MOTORS**

Drive your Ambition

**ECLIPSE CROSS**

HERE NOW FOR WHEREVER NEXT

## HERE NOW FOR WHEREVER NEXT

Take yourself in a new direction with the striking style and cutting edge technology of the Mitsubishi Eclipse Cross.

Super All Wheel Control<sup>^</sup> and improved handling ensure every corner is hugged on all road surfaces, while a turbo charged petrol engine delivers next generation performance and economy.

Integrated Satellite Navigation<sup>\*</sup> can guide you, or you can simply lose yourself in the luxurious comfort of the Eclipse Cross cabin.

Designed to impress, built to drive, Eclipse Cross is engineered to shine every time you get behind the wheel.

# BUILT FOR THE ADVENTUROUS

Be bold. Go beyond the everyday with radically sharper lines and sleeker styling for looks that thrill. With an extended profile, Eclipse Cross has a distinctive, sportier stance fronted by slender LED Daytime Running Lights, defined head and fog light cluster and unique mesh patterned grille. Redesigned rear LED tail lights and roof spoiler surround a restyled hatch that provides greater driver visibility and more cargo space. Eclipse Cross makes a statement everywhere you go.

Exceed model shown.

## Eclipse Cross. Built for the time of your life.

Since 1917 Mitsubishi Motors has been at the forefront of technological innovations. Having launched the inventive Super-Select 4WD system and the world's first Plug-in hybrid electric SUV, our vehicles have been tested and triumphant on some of the world's toughest terrain including the Dakar rally. These engineering milestones, together with our commitment to reliability and ingenuity sets us apart. As we continue to move forward, pushing the boundaries of innovations, you can rest assured your Mitsubishi has been built for the time of your life.

# PLUG-IN HYBRID EV

## Drive into the new future.

Introducing the latest model to the Eclipse Cross range – Eclipse Cross Plug-In Hybrid Electric Vehicle. A one-of-a-kind crossover SUV with beautiful and sophisticated styling combined with the latest Mitsubishi Motors EV technology.

**ECLIPSE CROSS**  
PLUG-IN HYBRID EV

# ENERGY THAT LASTS.

**Smooth and comfortable EV driving. A Plug-in Hybrid system that's quieter and takes you farther.**

The Plug-in Hybrid EV system is equipped with small and lightweight high-powered motors in the front and rear wheels and achieves smooth and comfortable driving with the responsive and powerful start and acceleration performance that only a motor-driven system can provide.

While mainly running on motor power, the vehicle can also switch to engine power depending on the battery and driving conditions so you can enjoy driving without worrying about remaining battery levels.

**Plug-in Hybrid EV models can be charged at home or on the road.**

For regular charging, simply connect the vehicle to an EV charging outlet with a special charging cable. Quick charging spots allow you to charge quickly during a quick stopover.

How to charge	Regular charging			Quick charging
	230V(8A)	230V(10A)	230V(16A)	
Estimated charging time <sup>1</sup>	approx. 7.0 hours	approx. 6.0 hours	approx. 4.0 hours	approx. 25 min (80% charge) <sup>2</sup>

## EV Driving

### EV DRIVE MODE

Quiet and clean, EV driving is perfect for low to medium speed driving in urban areas.

## Hybrid Driving

### SERIES HYBRID MODE

When accelerating or climbing hills, the engine is used for power generation while the vehicle runs on motor power.

### PARALLEL HYBRID MODE

For high speed driving such as overtaking vehicles on the highway, the vehicle runs on engine power while being assisted by the motor.

<sup>\*1</sup>: Charging time from the lowest state on the remaining battery capacity display scale. <sup>\*2</sup>: When the maximum output current of the quick charger is 60A or more. In the case of quick charging, charging does not stop automatically until the battery is near full charge or 60 minutes have passed. However, the charging may stop automatically if the stopping conditions (charging time and amount of charge) are set on the quick charger. For regular charging, you need a special wiring for electric vehicles and an outlet for EV charging. Please ask the installation site for the charging conditions of the charger at the charging spot. The time is only a rough guide and will vary depending on the ambient temperature and the specifications of the quick charger. When using AC power, the engine starts automatically when the battery power is low and charges the battery. If the engine is started whilst the vehicle is stopped, it may violate the ordinance on idling stop. Note: Customers with devices such as implantable cardiac pacemakers and other medical devices may be affected by radio waves. For more information, please contact our sales staff.

