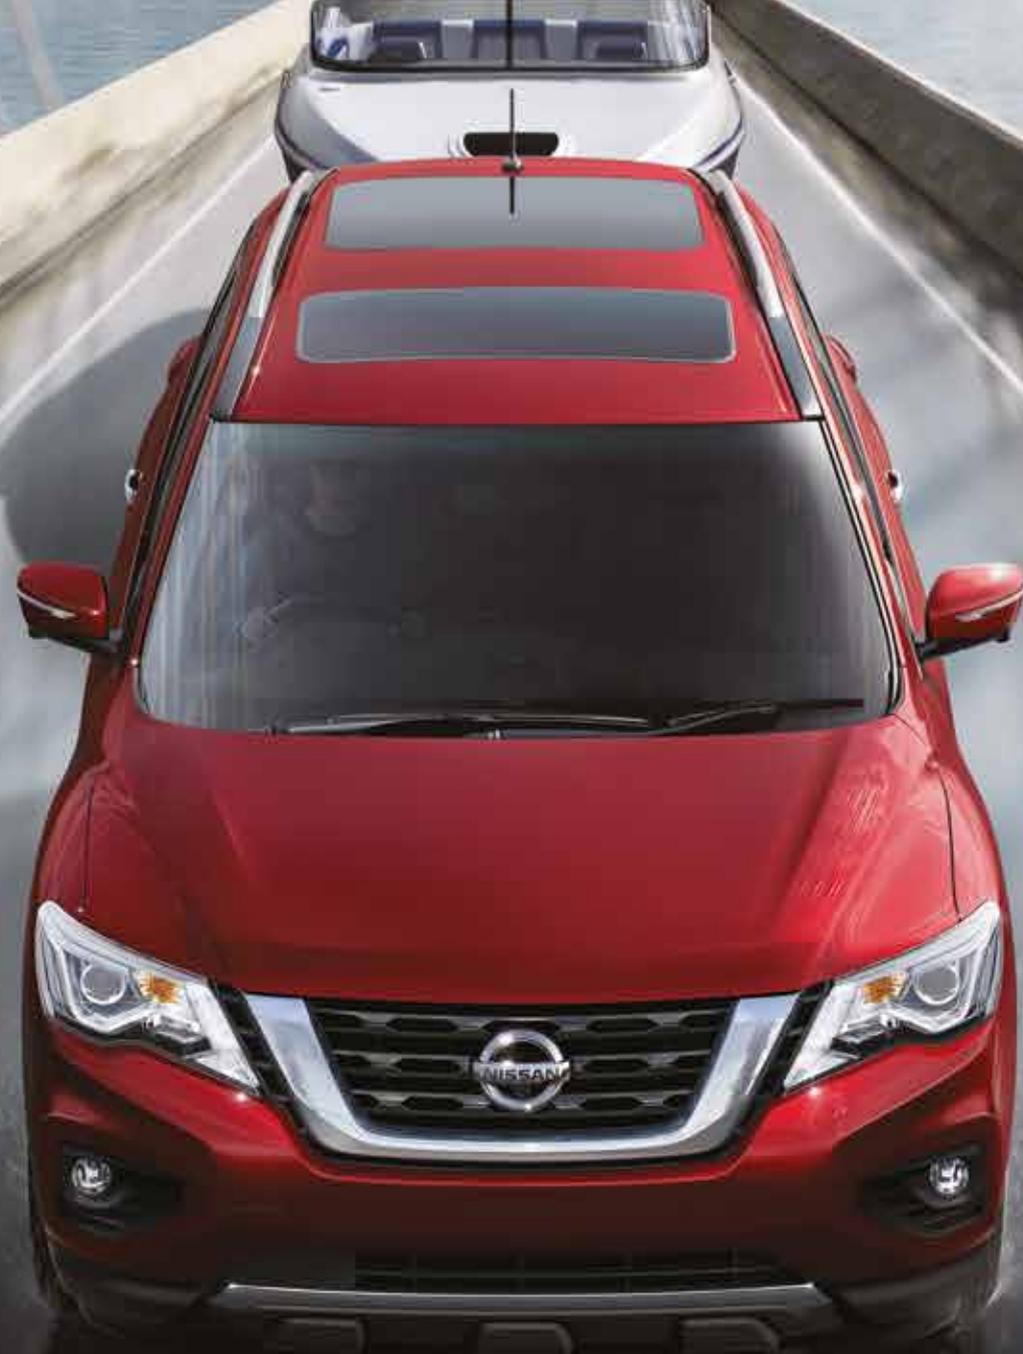

*ST-L and Ti models only. Driver's aid only. Always check surroundings before moving vehicle.

