## LDV DELIVER 7 VAN

	SWB LOW ROOF	LWB LOW ROOF
<b>Engine</b>		
Type	2.0L turbo diesel engine	
Maximum Net Power (kW)	123.5	
Maximum Torque (Nm)	390	
Displacement	1996cc	
Compression Ratio	15.9:1	
No. of Valves	16	
No. of Cylinders	4	
Bore x Stroke (mm)	83 x 92	
Eco/Power/Normal Mode	●	
Engine Stop/Start System	●	
Drive	Front Wheel Drive	
<b>Transmission</b>		
Type	9 Speed Automatic	
<b>Fuel &amp; Emissions</b>		
Fuel Tank (Litres)	80L	
Combined Fuel Consumption (L/100km)	7.7	
CO <sub>2</sub> Emissions g/km	203	
Emissions Standard	Euro 5	

## Steering & Handling

### Disclaimers:

1. Safety technologies operate within system parameters and may not operate, or may not operate optimally, under certain conditions. Safety technologies are not a substitute for the driver's control over the vehicle. The driver remains responsible for the vehicle.
2. Payload and kerb weight figures are based on vehicle certification. It is the driver's responsibility to ensure: weight of fully loaded vehicles do not exceed GVM; front and rear axle load limits are not individually exceeded; the combined weight of the fully loaded vehicle (including tow ball download when towing) and trailer does not exceed the GCM; compliance to State and Territory towing regulations. Payload is the combined value of occupants, luggage, cargo, added options, accessories and tow ball download (when towing). Kerb weight includes the vehicle with a full tank of fuel and all standard equipment excluding occupants. Additional weights of optional features, occupants, luggage, cargo, accessories and tow ball download (when towing) must be taken into account when calculating payload and kerb weight. When a genuine tow bar and wiring are fitted, blind spot monitoring will be disabled.