# ECLIPSE CROSS

## PLUG-IN HYBRID EV

### The enjoyment and ease of use are endless.

#### **A cockpit that naturally enhances concentration whilst driving.**

The Head-Up Display<sup>^</sup> allows you to quickly see driving information and alerts. Reminiscent of a highly functional aircraft cockpit, the ambience naturally enhances the ability to concentrate on driving.

#### **Spacious luggage area that's easy to use.**

The Eclipse Cross Plug-in Hybrid EV comes with convenient luggage space that fits up to three 9.5 inch golf bags even with the rear seat occupied.

Loading and unloading is even easier with power tailgate with one touch open and hands-free operation.<sup>^</sup>

#### **Comfortable seating for all passengers.**

The rear seats are equipped with a reclining function that can be adjusted to the passenger's preference. The driver and front passenger seats are heated<sup>\*</sup>, and the driver's seat is equipped with a power seat<sup>\*</sup>. In addition, for models equipped with leather seats, seat heaters are also available on rear seats. Long drives can be enjoyed in comfort.

<sup>\*</sup>Aspire & Exceed models. <sup>^</sup>Exceed models only.

# ECLIPSE CROSS EXCEED

Black contrasts on dynamic 18" alloy wheels\* create a sophisticated balance of sport and style. Privacy glass\* on the back and rear windows helps prevent unwanted attention while protecting your passengers against UV rays.

Enjoy unobscured vision with front wipers that activate automatically\* when moisture is detected on the windscreen.

And as darkness falls, dusk sensing headlights automatically illuminate in fading light or when travelling through a tunnel.

\*Not available on ES model.

# EXHILARATION MEETS EXCEPTIONAL

Push boundaries without compromise. The sporty, meticulously crafted cockpit of the Eclipse Cross heightens your driving experience, while next generation technology and connectivity enhance driver awareness and control, delivering a more intuitive response to your every command.

Smart Key and One Touch Start<sup>#</sup> allows you to unlock the doors and tailgate and even start the engine with one touch of a button, all while your keys are safely tucked away in your pocket or bag.

<sup>#</sup>Not available on ES model.

The Head Up Display in Exceed models conveys vehicle information in full colour above the instrument panel for easy viewing. You can adjust image brightness and display height to suit your preference and time of day. The Head Up Display can be set to extend or retract when you turn the ignition on or off.

Electronic park brake with Brake Auto Hold<sup>#</sup> applies or releases the parking brake with the simple pull or push of a switch. While stopped, Brake Auto Hold keeps the vehicle stationary even if you release the brake pedal. Pressing the accelerator then releases the brake.

# STYLE WITH PURPOSE

Exceed model shown.

Intelligent design means interior sophistication and creature comforts extend to every passenger in the spacious Eclipse Cross cabin.

Bolstered seats provide relaxed driver support with Aspire models offering power adjusted driver's seat and heated front seats.

Exceed models offer the extra luxury of leather appointed seats\*, power adjusted driver and front passenger seats, with the additional comfort of heated front and rear seats plus steering wheel.

\*Exceed models only. Leather appointed seat are a combination of genuine and artificial leather and are not wholly leather.

Aspire model shown with optional accessories.

The rear seats are equipped with a reclining function that can be adjusted to the passenger's preference. The 60:40 split fold rear seats provide added flexibility and room for those longer items.

A dual panoramic sunroof\* brings the outside in. The powered front section opens like a traditional sunroof, while both the front and rear sun blinds can be opened or closed to let in light and breathtaking views.

Exceed models also offer electric tailgate with hands-free open and close, making loading and unloading easy and convenient.

# ALWAYS WELL CONNECTED

The Eclipse Cross features a larger 8" touchscreen with improved Smartphone Link Display Audio<sup>^</sup> (SDA). A true extension of your smartphone via Android Auto™<sup>1</sup> or Apple CarPlay<sup>2</sup>, you can access your phone's compatible apps and get directions, make calls, send and receive messages and listen to music from any source including DAB+ radio. With a smartphone storage tray and USB connectors in the centre console, everything is taken care of. As you navigate freely from inside, there's no limit to the fun you can have.

Eclipse Cross Exceed goes one step further with an integrated Satellite Navigation system. Aspire and Exceed models also feature an 8 speaker and 4 tweeter Mitsubishi Power Sound System (MPSS) to bring your playlists to life.

Primary phone call and music streaming functions can be controlled by voice command that features speech recognition technology. You're always in control, just say the word.

# CONFIDENCE ON ANY ROAD

The Eclipse Cross inspires complete confidence in challenging environments. Whether navigating winding roads or snowy conditions, the Super All Wheel Control (S-AWC)\* system supplies optimal torque to the wheels for enhanced vehicle dynamics.