INTELLIGENT CRUISE CONTROL
SET IT ONCE AND GO WITH THE FLOW

Unlike traditional systems that only maintain a set speed, the Nissan Pathfinder's Intelligent Cruise Control* also helps maintain an adjustable set distance between you and the car in front. As traffic slows down or speeds up, the Nissan Pathfinder responds accordingly.

Ti model shown in Caspian Blue.

IT ALL ADDS UP TO A BETTER DRIVE

The Nissan Pathfinder's power and efficiency combine to make every drive exceptional. It starts with a potent 3.5L V6 petrol engine that provides plenty of passing power. Add in Nissan's Xtronic CVT and the drive only gets better. The CVT holds the engine at the ideal RPM for the job, giving you a wave of power when you need it and running low rpm for quiet, efficient cruising when you don't.

If ultra-efficiency is your goal, the optional hybrid* 2.5L 4-cylinder supercharged petrol engine mated to a 15kW electric motor is the solution. This compact, torque-assist electric motor seamlessly works in tandem with the petrol engine to conserve fuel when starting-up, coasting or stopping. Plus, the lithium-ion battery recharges automatically by converting kinetic energy from the braking vehicle, so you never have to charge it - brilliant!

*ST 2WD, ST-L 4WD and Ti 4WD models only.

*Figures tested in accordance with ADR81/02 (combined test). Figures stated for the purposes of comparison amongst vehicles only. It is unlikely that this fuel consumption figure will be achieved in real world driving conditions. Actual fuel consumption depends on factors such as traffic conditions, vehicle condition, how you drive and any accessories fitted.

V6

POWER	202 kW	HYBRID	188 kW
TORQUE	340 Nm		330 Nm
FUEL ECONOMY*	9.9-10.1 LITRE/100km		8.6-8.7 LITRE/100km

ST-L model shown in Cayenne Red.

INTELLIGENT 4X4 GO WHEREVER YOU WANT

With the Nissan Pathfinder's Intelligent 4x4 intuitive system*, you've got a vehicle that's capable on-road and off. Choose full-time 2WD for maximum efficiency or switch on the Auto Mode which constantly monitors conditions and adjusts the balance of power between front and rear wheels for best traction. Challenging terrain? 4WD Lock Mode is your choice.

Hill Start Assist

Hill Descent Control*

UPS AND DOWNS

If your travels take you on steeper paths, Hill Start Assist helps prevent rollback when starting and driving away on an incline. On the way back down, Hill Descent Control* automatically controls your speed and brake pressure so you can keep your attention on finding the best path down.

*4WD models only. Ti model shown in Caspian Blue with optional accessories fitted.

TI model shown in Ivory Pearl with optional accessories.

2700kg

BRAKED TOWING CAPACITY*

CARRY MORE INSIDE, CARRY MORE OUTSIDE

Go ahead, bring your favourite toys. 340 Nm of torque delivers an impressive 2,700kg of braked towing capacity*. Tow mode is designed to be used when the vehicle is pulling a heavy trailer or load. When accelerating or driving uphill, the Transmission Control Module (TCM) suppresses the "Upshift" by using gear ratio control to maintain engine RPM in a high torque range. When braking or driving downhill, the TCM helps to strengthen engine braking by controlling gear ratios to assist in controlling speed.

*V6 models only. Towing capacity is subject to towbar/towball capacity and is based on the fitment of a Genuine Nissan towbar. Towing capacity figure described is a maximum figure. Actual towing capacity depends on the laden mass of the vehicle, driving conditions, fitment of accessories or towing equipment limitations including the maximum towball download.

NISSAN INTELLIGENT DRIVING INNOVATION THAT LOOKS OUT FOR YOU

What if you had the confidence you need for every part of your drive? The Nissan Intelligent Mobility philosophy is a comprehensive approach to safety that guides the engineering and development of every vehicle we make.

MONITOR

Smart technologies are designed to help monitor conditions. Like a warning to let you know when a vehicle is in the blind spot area, or a system that helps ensure you're traveling on properly inflated tyres.

Available Features:

- Forward-collision Warning*
- Blind Spot Warning*
- Rear Cross Traffic Alert*
- Moving Object Detection*
- Tyre Pressure Monitoring System

RESPOND

Whether you need to hit the brakes hard or manoeuvre around an unexpected obstacle, these technologies help you respond to a potentially harmful situation.

Intelligent Emergency Braking* applies brake pressure when a collision is imminent.

Vehicle Dynamic Control helps you maintain your steered path.

Traction Control System helps reduce wheelspin in low-traction situations.

