JAC STILL HOLDS THE TOP SPOT.

You'll find our vehicles in more than 130 countries and regions, now proudly including Australia. JAC is the #1 exporter of high-end light trucks and the #2 exporter of Utes from China, as at the end of 2024.

JAC has Research & Development facilities in three countries - Italy, Japan and China - and, in 2018, its relentless drive for improvement and innovation saw JAC become the first Chinese automotive brand to exceed 10,000 patents, including more than 1,750 invention patents. JAC currently holds more than 12,500 patents.