S-AWC integrates Mitsubishi's proprietary Active Yaw Control (AYC), which uses braking to optimally distribute torque to the left and right wheels.

You can select the NORMAL, SNOW or GRAVEL drive mode depending on road conditions to enhance turning accuracy, straight-line stability and manoeuvrability on slippery roads. An indicator in the multi information display instrument panel keeps you informed of S-AWC status at all times.

The 1.5 litre Direct-Injection turbo-charged petrol engine puts instant acceleration at your command. Developing an impressive 110kW of power and 250Nm of torque for highly efficient and responsive performance.

Eclipse Cross is available with a continuously variable transmission (CVT) that provides smooth, powerful acceleration and outstanding fuel efficiency. For hands on control, 8-speed Sports Mode creates the satisfying sensation of shifting gears. Paddle shifters are mounted within easy reach to allow you to enjoy Sports Mode while keeping both hands safely on the wheel. Shifting is quick and easy, with the current gear position clearly shown on the multi-information display.

## NORMAL MODE

Optimal performance for everyday use.

## SNOW MODE

Enhances stability on slippery road conditions.

## GRAVEL MODE

Superior handling on rough roads for maximum control.

GUIDE. PROTECT. CONNECT.

# MiTEC

Mitsubishi Motors Intuitive Technology or MiTEC, is an integrated system\* of brilliant innovations in action, working in unison to guide and protect, alert and connect, even entertain. It thinks like you, reacts like you, before you even know it. MiTEC delivers unsurpassed safety and next generation features to the modern-day driver.

These significant safety features coupled with Mitsubishi's Reinforced Impact Safety Evolution (RISE) body means you can rest assured you're driving one of the safest cars on the road.

#### Rear Cross Traffic Alert<sup>\*1</sup>

Mitsubishi's Rear Cross Traffic Alert system helps detect approaching vehicles when reversing. It alerts you via a buzzer sound, and an indicator light appearing in the combination meter and blinking light in the side-door mirror.

#### Blind Spot Warning<sup>\*2</sup> & Lane Change Assist<sup>\*2</sup>

Mitsubishi's Blind Spot Warning and Lane Change Assist helps you change lanes with confidence. The Lane Change Assist system sounds an audible alert and displays a blinking warning in the door mirror when the system detects a high collision probability with a vehicle coming from behind moving in the same direction within 3.5m from your vehicle's side or 70m from its rear bumper.

#### Lane Departure Warning

Mitsubishi's Lane Departure Warning uses a camera to issue an audible alert and shows a warning on the multifunction display if your vehicle drifts from its lane while the turn signals are not operating.

**Forward Collision Mitigation<sup>3</sup>**

Mitsubishi's Forward Collision Mitigation system detects obstructions ahead and issues a visual and audible alert when there is a danger of collision, automatically applying the brakes to avoid collision or reduce impact.

**Multi Around Monitor<sup>3</sup>**

Mitsubishi's Multi Around Monitor provides a 360° birds-eye view of your car. The view from cameras mounted on the front, rear and sides of the vehicle (including birds-eye view) can be displayed in various combinations to reveal what is in blind spots and help you park more safely.

**Ultrasonic misacceleration Mitigation System<sup>\*4</sup>**

Mitsubishi's Ultrasonic misacceleration Mitigation System reduces the chance and severity of hitting obstacles 4m in front or behind when a driver mistakenly presses the accelerator when stationary or at speeds up to 10km/h.

**Adaptive Cruise Control<sup>1</sup>**

Mitsubishi's Adaptive Cruise Control uses radar technology to detect any cars in the lane ahead and adjusts the speed of your car accordingly while maintaining a safe distance set by you.

**Active Stability Control**

Mitsubishi's Active Stability Control intuitively recognises when you over-steer and applies the brake force to appropriate wheels to keep you stable through corners.

**Active Traction Control**

Mitsubishi's Active Traction Control helps maintain traction on most slippery or rugged surfaces. Active Traction Control automatically controls the engine output – so driving wheels are prevented from spinning. Sensing loss of traction in independent wheels it then applies braking force to that particular wheel and sends extra power and torque to other wheels with traction, to keep the vehicle moving and in control.

**Hill Start Assist**

Steep city streets or congested shopping mall ramps are no longer a problem with Mitsubishi's Hill Start Assist technology. It prevents the car from rolling backwards by maintaining braking force to give you time to move your foot from brake to accelerator.

**Electronic Brakeforce Distribution**

Mitsubishi's Electronic Brakeforce Distribution works hand-in-hand with your car's Anti-lock Braking System computer to assess load and distribute braking force between the front and rear wheels. When you have a load in the rear, it helps you stop in a shorter distance than with standard brakes.