Anti-lock Braking System helps you maintain steering control around obstacles while braking heavily.

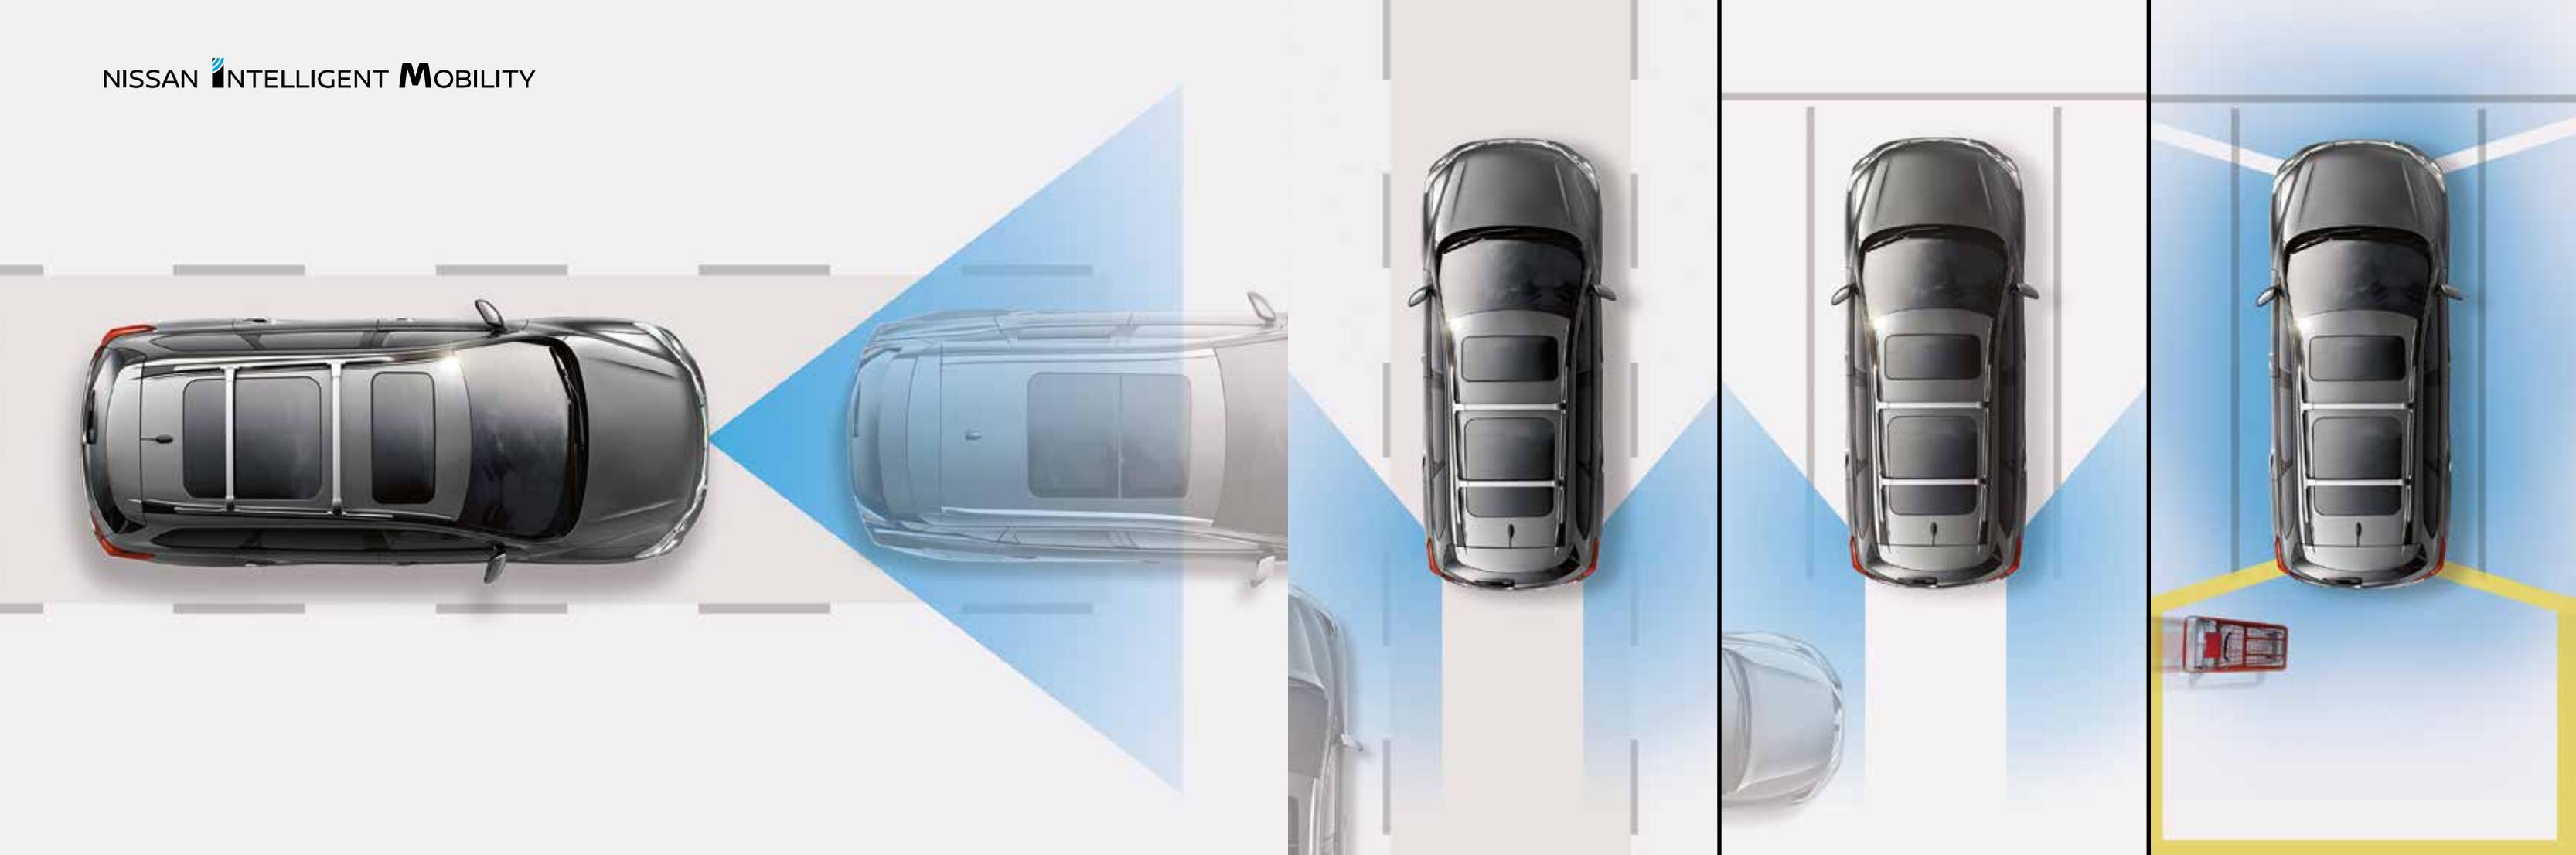

Electronic Brake Force Distribution sends extra force to the rear brakes when you have additional weight of passengers or cargo in the back.

Brake Assist helps apply maximum braking force if it detects hard braking and senses you are in an emergency situation.

PROTECT

When a collision is unavoidable, Nissan's Zone Body construction helps absorb the impact while the advanced seatbelts and dual front, side and curtain airbags protect drivers & passengers.

NISSAN INTELLIGENT DRIVING GET AWAY WITH JUST A WARNING

What if extra reassurance was easy to spot? The Pathfinder's Nissan Intelligent Mobility technologies offer you a suite of advanced systems that help keep an eye out all around you, and even watch the flow of traffic.

Intelligent Emergency Braking: Using radar technology to keep an eye on your proximity to the vehicle ahead of you, Forward-collision Warning* can give you audible and visual display warnings to help you know when to reduce your speed. If required, the Intelligent Emergency Braking will apply braking to reduce vehicle speed to avoid or reduce the severity of a collision.

Blind Spot Warning: If another vehicle is detected in the blind spot area, an indicator appears in the driver's or front passenger's door pillar. Then, if you put your turn signal on, the indicator flashes with a warning chime.

Rear Cross Traffic Alert: When you're backing out of a parking space, this feature watches the area around the rear of your Nissan Pathfinder, and can warn you about vehicles detected that you might not see behind you approaching from up to 20 metres either side.

Moving Object Detection: When the Intelligent Around-View® Monitor* is in use, and moving objects are detected at the rear of the vehicle, it gives a visual and audible alert.

Ti model shown in Caspian Blue.

Innovation
that excites

NISSAN INTELLIGENT MOBILITY

Nissan Intelligent Mobility guides everything we do. We're using new technologies to transform cars from mere driving machines into partners. Together we can make the journey more confident, connected, and exciting. Whether it's cars that share the task of driving with you, or highways that charge your EV as you go along, it's all in the very near future. And it's a future already taking shape in the Nissan you drive today. **Where to next?**