**Anti-lock Braking System**

Mitsubishi's Anti-lock Braking System allows the driver to maintain steering control of the vehicle and manoeuvre around obstructions in heavy braking situations.

**Auto Dusk Sensing Headlights**

Mitsubishi's Dusk Sensing Headlights automatically illuminate in fading light or when travelling through a tunnel, allowing you to keep your hands on the wheel and your focus on the road ahead.

**Auto Rain Sensing Wipers**

Mitsubishi's Rain Sensing Wipers activate automatically when moisture is detected on the windscreen, allowing you to keep your hands on the wheel and your focus on the road ahead.

**Auto High Beam<sup>#</sup>**

Mitsubishi's Auto High Beam detects both the headlights of oncoming vehicles and the tail lights of vehicles ahead, automatically switching between high or low beams.

#Not available on ES model \*Exceed models only. #Aspire and Exceed models only. 3. The detection and control capabilities of FCM are supplementary only and do not prevent collisions in every situation. Please read the operation manual carefully and be aware of these limitations. 4. Ultrasonic misacceleration Mitigation System (UMS) may not activate in some conditions. The engine output control activates when driving; 01-10km/h (not in N or P Position), obstacle/vehicle is within approx. 4m range; accelerator pedal is pushed hard or abruptly; driver is not turning to avoid obstacle/vehicle. The detection and control capabilities of UMS are supplementary only and do not prevent misacceleration in every situation.

# MITSUBISHI DIAMOND ADVANTAGE GENUINE ACCESSORIES

**NOT GENUINE?  
DON'T RISK IT.**

Mitsubishi genuine accessories have been designed to maintain the integrity of your vehicle and work with all driving systems. Please ensure if fitting non-genuine accessories that they do not interfere with any of the vehicle safety sensors as this may lead to system malfunction and/or false activation. Some accessories are not offered by Mitsubishi on certain models as they interfere with vehicle safety sensors. **GENUINE ACCESSORY WARRANTY** Mitsubishi Motors Australia Limited warrants that Genuine Accessories will be free from defects in material under conditions of normal use and service within Australia. When Genuine Accessories are fitted prior to the owner taking delivery of the vehicle, Genuine Accessories are covered by a 36 month or 100,000km Warranty. When Genuine Accessories are fitted after the owner has taken delivery of the new Vehicle, Genuine Accessories are warranted for whichever is the greater of the following \*The balance of the 36 months or 100,000km (whichever occurs first) from date of vehicle delivery; or \*12 months or 20,000km (whichever occurs first) from date of fitment. Pictures shown are for illustration purpose and may not be product specific. Please check with your Mitsubishi dealer for specific model application.

WHEN ALL SCHEDULED SERVICES ARE COMPLETED  
AT A MITSUBISHI DEALERSHIP

All Mitsubishi Motors vehicles come with the Mitsubishi Diamond Advantage<sup>#</sup> – 10 Years Warranty\* and 10 Years Capped Price Servicing<sup>^</sup> and Roadside Assistance so that no matter where the road takes you, we will be there with you. Ask your Dealer or visit [mitsubishi-motors.com.au](http://mitsubishi-motors.com.au) to find out more.

<sup>\*</sup>Leather appointed seats are a combination of genuine and artificial leather, and are not wholly leather. <sup>^</sup>Conditions apply. Excludes Government, Rental and National Business customers. See [Mitsubishi-motors.com.au](http://Mitsubishi-motors.com.au) for further details. <sup>\*</sup>10 Year/200,000km New Car Warranty (whichever occurs first and when all scheduled services are completed at a Mitsubishi Dealership). <sup>^</sup>10 Year/150,000km Capped Price Servicing (whichever occurs first). Includes the first 10 regular services (at 15,000km/12 month scheduled intervals). Some items excluded or subject to separate warranty. Any non-regular service/repair items are at an additional cost. Servicing must be completed by a Mitsubishi Dealer within 7,500kms or 6 months of the service due date. Valid from date of vehicle registration. Always consult your authorised Mitsubishi Dealer for the latest details, options, availability and conditions on New Vehicle warranty. All product illustration and specifications referred to herein are believed to be correct at the time of publication approval. Subject to any applicable Federal, State or Territory Laws or ordinances, which may apply from time to time. Mitsubishi Motors Australia Limited reserves the right, without notice, or obligation, to discontinue or make changes to designs, specifications, colours and material of the options and products referred herein at any time without incurring any liability to any purchase thereof.
